## Altum

**MISSION** We help Latvia grow!

**VISION** To be a partner and financial expert in economic development

**VALUES** Excellence / Team / Responsibility

AS Attīstības finanšu institūcija Altum (the joint stock company Development Finance Institution Altum) is a Latvian state-owned company that implements the aid and development programmes by means of financial instruments and grants pursuing the state's policy in the national economy and providing for execution of other government assignments stipulated and delegated by laws and regulations. Eliminating market failures with the help of various support instruments that enhance the development of national economy is the fundamental purpose of Altum's activities.

## Long-term objectives until 2024

Following strategic development directions and long-term objectives are set according to JSC Development Finance Institution Altum Strategy for the period 2022 – 2024:

- The main financial objective in implementing the state support programmes is to ensure positive return on Altum's capital.
- The main non-financial objective is to support and facilitate availability of finances to business and to contribute to national economic development.
- Altum priority areas include issuing and servicing guarantees and loans, venture capital investments, solutions for climate change mitigation including implementation of energy efficiency programmes in both the residential building and corporate segment, initiation of new projects by expanding the range of the financial instruments offered, as well as the development of the Latvian Land Fund
- The main target activities embrace support for entrepreneurs, farmers and certain categories of persons, energy efficiency; the management of the Latvian Land Fund.
- Altum will particularly focus on environmental, social and corporate governance (ESG) considerations, both in financing decisions and in Altum's internal processes.

## Management Report

### Activity during the reporting period

In the first half of 2023, the Development Finance Institution Altum (hereinafter – the Company) have ensured stable financial results and earned a profit of EUR 7.9 million.

### Key financial and performance indicators

Based on data from audited financial statements for the respective years

	2023 6M (unaudited)	2022 6M (unaudited)	2022 12M (audited)
<b>Key financial data</b>

Long-term rating assigned by Moody's Investors Service	Baa1	Baa1	Baa1

\* TMA includes the off-balance sheet item, namely, guarantees at net carrying amount.

\*\* The calculation of liquidity ratio takes into account the previous experience and management estimate of the expected amount and timing of guarantee claims.

\*\*\* Taking into account the significance of the volume, the Land Fund portfolio, which consists of leaseback transactions and investment properties, is also presented in the operational volumes for the period. As in compliance with the accounting principles and IFRS the leaseback transactions are accounted for under the loans, the loan volume in this table has been reduced for the volume of the leaseback transactions as it is recorded under the Land Fund portfolio.

The figures are explained in the section 'Key Financial and Performance Indicators' under Other Notes to the Interim condensed report.

## Management Report (cont'd)

### Impact of the Russian military invasion of Ukraine

The ongoing war in Ukraine and the related sanctions targeted against the Russian Federation and to a lesser extent to Belarus may have impact on the Company as well as the potential social and economic impact in Latvia and the region. This has led to an energy crisis, an increase in inflation and a sharp rise in interest rates, which indirectly affects the Company's portfolio and leads to significant adjustments to the carrying value of assets and liabilities.

The Company does not issue loans directly to businesses in Ukraine, the Russian Federation and Belarus. Contracts with counterparties for the execution of settlements with customers, as well as for the conclusion of financial transactions for the liquidity and asset and liability management of the Company, are concluded with financial institutions established in Latvia.

In the guarantee's portfolio, the direct impact is from the Company's export credit guarantees issued to offset political and buyer risk losses in trade transactions where the Company's clients' counterparties are residents of Ukraine. The Company has suspended the issuance of new export credit guarantees to Russian Federation and Belarus since February 25, 2022. As of 30 June 2023, the Company has high-risk exposure in amount of EUR 76.5 thousand where clients' counterparties are in Ukraine.

To assess the indirect impact of the Russian Federation's invasion of Ukraine, the Company analyzes quarterly and, in case of significant changes, reviews the forward-looking macroeconomic indicators used to calculate expected losses, putting forward several scenarios. Since the average changes in macroeconomic scenarios for the next three years are insignificant, in the 2<sup>nd</sup> quarter of 2023, the impairment allowances for loans and guarantees were calculated using the revised scenarios used in the 4<sup>th</sup> quarter of 2022, resulting in no impact on impairment allowances from changes in macroeconomic scenarios.

In order to more fully assess the direct and indirect impact of the geopolitical situation, as well as to identify potential clients in difficulties and provide a further action plan, as well as apply appropriate risk mitigation methods, the Company closely monitors and analyzes the large exposures of loans and credit guarantees every quarter. It is assessed whether the increase in the price of energy resources, rising interest rates as well as the imposed sanctions against the Russian Federation and Belarus, has directly or indirectly affected or can significantly affect the solvency of customers.

In the 4<sup>th</sup> quarter of 2022, the Company carried out an assessment of the portfolio of loans and guarantees by sector, separately assessing how industries will be directly and indirectly affected by the increase in energy prices and the imposed sanctions against the Russian Federation and Belarus. As a result of this assessment, the Company has created an impairment overlay in amount of EUR 1,902 thousand for loans and EUR 856 thousand for guarantees and it has not changed since 31 December 2022, taking into account that no changes have been identified in the previously performed assessment and in the required amount of impairment allowances for expected credit losses.

The Company has made investments in AIF "Altum Capital Fund", its investment portfolio in the context of the Russian Federation's war in Ukraine is diversified by sectors and regions in which the fund's portfolio companies generate revenue, and this can be evaluated as a loss-mitigating factor. Thus, the impact of the war of the Russian Federation in Ukraine on each of the portfolio companies is different, however, like the previous periods, the most significant impact directly and indirectly resulting from the war and related sanctions was on two portfolio companies. The cumulative direct impact of the war of the Russian Federation in Ukraine as of 30 June 2023 was EUR 97 thousand (the Company's share).

The venture capital funds co-financed by the Altum operate in accordance with the current sanctions regulation and actively monitor changes in the binding regulatory acts. Every quarter, the Altum carries out an assessment of the venture capital funds' investments, carrying out an individual assessment of all venture capital funds' investments and considering the specific situation of each investment. The portfolio's companies of the venture capital funds co-financed by the Altum have adapted to the market situation and the impact of the Russian Federation's war in Ukraine. When reviewing the valuations of the portfolio companies, it has been found in some cases that the performance indicators of the companies exceed the previously made conservative forecasts, which has resulted in an increase in the fair value of the portfolio by EUR 778 thousand (the Company's share).

The cumulative effect of the Russian Federation's war in Ukraine as of 30 June 2023 was EUR 6.2 million, of which the direct impact is EUR 1.5 million and the indirect effect – EUR 4.7 million.

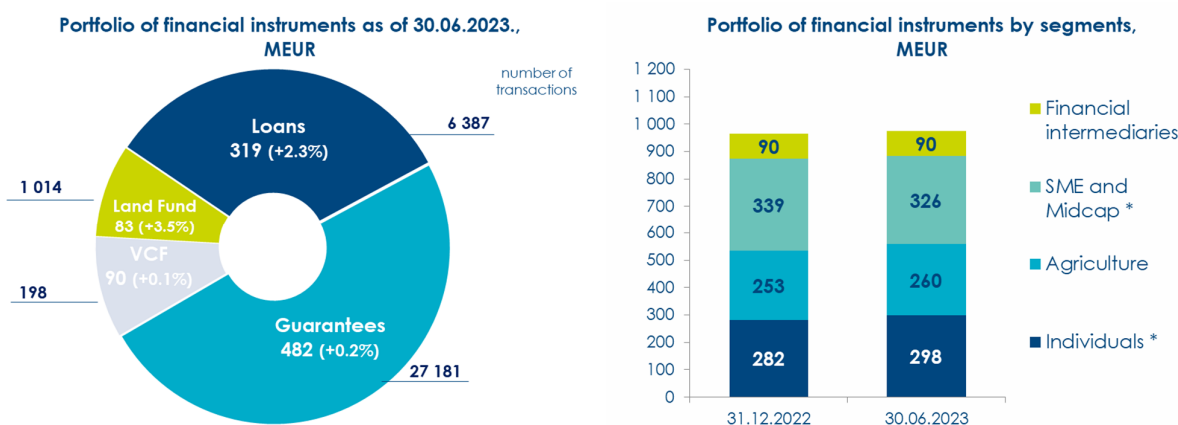

For more detailed information see Note 3 (3) to the Financial Statements.

## Management Report (cont'd)

### Operational volumes

The core business lines of the Company include lending, issuing of guarantees, investments in capital instruments, transactions of the Latvian Land Fund (hereinafter - the Land Fund) and servicing of grants that form the Company's portfolio of support instruments.

As at 30 June 2023, the Company's gross portfolio of support instruments amounted to EUR 1,055 million (31 December 2022: EUR 1,065 million), of which the gross portfolio of financial instruments totalled EUR 975 million and consisted of 34,780 projects (31 December 2022: EUR 964 million and 33,976 projects).

\* Loan portfolio of the Energy Efficiency Programme for Multi-apartment Buildings and of the Renovation Programme for Multi-apartment Buildings as of 31 December 2022 respectively in amount of EUR 14.1 million and EUR 1.1 million was reclassified from the SME and Midcap segment to the Individuals segment

In the 6 months of 2023, the Company's gross portfolio of financial instrument increased by EUR 11 million (+1.1%) and by 804 projects (+2.4%). During this period, the portfolio increased in all financial instruments. The loan portfolio increased by EUR 7 million (+2.3%), which is more than in the 6 months of 2022, when the loan portfolio increased by EUR 4 million (+1.3%). On the other hand, the guarantees portfolio increased by only EUR 1 million (+0.2%) in the 6 months of 2023, which is significantly less than in the corresponding period in 2022, when the guarantees portfolio increased by EUR 28 million (+6.8%). The volumes of the loan portfolio and guarantees portfolio were still significantly affected by the rapid amortization of the existing portfolio of the Covid-19 support instruments (EUR 26 million in the 6 months of 2023 compared to EUR 11 million in the 6 months of 2022), however, the volume of new transactions was able to compensate for these reductions. The portfolio of the Land Fund increased by EUR 3 million (+3.5%) in the 6 months of 2023, which was the second largest in this period, but significantly less than in the corresponding period in 2022, when the portfolio of the Land Fund increased by EUR 5.7 million (+6.4%). The increase in the portfolio of investments in the venture capital funds (VCF) was small - EUR 0.1 million (+0.1%) and it was like the growth of the portfolio in the corresponding period in 2022, when the portfolio of investments in the VCFs increased by EUR 0.3 million (+0.4%). The slight increase in the portfolio of investments in the VCFs was significantly influenced by repayments from the exit of investments in the 2<sup>nd</sup> and 3<sup>rd</sup> generation VCFs.

