#### **OPERATING HIGHLIGHTS**

In January through June 2022, the retail turnover of Apranga Group (including VAT) totaled EUR 127.7 million and was by 57.2% higher than in 2019.

Due to epidemic coronavirus (Covid-19) infection, from 16 December 2020, all the Group's stores in Lithuania were temporarily closed. Stores with a separate entrance from the outside and sales area not exceeding 300 square meters were open from 15 February 2021. Stores with a separate entrance from the outside and a sales area exceeding 300 square meters were open from 15 March 2021. All Group's stores have been reopened in Lithuania from 19 April 2021, however, stores operating in shopping malls were not allowed to work on weekends, unless they had separate entrance from outside. Eventually, all Group's stores had been open in Lithuania as of 29 May 2021. In Latvia, stores were temporarily closed from 19 December 2020. Group's stores that operate in shopping malls and have separate entrance from outside had been reopened in Latvia as of 22 May 2021. Eventually, all Group's stores had been open in Latvia as of 3 June 2021. In Estonia, all Group's stores were temporarily closed from 11 March 2021 until 3 May 2021. These temporary closures had a significant impact on the Group's generated turnover in January-June 2021.

Market of retail trade, except of motor vehicles and motorcycles, in the Baltic states generated a turnover of over 14.5 billion EUR at current prices in January-May 2022, which is about 25% more comparing to the same period in 2021. In the retail market, the change of consumer prices in January-May 2022 compared to the corresponding period of the previous year averaged about 14%. In June, the change in consumer prices reached ~22% in Estonia, ~21% in Lithuania and ~19% in Latvia.

According to the data of the official statistics departments of Lithuania, Latvia and Estonia, the companies participating in the textile, clothing and footwear market of the Baltic states generated a turnover of around EUR 637 million (excluding VAT) in the months of January-May 2022. It is 74% growth compared to January-May 2021 and 16% growth compared to January-May 2019. The change of consumer prices in the clothing and footwear industry in January-May 2022 averaged to 2.7% in Lithuania, 5.6% in Latvia and 5.1% in Estonia. Lithuania remains the largest market of retail trade of textile, clothing and footwear in specialized stores in the Baltic states, generating about 50% of the Baltic states market turnover.

#### **OPERATIONAL PLANS**

The Group plans to reach EUR 290 million turnover (including VAT) in 2022, or by 27% higher than actual year 2021 turnover. In 2022, the Group plans to renovate or open 6-10 stores. The net investment is planned to be about EUR 2-5 million.

#### **RISK MANAGEMENT**

#### **Financial risk factors**

The risk management function within the Group and the Company is carried out in respect of financial risks (credit, market (which consist of currency, interest rate and price) and liquidity), operational risks and legal risks. The primary objectives of the financial risk management function are to establish risk limits, and then ensure that exposure to risks stays within these limits. The operational and legal risk management functions are intended to ensure proper functioning of internal policies and procedures to minimize operational and legal risks.

The financial risks relate to the following financial instruments: financial assets at fair value through profit or loss, financial assets at fair value through other comprehensive income, trade receivables, cash and cash equivalents, trade and other payables and borrowings. The accounting policy with respect to these financial instruments is the same as it was in 2022.

#### <u>Credit risk</u>

Credit risk is managed on Group basis. Credit risk arises from cash and cash equivalents and deposits with banks and financial institutions, financial assets at fair value through other comprehensive income as well as credit exposures to wholesale and retail customers, including outstanding receivables and committed transactions. For banks and financial institutions, only independently rated parties (or subsidiaries of such parties) with high credit ratings are accepted. Sales to wholesale customers are rare and immaterial, therefore risk control only assesses the credit quality of the customer, taking into account its financial position, past experience and future factors. Sales to retail customers are settled in cash or using major credit cards, therefore there is no credit risk.