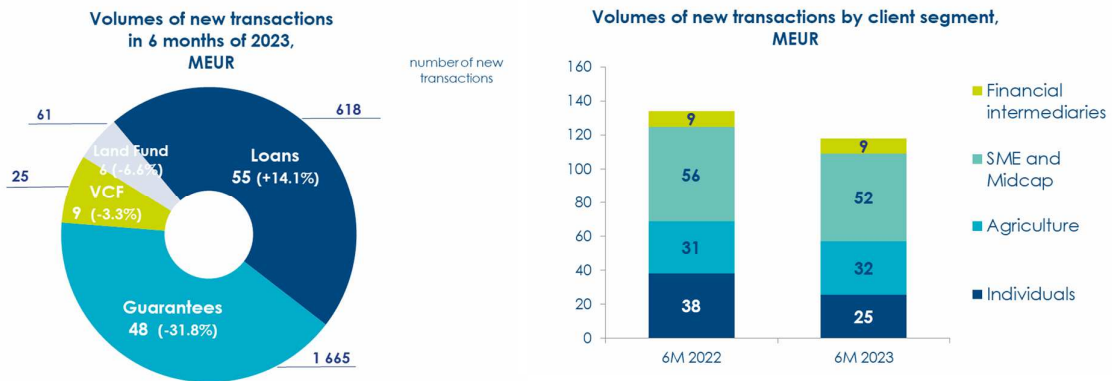

By segment the largest portfolio of the Company is formed in the SMEs and Midcaps segment – 33% (31 December 2022: 35%), while the Individuals segment accounts for – 31% (31 December 2022: 29%), the Agriculture – 27% (31 December 2022: 26%) and the Financial intermediaries – 9% (31 December 2022: 10%). In the 6 months of 2023, the largest increase in the volume of the portfolio was in the Individuals segment - EUR 16 million. (+5.7%), which is twice less than in the corresponding period in 2022, when the portfolio increased by EUR 27 million. (+12.7%). Considering that the portfolio of the Individuals segment consists of loan and guarantees programmes for Multi-apartment Buildings as well as housing guarantees that are characterized by long repayment terms (over 10 years), the slower amortization of portfolio of this segment and lower new volumes ensured a constant growth of the portfolio despite the high inflation, rising construction costs and high interest rates. The portfolio of the Agriculture segment grew by EUR 8 million (+3%), which is almost three times less than in the 6 months of 2022, when the portfolio of this segment grew by EUR 23 million (+10%), which was influenced by much larger volumes of new transactions in the 6 months of 2022 compared to the same period in 2023 in the loan programmes and the Land Fund. There was a significant decrease in the portfolio of the SMEs and Midcaps segment, where the decrease in the portfolio was similar both in the 6 months of 2023 and in the 6 months of 2022, EUR 13 million (-3.8%) and EUR 12 million (-3.2%) respectively. The decrease in the volume of the portfolio of this segment in the 6 months of 2023 was basically influenced by the rapid amortization of the existing portfolio of the Covid-19 support instruments and smaller volumes of new transactions.

# Management Report (cont'd)

## Volume of new transactions

The volume of new transactions in the 6 months of 2023 was 12.2% (-EUR 16 million) less than in the 6 months of 2022 in all financial instruments, except for loans, and in all segments, except for the Agriculture segment. In the 6 months of 2023, the total funding disbursed for the implementation of the support programmes amounted to EUR 118 million, breaking down as follows: 46.6% (EUR 55 million) for loan programmes, 40.8% (EUR 48 million) in guarantee programmes, 5% (EUR 6 million) in the Land Fund transactions and 7.6% (EUR 9 million) in investments in the venture capital funds. Totally, 2,369 projects were supported (-26.7% compared to the 6 months of 2022).

In the 6 months of 2023, the largest volume of the new transactions was in the SMEs and MidCaps' segment, accounting for 44% of all new transactions, in the Individuals' segment – 21%, in the Agriculture segment – 27% and in the Financial Intermediaries' segment – 8%. The decrease in the volume of new transactions is explained by the still cautious and wait-and-see attitude of entrepreneurs and individuals towards new investments and taking on credit obligations, which is affected by high inflation, although its pace has started to stabilize, and the ever-growing interest rates, which were affected by the increase in interest rates by the European Central Bank this year in the 1st quarter, as well as in May and June, in response to long-term high inflation.

\* The volume of new transactions in the Energy Efficiency Programme for Multi-apartment Buildings and the Renovation Programme for Multi-apartment Buildings in the 6 months of 2022 in amount of EUR 2.1 million and EUR 0.2 million respectively is reclassified from the SME and Midcaps segment to the Individuals segment

The biggest drop in the volumes of new transactions was in the Individuals segment, which was affected by volumes of new transactions in the Energy Efficiency Programme for Multi-apartment Buildings and the housing guarantees programme. The volume of new transactions in the Energy Efficiency Programme for Multi-apartment Buildings in the 6 months of 2023 was EUR 13 million lower compared to the corresponding period of 2022, which was affected by the implementation cycle of the Energy Efficiency Programme for Multi-apartment Buildings within the European Union planning period, when the Energy Efficiency Programme for Multi-apartment Buildings of the previous planning period ends and a funding of the new support programme for the multi-apartment buildings financed under the Resilience and Recovery Fund has not yet been disbursed – the allocation of grant's funding available under the existing programme for the multi-apartment buildings energy efficiency projects ended on December 31, 2022, therefore the Altum guarantees for banks that were financing multi-apartment buildings energy efficiency projects still available in this programme were issued in 2022, while the volumes of new transactions under the multi-apartment buildings energy efficiency loan programme only started to increase in the 2<sup>nd</sup> quarter of 2023, with the resumption of the active construction season (the volume of new transactions in the 1<sup>st</sup> quarter of 2023 was EUR 1 million, while in the 2<sup>nd</sup> quarter it was EUR 3.2 million). A faster increase in the volume of new transactions in the multi-apartment buildings energy efficiency programme is expected in the second half of 2023, when the multi-apartment buildings energy efficiency programme projects approved at the end of 2022 will continue to be implemented. On the other hand, the volume of new transactions in the housing guarantees programme was by EUR 6 million lower than in the corresponding period in 2022 and it was affected by rising interest rates and slowdown in bank lending, as well as high construction costs. By providing the state aid for housing acquisition for families with children, a total of 23,824 guarantees of EUR 190 million have been issued up until 30 June 2023 within the framework of the Programme for Housing Guarantees for Families with Children. At the same time, in the Individuals segment, the multi-apartment buildings renovation programme should be highlighted, which was launched in 2022 and shows a stable and growing amount - EUR 1.8 million in the 6 months of 2023 and EUR 0.2 million in the 6 months of 2022, and the offer of which is being expanded, allowing to predict the increase in demand.

## Management Report (cont'd)

### Volume of new transactions (cont'd)

The volume of new transactions in the Agriculture segment in the 6 months of 2023 remained almost same to the volume of the first half of 2022, respectively EUR 32 million and EUR 31 million. In general, the good harvests of previous years strengthened the financial position of farmers, which allowed them to receive better lending conditions from banks, so the demand for such Altum support instruments as loans (-1 million EUR) or Land Fund transactions (-1 million EUR) was lower, while the demand increased in the farmers' guarantee programme, where the volume of new transactions increased by EUR 3 million compared to the corresponding period in 2022.

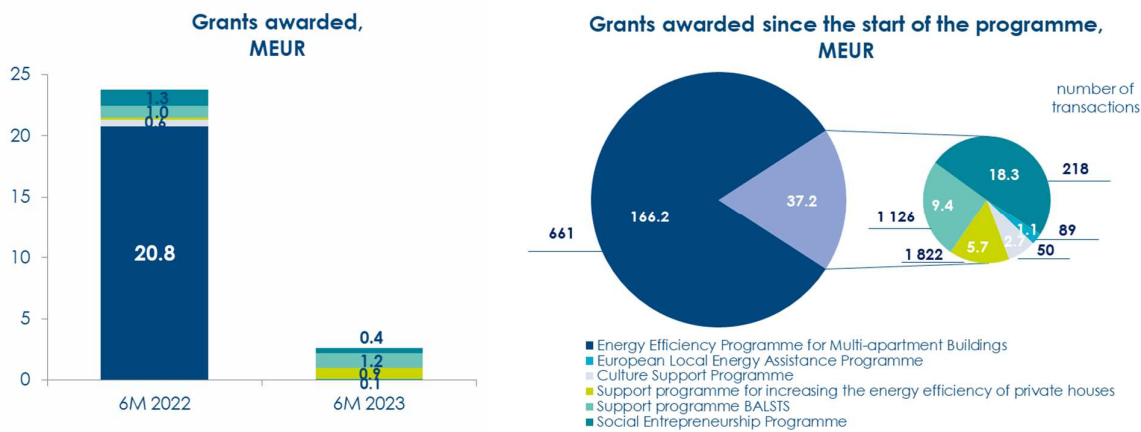

A slight drop in the volume of new transactions by -8.1% (-5 million EUR), comparing the 6 months of 2023 with the same period in 2022, was observed in the SMEs and Midcaps segment. The volume of new transactions in this segment has increased compared to the 6 months of 2022, both in the new support programmes - loans for mitigating the consequences of the Russian Federation invasion of Ukraine (+8.5 million EUR), investment loans for the Midcaps with a capital rebate (+1 million EUR) and energy efficiency loans for enterprises under the Resilience and Recovery Fund (+1 million EUR), where a faster increase in the volume of new transactions is expected in the coming months, as well as loans for increasing the energy efficiency and sustainability of enterprises in the existing support programmes (+5 million EUR). On the other hand, the volume of new transactions decreased in the SMEs growth loan programme (-3 million EUR) and start-up and micro loan programmes (-1 million EUR), as well as in the commercial guarantees' programmes (-6 million EUR). The volume of new transactions in the SMEs and Midcaps segment has not increased under the influence of high interest rates, which motivated part of entrepreneurs to significantly reduce their credit obligations and rely more on their own financing. On the other hand, other entrepreneurs, due to the specifics of the industry, product or service or the stage of the company's life cycle, cannot fully rely on their own financing, so they attract borrowed financing even in conditions of high interest rates. Considering the specifics of the business, when issuing guarantees for investment or working capital loans, as well as guarantees for bank issued guarantees, a regular review and the extension of the issued guarantee are required for existing customers. This type of transaction is not attributed to newly issued guarantees because it is considered as an extension of guarantees. However, the volume of such transactions is quite significant, with EUR 42 million of guarantees extended in the 6 months of 2023 (in the 3 months of 2022: EUR 40 million).

## Management Report (cont'd)

### Non-financial instrument portfolio

In order to make accessing to the support instruments more convenient for its clients, apart from the financial instruments, the Company services the grant programmes as well, namely, the grants issued under the Energy Efficiency Programme for Multi-apartment Buildings, Social Entrepreneurship Programme, the support programme BALSTS for the purchase or construction of housing for families with three or more children and the Culture Industry Support Programme, providing support in the form of loans and grants (combined financial instrument) where the grant does not exceed 40% of the total aid amount as well as grants under the support programme for increasing the energy efficiency of private houses. Considering the individual's interest in the support provided under this programme, proposals were developed, and, on 8 March 2022, the Cabinet of Ministers approved respective amendments granting additional funding of EUR 3.3 million for continuing the programme as well as extending the range of potential beneficiaries and including support for the installation of solar panels in private houses, which is currently attracting a lot of interest.

In the 6 months of 2023, a total of 441 grants for the total amount of EUR 3 million were committed in all grant programs (in the 6 months of 2022: 263 grants for the total amount of EUR 24 million). Since the end of 2022, new grants are no longer committed in the Energy Efficiency Programme for Multi-apartment Buildings, the approved projects are currently being implemented.

On 30 June 2023, the total portfolio of grants in the service of the Company was EUR 80 million (31 December 2022: EUR 101.1 million), of which EUR 77 million (31 December 2022: EUR 97 million) consists of the grant portfolio of the Energy Efficiency Programme for Multi-apartment Buildings.

## Management Report (cont'd)

### New products and increasing operational efficiency

The Company continues to strengthen its role as the main government partner for the implementation of financial instrument programmes co-financed by the European Union (hereinafter - the EU). In total, at least EUR 650 million will be available as financial instruments under the Recovery and Resilience Facility (RRF) and the EU Cohesion Policy for the programming period 2021-2027.

In cooperation with the Ministry of Economy, the work has been started on the development of new programs within the EU Cohesion Policy for the programming period 2021-2027.

In 2023, the Company, in cooperation with the Ministry of Economy and the Ministry of Finance, plan to finalize work started in previous years on the creation of the Baltic Small and Medium Enterprises Initial Public Offering Fund (SME IPO Fund) with the aim of starting the operation of the SME IPO fund in 2024. The aim of the SME IPO fund is to support and diversify Baltic SMEs, as well as small mid-caps and innovative mid-caps access to financing and to develop the Baltic capital market in accordance with the EU capital market goals.

The Company is also actively working on sustainable financing for new products.

The work also continues on the implementation of several existing programs and the improvement of conditions:

- the RRF energy efficiency programme for companies: the funding of EUR 80.5 million is available to companies for increasing energy efficiency and wider use of renewable energy technologies. Funding to companies is available in a form of the Company's loan or a parallel loan with a capital rebate for principal repayment, the maximum loan amount is EUR 5 million, loan term – up to 20 years. The capital rebate is 30%, but no more than EUR 1.5 million and will be applied when the project has been implemented and the target indicators have been achieved. The programme has been supplemented with guarantees for the purchase of electric cars for companies, providing financing of EUR 5 million for this purpose. Until the reporting date, a total of 91 applications for loan with capital rebate were submitted, of which 28 was approved (attributable amount of capital rebate EUR 2.7 million).
- The RRF digitization programme for companies: the funding of EUR 45.1 million is available to companies for digital transformations of companies, i.e., for promotion of digitization, automation and robotization. Funding to companies is available in a form of the Company's loan or a parallel loan with a capital rebate for repayment of the principal amount, the maximum loan amount is EUR 7 million, loan term – up to 10 years. Capital rebate is up to 35%, but no more than EUR 1.0 million and it will be applied if the preconditions of the digital development roadmap issued by the European Digital Innovation Centre (EDIC) are fulfilled and a positive EDIC post-assessment is received no later than 6 months after the completion of the project. The call for applications opened on February 22, 2023, a total of 7 applications (attributable amount of capital rebate EUR 3.9 million) have been received until the reporting date.
- The RRF energy efficiency programme for multi-apartment buildings: the funding of EUR 57.3 million is available to improve the energy efficiency of multi-apartment buildings and transition to the use of renewable energy technologies. The programme is intended for apartment owners of multi-apartment residential buildings and its purpose is to make investments in the sector of multi-apartment residential buildings in order to promote the resolution of the housing issue in Latvia, help to achieve the set climate goals in reducing gas emissions and reduce the level of energy poverty. Funding is available in a form of loan or guarantee with a capital rebate for repayment of the principal amount of the loan, the maximum loan amount is EUR 3.75 million, loan term – up to 20 years, maximum guarantee amount – up to 80% of the loan, guarantee term – up to 20 years. Capital rebate is up to 49% and it will be applied if the project results in at least 30% of primary energy savings. No applications were submitted until the reporting date.
- The RRF low-rent housing construction programme: the funding of EUR 42.9 million is available for the construction of residential rental houses in the regions, in order to promote the availability of low-rent housing that meets construction standards and energy efficiency requirements. Funding to companies is available in a form of the Company's loan or a parallel loan with a capital rebate for repayment of the principal amount, the term of the loan is up to 30 years. The capital rebate is up to 30% and will be applied when the building has been put into operation and at least 90% of the apartments have been rented. A total of 9 applications for the total projects costs of EUR 69.5 million have been received until the reporting date.

## Management Report (cont'd)

### New products and increasing operational efficiency (cont'd)

- the Large Investment Loan Programme offering a capital rebate for medium-sized and large enterprises: under the programme, entrepreneurs have access to a loan with a capital rebate of up to EUR 10 million. The Company provides project funding with a loan amounting to the potential capital rebate, the remainder to be raised from other funders. The new programme differs from previous business support programmes to the effect that it includes a capital rebate or a complete or partial reduction (discharge) of the loan principal. A company can qualify for a loan with a capital rebate by achieving the project's objectives and meeting certain criteria. The capital rebate is planned to be applied gradually over three years after the end of the project implementation and monitoring period. Until the reporting date, the Company is still evaluating 11 projects (attributable amount of capital rebate EUR 80.5 million), a positive decision has been made on 11 applications (attributable amount of capital rebate EUR 70.9 million), of which 4 have already been contracted (attributable amount of capital rebate EUR 23 million), while 7 project applicants have withdrawn their applications (attributable amount of capital rebate EUR 52.5 million) and a negative decision on refusal has been made on 4 applications to finance an investment project (attributable amount of capital rebate EUR 24.1 million). On 3 July 2023, the Company's extraordinary shareholders' meeting has decided to increase the funding of the programme from EUR 99.6 million to EUR 152.1 million, redistributing additional funding EUR 52.5 million from the allocated, but unused funding for Covid-19 support measures. It is planned to amend the conditions of the programme by adding the option for companies not to use bank financing, but these changes have yet to be approved by the Cabinet of Ministers.
- Support programme for companies whose operations have been affected as a result of Russia's aggression against Ukraine: the programme funding of EUR 21.5 million for loans and EUR 12.5 million for guarantees is intended for viable companies for adapting their business model, improving export capacity, conquering new markets, new technologies and process optimization, product development in the context of the Russian Federation military aggression against Ukraine. The programme's funding is available for companies until 31 December 2023. As part of the loan programme, the Company has committed new loans for a total amount of EUR 11.5 million until 30 June 2023.
- The Loan Programme for Renovation of Multi-apartment Buildings: under this programme, the Renovation Fund for financing renovation and other related costs for multi-apartment buildings is set up. The funding of EUR 31 million is intended for repairs of common areas and improvement of the surroundings as well as for replacing water pipes or roofs, installing a children playground or a sports field, renovating the facade of the building and other works that improve the condition of the building and create a more pleasant living environment. The programme is also opened to the owners of rental and historic building as there were found ways to extend support for the renovation of residential buildings. Thus, the Repair Fund will also be available for the renovation of historic pre-war tenement houses and restoration of unoccupied houses, which so far had a limited access to funding. On May 23, 2023, the Cabinet of Ministers supplemented this programme with the possibility for apartment owners of multi-apartment buildings to apply for a loan to buy-out the land on which the multi-apartment building is located from its owners. The call for applications on such loans the Company opened on July 27, 2023.
- The Energy Efficiency Support Programme for Private Houses: envisages granting portfolio guarantees, technical assistance and grants for increasing the energy efficiency of private houses. The maximum amount of technical assistance per beneficiary is EUR 1,000, while a grant for increasing the energy efficiency class of a residential house is expected in the amount of EUR 5,000 per beneficiary. Considering the individual's interest in the support provided under this programme, the range of potential beneficiaries was extended, including support for the installation of solar panels in private houses as well as facilitating the construction process for installing solar panels, thus private house owners are eligible for support not only for improving energy efficiency, but also for the installation of microgeneration technologies, i.e., solar panels and small-scale wind turbines.

In the 6 months of 2023, proceeding with the centralised reviewing of the applications for micro loans (up to EUR 25 thousand) introduced within the framework of automation and increasing of the Company's operational efficiency, 24% (in the 6 months of 2022: 29%) of the total number of the granted loans were reviewed remotely without involving the regional employees in the application reviewing process. The decrease in the number of applications in the centralised reviewing can be explained by the increase in the costs of the applied projects, as a result of which the amount of loan applications exceeds the limit set for the centralised reviewing by EUR 25 thousand – the average loan amount reviewed remotely on a centralised basis decreased from EUR 15 thousand in the 6 months of 2022 to EUR 14.8 thousand in the 6 months of 2023, while the average loan amount in the regions increased from EUR 86 thousand in the 6 months of 2022 to EUR 90 thousand in the 6 months of 2023. Taking into account increase in the costs of the applied projects and the decrease in the average loan amount reviewed remotely on a centralised basis, the Company has reviewed the limit of EUR 25,000 set for the centralized remote evaluation, by increasing it to EUR 50 thousand.

## Management Report (cont'd)

### Rating

On 16 December 2022 Moody's Investors Service (Moody's) affirmed the Company's Baa1 long-term issuer rating, with outlook stable, same as affirmed in March 25, 2019. The baseline credit assessment (BCA) is also affirmed at Baa3, together with the short-term issuer rating at P-2. Soon after on 21 December 2022 Moody's published an updated credit opinion on the Company.

In June 2017 for the first time Moody's assigned to the Company a long-term credit rating Baa1 which is one of the highest credit ratings assigned to a corporate entity in Latvia.

The assigned rating and being a regular participant in the capital market as well as bond issuance makes it possible for the Company to implement more successfully the Company's long-term strategy for fund raising.

### Risk Management

In order to have an adequate risk management, the Company has developed the Risk Management System that provides both preventive risk management and timely implementation of risk mitigation or prevention measures. While assuming risks, the Company retains the long-term capability of implementing the established operational targets and assignments.

To manage risks, the Company applies various risk management methods and instruments as well as establishes risk limits and restrictions. The choice of the risk management methods is based on the materiality of the particular risk and its impact on the Company's operations.

In view of the Company's activities in high-risk areas when implementing the state aid programmes, as at 30 June 2023 the Company has the risk coverage of EUR 319 million (31 December 2022: EUR 297 million) to cover the expected credit loss of the State aid programmes. The expected loss is assessed before implementing the respective aid programme and a portion of the public funding received within this programme is earmarked for the Risk Coverage. The Risk Coverage consists of the sum of the Risk Coverage Reserve and Portfolio Loss Reserve (Special Reserve Capital) less provisions for expected credit losses.

In view of the invasion of Ukraine by the Russian Federation, starting from February 2022, the Company has limited all types of cooperation with citizens of the Russian Federation and the Republic of Belarus and their related companies.

In view of the invasion of Ukraine by the Russian Federation, which resulted in the EU and the rest of the world imposing sanctions against the Russian Federation and the Republic of Belarus and their right holders and in order to reduce the risk of sanctions, the Company imposed additional control measures both during the issuance of financial instruments and the monitoring of business relationships, in addition, changes have been made to the Company's policy of legalization of proceeds of crime and the prevention of terrorist financing and proliferation and compliance with sanctions by determining that the Company refrains from cooperation with companies, where the owners, beneficial owners or officers are citizens of the Russian Federation or Belarus.

The Company continuously monitors changes in sanctions and keeps a close eye on developments in Ukraine. The Company takes measures to minimise the potential direct or indirect impact on the Company's operations that might be caused by developments in Ukraine or sanctions against Russian Federation and the Republic of Belarus, including, but not limited to, additional monitoring of transactions with clients whose core business could be affected by both by the events in Ukraine and the sanctions introduced against the Russian Federation and the Republic of Belarus.

In addition to the above, the Company has taken the necessary measures during 2022 to identify potential clients in difficulties and to assess whether the increase in the price of energy resources, as well as the imposed sanctions against the Russian Federation and the Republic of Belarus, has directly or indirectly affected or may significantly affect the solvency of clients, as well as to ensure the quantification of direct and indirect impacts and the establishment of appropriate impairment allowances.

### Contribution to Sustainability

The financial sector has a crucial role to play in achieving the European Green Deal objectives, including the transition to a climate-neutral, climate-resilient, resource-efficient and fair economy. Sustainability is a key part of the Altum's business and strategy and has become an important strategic driver for the banking sector as well as for development finance institutions in Europe. Altum takes responsibility for the long-term impact of its day-to-day activities and continuously works to ensure that the investment decisions it makes in building its portfolio contribute to sustainable development, do not adversely impact sustainability factors and facilitates its clients' transition towards a sustainable economy and encourages responsible business practices.

Guided by the detailed ESG road map 2022, active work continues on activities of the ESG road map covering the integration of ESG aspects into credit risk management for Altum's loan and guarantee portfolios in the SME, Midcap and Agriculture segments – both for development of ESG risk assessment matrix and scoring model, and tailored client ESG questionnaire to collect information for ESG risk assessment and clients' planned/actual sustainability KPI's data. In Q2 2023, a methodology for ESG risks materiality assessment has been developed and the heatmaps of loan and guarantee portfolios of the SMEs and Agriculture segments towards transition risks and various climate physical risks has been completed. That is the starting point for decisions data-driven in management of transition and climate physical climate risks. In addition, it promotes the development of new sustainable financing products to facilitate companies' successful transition towards climate-neutral economy, as well as the ability to successfully operate in supply chains, considering the significant changes in sustainability requirements driven by companies' value chains.

The existing Altum's sustainable financing segments, defined by Green Bonds Framework 2021 - energy efficiency, renewable energy resources, passive housins and sustainable transportation – are supplemented with a new segment - "facilitating the transition of companies towards climate-neutral economy". This segment comprises sustainable financing that facilitates the companies' resilience towards transition risks, strengthen competition and doesn't allow shrinking of market share and revenue challenged by value chains' sustainability requirements. "Sensitive" industries - industries with high consumption of fossil resources and/or highly exposed towards transition risks are of most focus. Sustainable financing solutions covers both the decarbonization of companies' supply chains and investments in the decarbonization of the company's product life cycle, as well as technologies ensuring lower CO<sub>2</sub> emissions for industrial operations requiring dedicated fossil-fired energy supply to achieve high temperatures, as well as investments to mitigate the effects of climate physical risks.

In the 2<sup>nd</sup> quarter of 2023, work continues on tagging current green/sustainable projects in the SME and Agriculture segments and the assessment of the CO<sub>2</sub> footprint of the loan portfolio of these segments.

Later this year the ambition level will be set, where the Green Asset Ratio for new loans and the existing loan portfolio will be defined for both a 3-year period and up to 2030. Among other things, the existing client portfolio will be reviewed, stimulating clients to move towards sustainable development as well as phasing out the financing of projects that do not meet Altum ESG considerations in credit risk management.

The AIF "Altum Capital Fund" investments have been made, paying due attention to the ESG performance of the target company and the expected impact of related economic changes on the company's supply and value chains. In compliance with the requirements of The Sustainable Finance Disclosure Regulation, the Fund policy was published at the end of 2022, which reflects how the Company assesses the principal adverse effects of the Company's investment decisions on sustainability factors (Principal Adverse Impact report), in accordance with the requirements of Article 4 of SFDR.

## Management Report (cont'd)

### Future Outlook

At the beginning of 2023, the Company, in cooperation with the Ministry of Economy, has started to develop the programmes in order to start the implementation of financial instrument support programmes under the new EU Cohesion Policy programming period 2021-2027. The funding available within the planning period of the new EU Cohesion Policy 2021-2027 will not only complement the currently available RRF funding in areas such as increasing energy efficiency (buildings, energy-efficient equipment, electric cars) and the use of renewable energy technologies (solar panels, etc.) for companies and increasing energy efficiency of apartment buildings at home, but the new funding will also be available for new directions such as technology transfer and prototyping, innovation and digitization.

In order to prepare for the implementation of the new InvestEU program of the European Union, in the 1st half of 2023, in cooperation with the selected independent auditor, the Company has accomplished the compliance assessment (Pillar Assessment). Pillar assessment is a prerequisite for the Company to be able to apply for the InvestEU implementing partner role and, in the future, also for the role of cooperation partner in the implementation of EU funds thus increasing the scope of new specialized and customized financial instruments to the companies in Latvia. The first stage of the assessment is planned to be completed in the 3rd quarter of 2023, by submitting a draft report to the European Commission. After coordinating the draft report with the European Commission, the essential recommendations that the Company will have to implement will be identified. The assessment is planned to be completed in 2024 after the European Commission, based on the information provided by the Company and the auditors' opinion, has obtained sufficient confidence in the implementation of the recommendations. The decision on submitting the application for the InvestEU implementing partner role has not yet been made.

# Approval of the Financial Statements

The Management of the Company has approved these unaudited interim condensed financial statements on 30 August 2023.

## 1 General Information

### (1) Corporate Information

These unaudited interim condensed financial statements contain financial information on the joint stock company "Development Financial Institution Altum" (hereinafter - the Company), as well as comparatives on the Company and its subsidiaries (hereinafter - the Group).

Comparatives on the Group's financial performance for the 6 months of 2023 are included in the Statement of Comprehensive Income, Statement of Changes in Equity and the Cash Flow Statement, respectively, as well as in the relevant notes to the financial statements.

JSC Development Finance Institution Altum is a Latvia state-owned company that ensures access of the enterprises and households to the financial resources by means of support financial instruments - loans, guarantees, investments in venture capital funds - in the areas defined as important and to be supported by the state, thus developing the national economy and enhancing mobilization of the private capital and financial resources. On 16 December 2022, the international credit rating agency Moody's Investors Service reaffirmed the Company's long-term credit rating of Baa1 with a stable outlook, which is at the same level as it was approved on 25 March 2019. The baseline credit assessment (BCA) has also been approved at Baa3, along with a short-term rating of P-2. The rating assigned to the Company by Moody's is one of the highest credit ratings assigned to Latvian capital companies.

JSC Development Finance Institution Altum was established on 27 December 2013 by a decision of the Cabinet of Ministers. The mission of the Company's establishment is by merging three prior independently operating companies providing state support into a single institution and further allocate the state funds for implementation of financial instrument state support and development programmes in one place. The Company's operations are governed by its specific law – Development Finance Institution Law. The Company's Article of Association has been approved by the Cabinet of Ministers. All voting shares of the Company are owned by the Republic of Latvia. The holders of the shares are ministries of the Republic of Latvia as stipulated by the Development Finance Institution Law with following split of the shares – the Ministry of Finance 40%, the Ministry of Economics 30% and the Ministry of Agriculture 30% respectively.

The Company does not perform any regulated activities related to the financial and capital markets as financial institution, therefore the Company is not required to comply with capital adequacy requirements. However, the Company operates in accordance with the best financial and capital market practices regarding internal control, risk management and compliance.

The Company holds investment in alternative investment fund "Altum Capital Fund" (the Fund) registered on 31 July 2020. The Fund is created with the aim to support well-managed, perspective Mid-cap companies to overcome the effect of Covid-19 that as a result of the virus impact are ready to adjust their operations by changing their business model, adjusting product development, introducing new technology and expanding to new export markets. The Fund's committed capital was fully subscribed on September 16, 2020, reaching EUR 100 million, of which the majority (EUR 51.1 million or 51.1%) were largest private pension funds and EUR 48.9 million consists of public funding invested by the Company. The Company is also the manager of the Fund registered with the Financial and Capital Market Commission on 26 May 2020. The investment period agreed with the EC ended on 30 June 2022, after its end, new investments were no longer approved, but investments in the portfolio's companies approved until 30 June 2022 continued. The capital investment paid into the Fund on 30 June 2023 amounted to EUR 36.4 million.

## 2 Accounting Policies

### (1) Basis of presentation

These unaudited interim condensed financial statements for the 6 months ended 30 June 2023 were prepared in accordance with International Accounting Standard (IAS) 34 "Interim Financial Reporting", as adopted in the European Union. These financial statements are to be used together with the complete financial statements for the year 2022 prepared in accordance with International Financial Reporting Standards (IFRS), as adopted in the European Union.

Company's financial statements are prepared under the historical cost convention as modified by the fair valuation of financial assets measured at fair value through other comprehensive income, derivative financial instruments and investment properties and support programme financing.

The preparation of financial statements in accordance with International Financial Reporting Standards as adopted by European Union requires the use of estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period.

All amounts in the interim condensed financial statements are presented in the national currency of Latvia – the euro (EUR).

### (2) Application of new and/or amended IFRS and the interpretations issued by the International Financial Reporting Interpretations Committee (IFRIC)

The following amendments to the existing standards issued by the International Accounting Standards Board (IASB) and adopted by the EU are effective for the current reporting period. Their adoption has not had any material impact on the disclosures or on the amounts reported in these financial statements:

- **Amendments to IFRS 3 "Business Combinations"** — Reference to the Conceptual Framework with amendments to IFRS 3 issued by IASB on 14 May 2020;
- **Amendments to IAS 16 "Property, Plant and Equipment"** — Proceeds before Intended Use issued by IASB on 14 May 2020;
- **Amendments to IAS 37 "Provisions, Contingent Liabilities and Contingent Assets"** — Onerous Contracts — Cost of Fulfilling a Contract issued by IASB on 14 May 2020;
- **Amendments to various standards due to "Improvements to IFRSs (cycle 2018 -2020)"**, issued by IASB on 14 May 2020. Amendments to various standards resulting from the annual improvement project of IFRS (IFRS 1, IFRS 9, IFRS 16 and IAS 41) primarily with a view to removing inconsistencies and clarifying wording;
- **IFRS 17 "Insurance Contracts"** — IFRS 17 supersedes IFRS 4 "Insurance Contracts" and related interpretations while applied, issued by IASB on 18 May 2017;
- **Amendments to IAS 12 "Income Taxes"** — Deferred Tax related to Assets and Liabilities arising from a Single Transaction issued by IASB on 6 May 2021;
- **Amendments to IAS 1 "Presentation of Financial Statements"** – Classification of Liabilities as Current or Non-Current issued by IASB on 23 January 2020.
- **Amendments to IAS 1 "Presentation of Financial Statements"** — Disclosure of Accounting Policies adopted by the EU on 2 March 2022;
- **Amendments to IAS 8 "Accounting Policies, Changes in Accounting Estimates and Errors"** — Definition of Accounting Estimates issued by IASB on 12 February 2021.

## 2 Accounting Policies (cont'd)

### (2) Application of new and/or amended IFRS and the interpretations issued by the International Financial Reporting Interpretations Committee (IFRIC) (cont'd)

At present, IFRS as adopted by the EU do not significantly differ from IFRS adopted by the International Accounting Standards Board (IASB) except for the following new standards and amendments to the existing standards, which were not adopted by the EU as at the date of authorisation of these financial statements:

- **Amendments to IAS 1 “Presentation of Financial Statements”** — Non-current Liabilities with Covenants issued by IASB on 31 October 2022, amendments clarify how conditions with which an entity must comply within twelve months after the reporting period affect the classification of a liability;
- **Amendments to IFRS 16 “Leases”** — Lease Liability in a Sale and Leaseback issued by IASB on 22 September 2022;
- **IFRS 14 “Regulatory Deferral Accounts”** — the European Commission has decided not to launch the endorsement process of this interim standard and to wait for the final standard;
- **Amendments to IFRS 10 “Consolidated Financial Statements” and IAS 28 “Investments in Associates and Joint Ventures” - Sale or Contribution of Assets between an Investor and its Associate or Joint Venture** – Sale or Contribution of Assets between an Investor and its Associate or Joint Venture and further amendments (effective date deferred indefinitely until the research project on the equity method has been concluded).

The Company makes further assessment on the impact of these new standards and amendments, but the Company anticipates that the adoption of these new standards and amendments to the existing standards will have no material impact on the financial statements of the Company in the period of initial application.

## 3 Risk Management

The major risks that the Company is exposed to are credit, liquidity and operational risks. These unaudited interim condensed financial statements do not include all information on risk management and disclosures required in the annual financial statements. They are to be viewed together with the complete financial statements for the year 2022.

\* According to IAS 7 "Financial Instruments: Disclosures" requirements the major part of the guarantee portfolio issued by the Company has been classified within maturity "Up to 1 year". The exception is the housing guarantees for families with children and housing guarantees for young specialists – these guarantees with remaining contractual maturity exceeding 3 years, counting from the reporting date, are classified within maturity "1 to 5 years", because the compensation mechanism for housing guarantee for families with children and housing guarantee for young specialists stipulates that compensation for the declared guarantee cases is paid within 3 years from the date the guarantee case is declared. In turn, the housing guarantees for families with children and housing guarantees for young specialists with remaining contractual maturity shorter than 1 year, counting from the reporting date, are presented in accordance with the remaining contractual maturity.

Maturity profile of the Company's expected undiscounted future cash flows of financial liabilities, off-balance liabilities and liquid assets "Up to 1 year" as at 30 June 2023 and supporting analysis is presented in table below.

\*\* After expiring of the support programme its funding remains on the Company's balance sheet since any repayment from the existing support programme accumulates and are used to finance new support programmes.

\*\*\* Since part of off-balance sheet items and contingent liabilities is backed by funding recognized as financial liabilities, EUR 126,884 thousand are included in both the Company's financial liabilities and the Company's off-balance sheet items and contingent liabilities.

## 3 Risk Management (cont'd)

### (2) Liquidity Risk (cont'd)

Maturity profile of expected undiscounted future cash flows of financial liabilities, off-balance liabilities and liquid assets "Up to 1 year" as at 30 June 2023, in thousands of euro:

	Up to 1 month	1 to 3 months	3 to 6 months	6 to 12 months	Total up to 1 year
Due to credit institutions	162	1 565	5 629	8 304	15 660
Due to general governments	3 504	354	3 445	8 232	15 535

<b>Liquid assets</b>	<b>585 795</b>	<b>105</b>	<b>32 283</b>	<b>45 337</b>	<b>663 520</b>

\* Split of off-balance sheet items and contingent liabilities by type of financial instrument – outstanding financial guarantees, loan commitments and grant commitments as well as commitments to AIF "Altum capital fund", investments in associates and other investments, are presented in Note 25.

Contingent liabilities and financial commitments are funded from various funding sources available to the Company.

Outstanding financial guarantees in amount of EUR 299,231 thousand (up to 1 year) – from respective guarantee support programme funding (see Note 21) and Specific reserve capital (see Note 24). Track records of claimed guarantee compensations presents that the volume of guarantees claimed within such terms are considerably less than the amount of the commitment disclosed in the above maturity analyses.

Loan commitments in amount of EUR 78,472 thousand (up to 1 year) – from financial facilities (either received by the Company or available to the Company upon request) concluded with financial institutions and the Treasury (see Notes 19 and 20) and respective loan support programme funding (see Note 21).

Grant commitments in amount of EUR 14,869 thousand (up to 1 year) – from respective grant support programme funding (see Note 21).

Commitments to investments in associates in amount of EUR 25,078 thousand (up to 1 year) – from respective venture capital fund support programme funding (see Note 21).

Commitments to AIF "Altum capital fund" in amount of EUR 3,126 thousand (up to 1 year) – from specific reserve capital (see Note 24) and additional funding from shareholders expected in 2023.

Commitments to other investments in amount of EUR 7,394 thousand (up to 1 year) – for Baltic Innovation Fund 2 from support programme funding and repayments on different support programmes (see Note 21) and the Company's own funding for Three Seas Initiatives Investment Fund.

As a consequence, the liquidity of the Company is not deteriorated.

## 3 Risk Management (cont'd)

### (3) Impact of the Russian military invasion of Ukraine

The ongoing war in Ukraine and the related sanctions directed against the Russian Federation, as well as against Belarus, create social and economic effects in Latvia and the region, as well as affect the Company. This has triggered an energy crisis, an increase in inflation and a sharp rise in interest rates. This indirectly affects our portfolio. This leads to significant adjustments to the accounting value of assets and liabilities. We describe below how we have assessed the direct and indirect impact of these events.

The Company does not issue loans directly to companies in Ukraine, the Russian Federation and Belarus. Contracts with business partners for the execution of settlements with clients, as well as for concluding financial transactions to ensure the Company's liquidity and asset and liability management, are concluded only with financial institutions registered in the Republic of Latvia.

In the guarantee portfolio, a direct impact is possible from the export credit guarantees issued by the Company for the compensation of losses of political and buyer risks in trade transactions where the business partners of the Company's clients are residents of Ukraine. Since 25 February 2022, the company suspended the issuance of new export guarantees to the Russian Federation and Belarus as at 30 June 2023, the impact may arise only from high-risk exposures where the customer's counterparty is in Ukraine. As of 30 June 2023 the Company has high-risk exposure where the customer's business partners are in Ukraine, EUR 76.5 thousand.

The Company has made investments in AIF Altum Capital Fund. In the context of the Russian Federation war in Ukraine, the Altum Capital Fund's investment portfolio is diversified both by sectors and by the regions in which the portfolio companies generate revenues, which is seen as a loss mitigating factor. The impact of the Russian Federation war in Ukraine on each of the five portfolio companies is therefore different.

Similarly, as in previous periods, the two portfolio companies had the most significant impact from the direct and indirect consequences of the war and related sanctions. Even though both companies ended 2022 with a drop in volumes, which is directly related to leaving the Russian market, at the same time they were able to adapt to the situation and ensure stable or even improve profitability. Companies continue to look for new ways to reduce this impact, and so far they have succeeded either by replacing the decline with new markets or new product categories, as well as by reviewing operational expenses. The portfolio companies explained that the situation with disruptions in the supply chains improved at the beginning of 2023, but the uncertainty remains. As of 30 June 2023, the cumulative direct impact of the Russian Federation war is EUR 97 thousand (Altum's contribution).

To assess the indirect impact of the Russian Federation invasion of Ukraine, the Company analyses and in case of significant changes revises the forward-looking forecasts of macroeconomic indicators in a several of scenarios used to calculate expected losses on a quarterly basis.

## 3 Risk Management (cont'd)

### (3) Impact of the Russian military invasion of Ukraine (cont'd)

With the Latvian economy developing slightly better in late 2022 and early 2023 than previously projected, the most recent forecasts for Latvia's economic growth have improved slightly compared to 4<sup>th</sup> quarter of 2022, when a moderate economic slowdown was forecasted. Slow but positive growth is now projected for 2023, with a corresponding reduction in the growth rate forecasts for the following years. However, it should be noted that due to the continuation of hostilities in Ukraine, there is still great uncertainty regarding the future development and consequences of the geopolitical situation, fluctuations in energy resource prices and their limited availability. Therefore, the Company used three economic scenarios in the loss estimations, including the negative and optimistic scenario:

- a baseline scenario, which forecasts the most likely future economic development, taking into account the impact of the Russian Federation invasion of Ukraine, high inflation, rising interest rates, as well as the impact on Latvia's economic growth rates of sanctions imposed against Russian Federation and Belarus;
- an adverse scenario, which foresees a less likely but potentially negative change, reflecting the larger and more persistent impact of the geopolitical crisis and sanctions, a slower retreat of inflation compared to the baseline scenario;
- an optimistic scenario, which is less likely but potentially more favourable than the baseline scenario.

Summarised below are the annual GDP growth rates derived from external macroeconomic forecasts, which are among the key input variables in the expected loss model:

	2023	2024	2025
GDP annual growth rate, in %			
Base case scenario *	0.6	2.6	3.2
Adverse scenario	-1.2	0.5	2.0
Optimistic scenario	2.2	4.4	4.3
<b>Weighted average **</b>	<b>0.4</b>	<b>2.3</b>	<b>3.1</b>

\* The baseline scenario combines two external scenarios, using the information available until 27 June 2023:

(i) the macroeconomic development scenario of the Ministry of Finance (published on 6 April 2023 in the Latvian Stability Programme for 2023-2026) projects Latvia's GDP in 2023 will remain at the 2022 level due to sanctions imposed against Russian Federation and Belarus, the difficulties in doing business with Ukraine, and high inflation (the December 2022 forecast was -0.6%). The GDP growth in 2024 and 2025 is forecasted 2% and 2.9% respectively (in December: 3% per year);

(ii) the Bank of Latvia's macroeconomic scenario (published on 19 June 2023) which forecasts positive GDP growth of 1.2% (December 2022: -0.3%), thus lowering the 2024 GDP growth forecast to 3.1% (December: 4.4%) and leaving the 2025 forecast unchanged at 3.5%. A 50% probability of the scenario was applied to each of the external scenarios, those of the Ministry of Finance and the Bank of Latvia.

\*\* A weight of 70% was applied to the baseline scenario, 20% to the adverse scenario and 10% to the optimistic scenario.

Since Q1 2023 the average changes of macroeconomic scenarios for the next three years are insignificant, in the 2<sup>nd</sup> quarter of 2023 provisions for ECL for loans and guarantees were calculated using the revised scenarios in the 4<sup>th</sup> quarter of 2022, resulting in no impact on provisions from changes in macroeconomic scenarios.

In order to better assess the direct and indirect impact of the geopolitical situation as well as to identify potential distressed clients and provide a roadmap for further action and appropriate risk mitigation techniques, the Company closely monitors and analyses key loan and credit guarantee exposures on a quarterly basis. An assessment is made of whether the increase in energy prices and the sanctions imposed against the Russian Federation and Belarus have had, or are likely to have, a significant direct or indirect impact on client's ability to pay.

In addition to the above, the decision-making procedure and the internal information accounting system were improved during the 2022 to ensure the identification and assessment of these impacts on the loan portfolio at the transaction level.

## 3 Risk Management (cont'd)

### (3) Impact of the Russian military invasion of Ukraine (cont'd)

Until sufficient historical data has been accumulated at the transaction level, the Company carried out an assessment of the portfolio of loans and guarantees by industries, separately assessing how the industries will be directly and indirectly affected by the increase in the prices of energy resources and how the industries will be directly or indirectly affected by the imposed sanctions against the Russian Federation and Belarus. The industries were divided into 3 groups: heavily affected industries, moderately affected industries and less affected industries. The possible impact of the increase in the prices of energy resources was assessed based on the assessment of the Company's experts on energy-intensive industries and industries that are most affected by rising costs, as well as by evaluating the financial data of the largest customers in the portfolio of industry. The possible impact of the sanctions against the Russian Federation and the Republic of Belarus was assessed taking into account the data of the Central Statistical Office on foreign trade with the Russian Federation and the Republic of Belarus, as well as data on the business specifics of the customers in the portfolio of industry (including, but not limited to, analysing the export markets, markets of raw materials, supply chains, opportunities to reorient operations, etc.). As a result of this assessment, the Company has made the general impairment overlay for loans in the amount of EUR 1,902 thousand and guarantees in the amount of EUR 856 thousand as of 30 June 2023, and this has not changed since 31 December 2022.

Potential impact upon loan portfolio triggered by interest rate increase due to steep rise of Euribor rates is covered by changes in the forecasts for macroeconomic indicators. Changes in amortisation terms of respective financial instruments due to increasing interest rates are considered when estimated ECL allowances. For key loan and guarantee exposures the client's capacity for debt service when interest rates are increasing is analysed by the Company on a quarterly basis. Particular attention is paid to such exposures where concerns for not meeting debt service in respective terms and at full amount due to increasing debt burden are in place based on clients' reported operational ratios.

Given the state support to partially compensate for the increase in energy prices during the last heating season, there was no significant increase in credit risk for households. However, given the macroeconomic outlook, including continued high inflation and rising interest rates, household spending on housing is expected to remain high and households may find it difficult to cover their housing costs in full and on time. This is expected to potentially result in higher defaults in the housing guarantee portfolio as claims for guarantee indemnities may increase in the coming years. We do not expect an immediate increase in claims for guarantee indemnities, given the specific terms of these exposures, which require that guarantee indemnities are paid upon the realisation of collateral that is carried out over an extended period of time.

The venture capital funds co-financed by Altum operate in accordance with the current sanctions regulation and actively monitor changes in the binding regulatory acts. Every quarter, Altum conducts an evaluation of venture capital fund investments, performing an individual assessment of each venture capital investment and considering the specific situation of each investment. When evaluating investments, Altum takes into account future perspectives, and the fair value of companies is adjusted in time.

Reviewing the list of companies, published by the Central Statistical Office, that have made export transactions to the Russian Federation and/or the Republic of Belarus, it can be concluded that none of Altum's portfolio companies have made export transactions to Russian Federation or the Republic of Belarus in June 2023.

Altum's portfolio companies have adapted to the market situation and the impact of the Russian Federation-Ukraine war. The review of the valuations of the portfolio companies of the venture capital funds co-financed by Altum, it has been found in some cases that the performance of the companies exceed previously made conservative forecasts, which has resulted in an increase in the fair value of the portfolio, recognised at the Altum's level by EUR 778 thousand. However, the activity of the funds continues to be negatively affected by rising interest rates and the low availability of bank financing, which makes it difficult to realise investments.

As of 30 June 2023, the cumulative impact of the Russian Federation war is EUR 6.2 mill., of which the direct impact is EUR 1.5 million, and the indirect impact is EUR 4.7 million.

## 4 Interest income

All amounts in thousands of euro

	01.01.2023.- 30.06.2023.	01.01.2022.- 30.06.2022.
Interest on loans *	9 561	7 913
Interest on guarantees **	1 534	1 542
Interest on securities at fair value cost	72	128
Interest income from term deposits	568	-
<b>Total interest income</b>	<b>11 735</b>	<b>9 583</b>

\* The Company's sub-item *Interest income on loans* does not include interest income from loans as well as commissions which, in accordance with the program agreements concluded with the Ministry of Economics, stipulates that the funding allocated by the Ministry of Economics (recognized in balance sheet item Support Programs Funding) must be increased by the respective program income. Accordingly, this type of income is not recognized as interest income, but is recognized as an increase in Support Programs Funding which in 6 months of 2023 amounts to EUR 1,299 thousand (6 months of 2022: EUR 233 thousand).

\*\* The Company's sub-item *Interest income on guarantees* does not include premium income on issued guarantees as well as commissions which, in accordance with the program agreements concluded with the Ministry of Economics, stipulates that the funding allocated by the Ministry of Economics (recognized in balance sheet item Support Programs Funding) must be increased by the respective program income. Accordingly, this type of income is not recognized as interest income, but is recognized as an increase in Support Programs Funding which in 6 months of 2023 amounts to EUR 600 thousand (6 months of 2022: EUR 554 thousand).

## 5 Interest expense

All amounts in thousands of euro

	01.01.2023.- 30.06.2023.	01.01.2022.- 30.06.2022.
Interest on balances due to credit institutions	2 628	519
Interest on issued debt securities	448	451
Allocation of state support programmes profit to support programme funding *	155	216
Other commission expense	5	6
<b>Total interest expense</b>	<b>3 236</b>	<b>1 192</b>

\* For particular state support programmes according to respective agreements concluded with the Ministry of Economics the net profit of the programme should be split between the Company and the Ministry of Economics by increasing public funding given by the Ministry of Economics (recognised as Support programme funding in the Balance sheet).

## 6 Income for implementation of state support programmes

All amounts in thousands of euro

On October 2, 2009, an agreement was signed with the EIB for a loan of EUR 100 million to finance projects under the SMEs Growth Loan Programme. As at 30 June 2023 the principal amount of the loan EUR 4,687 thousand (31 December 2022: EUR 6,250 thousand), the accrued interest on the loan amounts to EUR 72 thousand (31 December 2022: EUR 40 thousand), the final repayment date 20 August 2024. The Ministry of Finance of the Republic of Latvia has issued a guarantee for the loan, as a collateral serves the commercial pledge to the right of the Company's claims. As at 30 June 2023, the amount of the secured claim was EUR 4,758 thousand (31 December 2022: EUR 6,290 thousand).

On July 8, 2020, Altum signed an agreement with the EIB for a loan of EUR 80 million to finance working capital and investment loans to small and medium-sized enterprises, including those affected by the Covid-19 pandemic. As at 30 June 2023 the principal amount of the loan was EUR 24,375 thousand (31 December 2022: EUR 30 million), the final repayment date 20 November 2025. As at 30 June 2023, according to the loan agreement, the Company is available the financing for working capital and investment loans in the amount of EUR 25 million, final availability date January 05, 2024. On 10 December 2021, Altum signed an agreement with the EIB for an additional loan of EUR 40 million to finance working capital and investment loans to small and medium-sized enterprises, the absorption of which had not been started until 30 June 2023. Final availability date is 10 December 2023. The volume and pace of drawdown under both agreements is subordinated to the further volume of new lending transactions. The loans are unsecured.

The average interest rate for the balances *Due to credit institutions* as of 30 June 2023 was 1.39% (31 December 2022: 0.30%).

## 20 Due to General Governments

All amounts in thousands of euro

	30.06.2023.	31.12.2022.
Loans received from Rural Support Service	3 315	3 318
Loans received from the Treasury	163 865	150 466
<b>Total due to general governments</b>	<b>167 180</b>	<b>153 784</b>

Item *Loans from Rural Support Service* includes the financing to the Loan Fund, which was established in 2010 for the purpose to issue the loans to the agricultural and fisheries beneficiaries via financial intermediaries. As at 30 June 2023 the Company liabilities to Rural Support Service consist of the principal amount of EUR 3,072 thousand (31 December 2022: EUR 3,072 thousand) and accrued interest – EUR 243 thousand (31 December 2022: EUR 246 thousand). The final repayment date is 31 December 2025. The loan from Rural Support Service is unsecured.

*Loans received from the Treasury* includes the loans received by the Company for the implementation the following loan programmes:

- Agricultural land acquisition programme: as at 30 June 2023 the principal amount of the loan EUR 80,527 thousand (31 December 2022: EUR 81,718 thousand), the final repayment date 20 January 2058. As a collateral serves the commercial pledge to the right of the Company's claims resulting from loans granted by the Company under the programme. As of 30 June 2023, according to the loan agreement the Company is available the financing in the amount of EUR 11,405 thousand, the size and pace of its drawdown relates to the further volume of new loan transactions. As of 30 June 2023, the amount of the secured claim was EUR 96,644 thousand (31 December 2022: EUR 98,070 thousand).

## 20 Due to General Governments (cont'd)

- SME development programme: as at 30 June 2023 the principal amount of the loan EUR 66,687 thousand (31 December 2022: EUR 53,555 thousand), the final repayment date 20 December 2043. As a collateral serves the commercial pledge to the right of the Company's claims resulting from loans granted by the Company under the programme. As at 30 June 2023, according to the loan agreement the Company still is available the financing in the amount of EUR 44,923 thousand, the size and pace of its drawdown relates to the further volume of new loan transactions. As at 30 June 2023, the amount of the secured claim was EUR 80,081 thousand (31 December 2022: EUR 64,271 thousand).
- Parallel loan programme: as at 30 June 2023 the principal amount of the loan EUR 4,600 thousand (31 December 2022: EUR 4,600 thousand), the final repayment date 20 January 2039. As a collateral serves the commercial pledge to the right of the Company's claims resulting from loans granted by the Company under the programme. As at 30 June 2023, according to the loan agreement the Company still is available the financing in the amount of EUR 15,400 thousand, the size and pace of its drawdown relates to the further volume of new loan transactions. As at 30 June 2023, the amount of the secured claim was EUR 5,524 thousand (31 December 2022: EUR 5,521 thousand).
- Programme of Small Loans for Rural Areas: as at 30 June 2023 the principal amount of the loan EUR 1,906 thousand (31 December 2022: EUR 2,079 thousand), the final repayment date 31 January 2039. As a collateral serves the commercial pledge to the right of the Company's claims resulting from loans granted by the Company under the programme. As at 30 June 2023, according to the loan agreement the Company still is available the financing in the amount of EUR 4,267 thousand, the size and pace of the drawdown the loan relates to the further volume of new loan transactions. As at 30 June 2023, the amount of the secured claim was EUR 2,287 thousand (31 December 2022: EUR 2,495 thousand).
- Latvian Land Fund (the financing for the Fund's transactions): the loan amount has been used in 2020 and as at 30 June 2023 the principal amount of the loan EUR 7,793 thousand (31 December 2022: EUR 8,502 thousand), the final repayment date 29 December 2028. As a collateral serves the mortgage on the real estate purchased with the financing received under the loan. As at 30 June 2023, the amount of registered mortgage was EUR 9,261 thousand (31 December 2022: EUR 10,406 thousand).
- Loan program for construction works of apartment houses and improvement of their territories: as at 30 June 2023 the principal amount of the loan EUR 2,332 thousand (31 December 2022: EUR 0 thousand), the final repayment date 20 January 2044. As a collateral serves the commercial pledge to the right of the Company's claims resulting from loans granted by the Company under the programme. As at 30 June 2023, according to the loan agreement the Company still is available the financing in the amount of EUR 27,668 thousand, the size and pace of the drawdown the loan relates to the further volume of new loan transactions. As at 30 June 2023, the amount of the secured claim was EUR 2,799 thousand (31 December 2022: EUR 0 thousand).

As at 30 June 2023 the accrued interest on the loans received from the Treasury amounts to EUR 18 thousand (31 December 2022: EUR 11,4 thousand).

The Company has also concluded the following loan agreements with the Treasury, the absorption of which has not been started until 30 June 2023:

- Micro Loans and Star-up Loans programme: the amount of the loan agreement EUR 23,000 thousand, the final repayment date 20 January 2039, commercial pledge on the Company's claims for the loans under the programme. The size and pace of the drawdown the loan relates to the further volume of new loan transactions. The maximum amount of the secured claim is EUR 27,600 thousand.
- Working capital loan programme for farmers: the amount of the loan agreement EUR 25,612 thousand, the final repayment date 30 June 2031, commercial pledge on the Company's claims for the loans under the programme. The size and pace of the drawdown the loan relates to the further volume of new loan transactions. The maximum secured claim is EUR 30,734 thousand.

\* Combined financial instrument.

\*\* Combined financial instrument. Risk coverage (Portfolio Loss Reserve) of EUR 809 thousand has been included in the reserve for mitigation of the consequences of Covid-19, which is part of the specific reserves attributable to support programs (see Note 24 (24.2)).

\*\*\* Risk coverage (Portfolio Loss Reserve) of EUR 3,308 thousand has been included in the reserve for non-Covid-19 programmes, which is part of the specific reserves attributable to support programs (see Note 24 (24.2)).

\*\*\*\* The financing included in the reserve capital is intended for guarantees of the Housing Guarantee Program for NAF soldiers in the amount of 320 thousand euro and for the Housing Guarantee Support Program in the amount of 363 thousand euro.

\*\*\*\*\* Support programme funding contains EUR 12,999 thousand allocated for management costs of the Company to be compensated from support programme funding.

## 21 Support programme funding (cont'd)

Based on the concluded programme implementation contracts, the funding received could be reduced by the outstanding principal amount of the loans classified as lost, non-repaid loan principal amount and / or disbursements of guarantee compensations. The Company need not have to repay the reductions of funding to the funding provider.

\* Item Reserve capital for non-Covid-19 programmes includes the following increases of Special Reserve capital for non-Covid-19 programmes of EUR 683 thousand in 2023:

- Increase of EUR 363 thousand for housing guarantees in accordance with the decision of the Extraordinary Shareholders' Meeting of 10 March 2023, adopted on the basis of the Agreement of 10 December 2022 on state aid for the purchase or construction of a dwelling and the Agreement concluded on 15 December 2022 with the Ministry of Economics;
- Increase of EUR 320 thousand for housing guarantees in accordance with the decision of the Extraordinary Shareholders' Meeting of 10 March 2023, adopted on the basis of the Agreement of 10 December 2022 on state aid for the purchase or construction of a dwelling and the Agreement concluded on 19 December 2022 with the Ministry of Defence on transfer of funding to the program on state aid to soldiers of the National Armed Forces for the purchase or construction of a dwelling.

## 24 Reserves (cont'd)

\*\* Item Reserve *capital redistribution* includes a decrease of Special Reserve capital for mitigating the consequences of COVID-19 in Q1 2023 by EUR 34 million:

- EUR 21.5 million for the program Loans for the financing of working capital in accordance with the decision of the Extraordinary Shareholders' Meeting of 10 March 2023, adopted on the basis of the Cabinet of Ministers' Regulation No.149 of 19 March 2020 "Regulations on loans of working capital to economic operators whose operations have been affected by the spread of Covid-19";
- EUR 8.5 million for the Credit Holiday Guarantee programme in accordance with the decision of the Extraordinary Shareholders' Meeting of 10 March 2023, adopted on the basis of the Cabinet of Ministers' Regulation No.537 of 5 September 2017 "Regulations on portfolio guarantees for the promotion of lending to small (micro), small and medium-sized economic operators - legal entities";
- EUR 4 million for the Credit Holiday Guarantees programme in accordance with the decision of the Extraordinary Shareholders' Meeting of 10 March 2023, adopted on the basis of the Cabinet of Ministers' Regulations No.150 of 19 March 2020 "Regulations on guarantees for economic operators whose operations have been affected by the spread of Covid-19".

\*\* Item Reserve *capital redistribution* includes increases of Special Reserve capital for non-COVID-19 programmes of EUR 34 million in Q1 2023;

- EUR 21.5 million for the programme *Loans for mitigating the consequences of the war in Ukraine* in accordance with the decision of the Extraordinary Shareholders' Meeting of 10 March 2023, adopted on the basis of the Cabinet of Ministers' Regulations No.349 (Prot. No.32 §27) "Regulations on the loan program for mitigating the economic consequences of Russia Federation's military aggression against Ukraine";
- EUR 12.5 million for the programme *Guarantees for mitigating the consequences of the war in Ukraine* in accordance with the decision of the Extraordinary Shareholders' Meeting of 10 March 2023, adopted on the basis of the Cabinet of Ministers' Regulations No.377 (Prot. No.33 §54) "Regulations on the guarantee program for mitigating the economic consequences of Russia Federation's military aggression against Ukraine".

The funding included in the Specific Reserves will be used to cover the expected credit losses of the programmes at full extent as well as such are disclosed separately as Portfolio Loss Reserve within respective reserve capital.

According to:

- Regulations of the Cabinet of Ministers of 6 July 2022 No.662 "Amendments to Cabinet of Ministers Regulation of 6 July 2021 No.503 " Regulations on Capital Discounted Loans for Investment Projects to Promote Competitiveness "" ,

- Agreement of 15 May 2023 on the allocation of additional financing for the loans with a capital rebate for investment projects of merchants to promote competitiveness between JSC "Development Finance Institution Altum" and the Ministry of Economics,

- the decision of the Extraordinary Shareholders' Meeting of 3 July 2023

Taking into account the impact of the pandemic on businesses and the consequent reduction in demand for finance in Q3 2023, Altum specific capital reserve for the Covid-19 loan program will be reduced by EUR 17.5 million as well as amount of EUR 10 million for the guarantee program will be reduced.

The reallocation of the funds resulting from the reduction in the specific capital reserve will be redirected to the financing of the loans with a capital rebate program. Thus, the reduction of the specific capital reserve by reducing the funding for certain support programs and the corresponding transfer of funding to liabilities of EUR 27.5 million for the financing of the loans with a capital rebate program will ensure that the same nature of funding is maintained- funding for the implementation of a new support program and for the coverage of expected losses. The transfer of funding from the specific capital reserve will result in a corresponding reduction of the Portfolio loss reserve by EUR 27.5 million. The Risk coverage reserve in liabilities will increase by EUR 27.5 million.

## 27 Fair values of assets and liabilities (cont'd)

### Assets

Where possible, the fair value of securities is estimated on the basis of quoted market prices. For determining the fair value of other securities, the Management has applied the discounted cash flow method where the cash flow forecasts are based on assumptions and up-to-date market information available at the time of measurement. The fair value of loans with interest payable at fixed rates by specified dates was determined by applying the discounted cash flow method, whilst in regard to the fair value of loans with their basic interest rate tied to variable market rates, the Company have assumed that the carrying amount of such loans corresponds to their fair value.

### Liabilities

The fair value of financial liabilities stated at amortised cost, for example, the fair value of balances due to credit institutions, is estimated using the discounted cash flow method and the interest rates applied to similar products at the end of the year. The fair value of financial liabilities (for example, balances due to credit institutions) repayable on demand or subject to a variable interest rate, approximately corresponds to their carrying amount.

### Fair value hierarchy of financial assets and liabilities

The Company classify the fair value measurements based on the fair value hierarchy, reflecting the significance of the input data. The fair value hierarchy of the Company has 3 levels:

- Level 1 includes listed financial instruments for which an active market exists, if in determining their fair value the Company use unadjusted quoted market prices, obtained from a stock-exchange or reliable information systems;
- Level 2 includes balances due from other credit institutions and the Treasury as well as financial instruments traded over the counter (OTC) and financial instruments having no active market or a declining active market whose fair value measurement are based to a significant extent on observable market inputs (e.g., rates applied to similar instruments, benchmark financial instruments, credit risk insurance transactions, etc.);
- Level 3 includes financial instruments whose fair value measurements rely on observable market inputs requiring significant adjustment and have to be supported by unobservable market inputs, and financial instruments whose fair value measurements are based to a significant extent on data that cannot be observed on the active market and assumptions and estimates of the Company that enable a credible measurement of the financial instrument's value.

### Investment securities

Investment securities are measured applying quoted prices or valuation techniques using observable or unobservable market inputs or combination of both. The majority of investment securities recognised at fair value are the Latvian treasury bills with a quoted price, but not traded on the active market. The Management has estimated that it is reasonable to presume the fair value of these securities to be equal to their quoted price.

### Investments in venture capital funds

The Company have a number of investments in venture capital funds. The Company's investments in venture capital funds are classified as Associates or Investments in subsidiaries depending on existence of significant influence or control.

Investments in venture capital funds, except for investment in Baltic Innovation Funds, are measured using the equity method at the Company level. Investments in Baltic Innovation Funds are measured at fair value through profit or loss.

## 27 Fair values of assets and liabilities (cont'd)

### Investment properties

The fair value of the Company's investment property is determined based on reports of independent appraisers, who hold a recognised and relevant professional qualification, and who have had recent experience of the valuation of property in similar locations and of similar category. Investment properties are measured at fair value applying one or complex of the following three methods: (a) market approach, (b) income approach and (c) cost approach.

### Support programme funding

Support programme funding are liabilities used to ensure the liquidity of the support programme and to cover expected credit losses, as well as to compensate the costs of managing the support programme. Expected credit losses of the support programme throughout the life of the programme are covered by the Risk Coverage Reserve, which is part of the support programme funding. The Company determines the fair value of the support programme funding once a year using the discounted cash flow method. The discounted cash flow method is used to determine the present value of the estimated expected credit losses in the next three years after the end of the reporting period in those support programme in which the Company is a principal and new volumes are issued. The Company uses internal information to estimate the expected credit losses, which are included in the cash flows in an amount that does not exceed the amount of the Risk Coverage Reserve at the end of the reporting period. On the other hand, the discount rate used in the calculations reflects the Company's current financial market borrowing rate at the end of the reporting period. The discount rate is an unobservable input, therefore the Company performed its sensitivity analysis.

## 28 Segment Information

The Company's management considers that the Company's operations are performed in 7 operational segments:

- Loan service
- Guarantee service,
- Venture capital fund service,
- Grant service,
- Land Fund service,
- Management of AIF "Altum capital fund"
- Other services.

Other services include transactions with repossessed collaterals taken over in the debt collection process and development of new support programmes as well as transactions, which cannot be attributed to support programmes.

Segment information is prepared in a manner consistent with the internal management information provided to the chief operating decision maker. The chief operating decision maker is the person or group that allocates resources to and assesses the performance of the operating segments of an entity. The Management board of the Company is the chief operating decision maker. The Company doesn't provide detailed information on the type of transaction since all the transactions are external.

## 28 Segment Information (cont'd)

Analysis of the operating segments for the period from 1 January 2023 till 30 June 2023, in thousands of euro:

\* TMA includes the off-balance sheet item, namely, guarantees at net carrying amount.

\*\* The calculation of liquidity ratio takes into account the previous experience and management estimate of the expected amount and timing of guarantee claims.

\*\*\* Taking into account the significance of the volume, the Land Fund portfolio, which consists of leaseback transactions and investment properties, is also presented in the operational volumes for the period. As in compliance with the accounting principles and IFRS the leaseback transactions are accounted for under the loans, the loan volume in this table has been reduced for the volume of the leaseback transactions as it is recorded under the Land Fund portfolio.

Long-term rating assigned by Moody's Investors Service	Baa1	Baa1	Baa1	Baa1	Baa1	Baa1

\* Due to change of accounting policy on investments in venture capital funds and adoption of IFRS 9 requirements that effects the accounting of public funding risk coverage the comparatives for 2017 have been restated.

\*\* Due to reclassification of fees and commission related to lending activities following the industry practise, excludes fees and commission not related to lending activities, the comparatives for 2018 have been reclassified with subsequent ratio recalculation.

\*\*\* Due to reclassification of staff and administrative costs to be compensated as well as respective income on compensation, the comparatives for 2018 have been reclassified with subsequent ratio recalculation.

\*\*\*\* TMA includes off-balance sheet item outstanding guarantees.

\*\*\*\*\* Liquidity ratio calculation takes into account the previous experience and management estimate of expected amount and timing of guarantees claims

\*\*\*\*\* Taking into account the significance of the volume, the Land Fund portfolio, which consists of sales and leaseback transactions and investment properties, is also presented in the outstanding volumes and in volumes issued in the period. Since according to the accounting principles and IFRS the sales and leaseback transactions are accounted for under the loans, the volume of loans presented in this table has been reduced for the volume of the sales and leaseback transactions as it is recorded under the Land Fund portfolio.

## Definitions of ratios

<i>Net income from interest</i>	<p>"Net income from interest, fees and commission" is equal to the item "Net interest income" in the Statement of Comprehensive Income. Until 2018 this ratio included the following items of the Statement of Comprehensive Income: "Net interest income" and "Net income from fees and commissions". In 2019 following the industry practise Fee and commission income from lending activities is reclassified to Interest income from "Net income from fees and commissions". Subsequently the fee and commission income not related to lending activities is reclassified within Other income and as such is not included in this ratio. The item "Net income from fees and commissions" is not applicable in The Statement of Comprehensive Income anymore. The comparatives have been reclassified accordingly. Altum uses this indicator as the key financial metric for profitability by evaluating Altum net income amount generated by the portfolio of financial instruments and recognised in the Statement of Comprehensive income. Altum management measures and monitors the actual performance of this indicator on a quarterly basis compared to the approved level in Altum budget.</p>
<i>Operating profit</i>	<p>"Operating profit" is calculated by deducting "Operating expenses" from "Operating income before operating expenses" included in the Statement of Comprehensive Income. "Operating expenses" is calculated as the sum of "Staff costs", "Administrative expense", "Amortisation of intangible assets and depreciation of property, plant and equipment" and "Impairment gain / (loss), net" included in the Statement of Comprehensive Income.</p>
<i>Cost to income ratio (CIR)</i>	<p>"Cost to income ratio" (CIR) is calculated by dividing the amount of "Staff costs", "Administrative expense", "Amortisation of intangible assets and depreciation of property, plant and equipment" by "Operating income before operating expenses" included in the Statement of Comprehensive Income. Altum uses CIR to evaluate the operational efficiency. This is one of the measures of operational efficiency which Altum management assesses on a quarterly basis in the management reports to evaluate the outputs from different operational activities and efficiency improving measures.</p>
<i>Financial debt</i>	<p>"Financial debt" is calculated as the sum of "Due to credit institutions", "Due to general government entities", "Financial liabilities at amortised cost – issued debt securities" and "Support programme funding" included in the Statement of Financial Position less difference between "Risk Coverage Reserve" and "Risk Coverage Reserve Used for Provisions".</p> <p>"Risk Coverage Reserve" is disclosed in the Note on Support Programme Funding to the Financial statements of Altum. "Risk Coverage Reserve Used for Provisions" is the amount of "Risk Coverage Reserve" allocated to and used for provisioning for impairment loss on loan portfolio and guarantees which in its turn is disclosed in the Note on Support Programme Funding to the Financial statements of Altum.</p>
<i>Tangible common equity (TCE) / Tangible managed assets (TMA)</i>	<p>"Tangible Common Equity" (TCE) is calculated by subtracting the revaluation reserve of available for sale investments from total equity.</p> <p>The amount of "Total managed assets" (TMA) is calculated by adding the guarantees shown as off-balance sheet items to the total assets of Altum taking into account provisions for these guarantees and subtracting "Deferred expense", "Accrued income", "Property, plant and equipment", "Intangible assets", "Other assets" and "Assets held for sale".</p> <p>Data for the calculation of both indicators (TCE, TMA) are obtained from Altum Financial statements: Statement of Financial Position and Consolidated Statement of Changes in Equity, notes - Off balance sheet items and contingent liabilities and Provisions. ALTUM uses the ratio "TCE/TMA" to evaluate Altum capital position adequacy and to measure Altum tangible common equity in terms of Altum tangible managed assets including the off-balance sheet item Guarantee portfolio. The Risk and Liquidity Management Committee of Altum monitors its level on a quarterly basis.</p>
<i>Total risk coverage</i>	<p>"Total Risk Coverage" is the net funding available for covering the expected credit losses of the State aid programmes implemented by Altum. "Total Risk Coverage" is calculated as the total of "Risk Coverage Reserve" and "Portfolio Loss Reserve" (Specific Capital Reserves) less "Risk Coverage Reserve Used for Provisions" and "Portfolio loss reserve used to compensate provisions upon approval of the annual report". The expected losses are estimated before implementation of the respective State aid programme and part of the public funding received under respective State aid programme for coverage of expected losses on credit risk is transferred either to "Portfolio Loss Reserve" as Altum specific capital reserve or accounted separately as provisions for risk coverage under liabilities item "Risk Coverage Reserve". "Portfolio Loss Reserve" (specific capital reserve) is disclosed in the Note on Reserves to the Financial statements of the Altum. "Risk Coverage Reserve" is disclosed in the Note on Support Programme Funding to the Financial statements of Altum. "Risk Coverage Reserve Used for Provisions" is the amount of "Risk Coverage Reserve" allocated to and used for provisioning for impairment loss on loan portfolio and guarantees which in its turn is disclosed in the Note on Support Programme Funding to the Financial statements of Altum. "Portfolio loss reserve used to compensate provisions upon approval of the annual report" is disclosed in the Note on Reserves to the Financial statements of the Altum.</p> <p>"Total Risk Coverage" is key indicator to be used for assessment of Altum risk coverage on implemented programmes and long-term financial stability.</p>

## Definition of ratios (cont'd)

180-day liquidity ratio	<p>"180-days-liquidity ratio" is calculated by dividing the amount of the balances "Due from other credit institutions and the Treasury" with a maturity of up to 1 month and "Financial assets at fair value through other comprehensive income and Investment securities" by the amount of the total liabilities maturing within 6 months and total financial commitments maturing within 6 months (off-balance sheet items). The data required for the calculation of the "180-days liquidity ratio" is disclosed in the following Altum Financial statements: Statement of Financial Position and notes – Maturity profile of assets and liabilities under the section of Risk Management, Off-balance sheet items and contingent liabilities. Altum uses the "180-days-liquidity ratio" to assess and monitor Altum ability to fulfil Altum contractual and/or contingent liabilities during 6 (six) month with the currently available liquidity resources. "180-days-liquidity ratio" helps to manage Altum Group's liquidity risk in line with Altum funding management objectives and risk framework. Risk and Liquidity Management Committee of Altum monitors its level on a quarterly basis.</p>
Support instruments gross value	<p>"Support instruments gross value" is calculated as the sum of the gross values of the portfolios of grants, loans, guarantees, venture capital funds and Land Fund</p>
Total contribution to the economy, including the participation of the final recipients, by volumes issued in the period	<p>The 'Total contribution to the economy, including the participation of the final recipients, by volumes issued in the period' is calculated by adding to the volumes issued by Altum the financing provided by the private co-financier and the project promoter.</p>
Leverage for raised private funding	<p>"Leverage for raised private funding" indicates the amount of additional private funds invested in a project in addition to Altum financing. "Leverage for raised private funding" is determined considering the financing invested by a private co-financier and a project's implementer, which, on average, makes up to 50 per cent for loans, up to 70 per cent for guarantees and venture capital (except for housing loan guarantees' programme for the first instalment with a ratio of 795 per cent) in addition to Altum funding.</p>
Employees	<p>Average number of employees in the report period excluding members of the Council and the Audit Committee.</p>
Volume of support programmes funding per employee	<p>"Support programmes funding per employee" is calculated by dividing the gross value of the Financial Instruments Portfolio by the average number of employees during the period, excluding members of the Supervisory Council and the Audit Committee.</p>
Venture capital	<p>The Venture Capital Funds presented at their gross value.</p>