Company's credit risk arising from trade receivables from subsidiaries and loans to subsidiaries is managed by controlling financial performance of subsidiaries on a monthly basis. All the subsidiaries having Company's loans have been profitable during the financial year, generated strong positive cash flows, historically none of them had liquidity issues. Management has also assessed the projected future information that will not have a material adverse effect on the Company's subsidiaries. Therefore, in the management's opinion, the credit risk is low.

Financial assets at fair value through other comprehensive income are invested only to Lithuanian government bonds.

The Company and the Group have no significant concentration of credit risk, except for cash which is held in two banks having high credit ratings and loans granted to subsidiaries.

#### Liquidity risk

Liquidity risk management implies maintaining sufficient cash, the availability of funding through an adequate amount of committed credit facilities. Due to the dynamic nature of the underlying businesses, the Group and the Company treasury maintains flexibility in funding by maintaining availability under committed credit lines.

Management monitors rolling forecasts of the Group's and the Company's liquidity reserve comprises undrawn borrowing facility and cash and cash equivalents on the basis of expected cash flow. This is generally carried out at local level in the operating companies of the Group in accordance with practice set by the Group. In addition, the Group's and the Company's liquidity management policy involves projecting cash flows and considering the level of liquid assets necessary to meet these; and maintaining debt financing plans.

#### Market risk

#### Cash flow and fair value interest rate risk

The Company has loans to subsidiaries with floating interest rates, but the cash flow risk is mitigated by applying the same variable element of interest rate on those loans as the banks are charging the Company.

Loans granted and received at variable rates expose the Group to cash flow interest rate risk, which horewer has no material impact on profit or equity of the Group. Loans granted and received at fixed rates expose the Company to fair value interest rate risk, which horewer has no material impact on profit or equity of the Company .

The Company's and Group's borrowings consist of loans with floating interest rate, which are related to EURIBOR and EONIA. The Company and the Group did not use any derivative financial instruments in order to control the risk of interest rate changes.

Trade and other receivables and payables are interest-free and have settlement dates within one year.

The Group's and the Company's cash flow and fair value interest rate risk is periodically monitored by the Group's management. It analyses its interest rate exposure on a dynamic basis taking into consideration refinancing, renewal of existing positions, alternative financing.

Based on the simulations performed, management considers the impact of 0.5% change in interest rates to be not material to the financial statements of the Group and the Company.

#### Foreign exchange risk

The Company and the Group has a policy to synchronize the cash flows from expected sales in the future with the expected purchases and other expenses in each foreign currency. Substantially all the Group's payables and receivables are short-term and in addition expenses in foreign currencies are insignificant (less than 10%) as compared to those in Euro.

The Group operates in Lithuania, Latvia and Estonia, and during the reporting period used Euro currency. Since Estonia, Latvia and Lithuania introduced the Euro (respectively, since 1st January 2011, 1st January 2014 and 1st January 2015), so there is no exchange rate fluctuations.

#### Capital risk management

The Group's and the Company's objectives when managing capital are to safeguard the Group's and the Company's ability to continue as a going concern in order to provide returns for shareholders and benefits for other stakeholders and to maintain an optimal capital structure to reduce the cost of capital. In order to maintain or adjust the capital structure, the Group and the Company may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares or sell assets to reduce debt.

Consistent with others in the industry, the Group and the Company monitors capital on the basis of the gearing ratio. This ratio is calculated as net debt divided by total capital. Net debt is calculated as total borrowings (including 'current and non-current borrowings' as shown in the consolidated statement of financial position) less cash and cash equivalents. Total capital is calculated as 'equity' as shown in the consolidated statement of financial position plus net debt.

Pursuant to the Lithuanian Law on Companies the authorised share capital of a public limited liability company must be not less than EUR 40 thousand and of a private limited liability company must be not less than EUR 2.5 thousand. In addition, for all entities the shareholders' equity should not be lower than 50 per cent of the company's registered share capital. As at 30 June 2022 UAB Apranga Ecom LT had not complied with the requirements. Business activities of UAB Apranga Ecom LT are terminated.

Pursuant to the Latvian Commercial Law the authorised share capital of a private limited liability company must be not less than EUR 2.8 thousand. As at 30 June 2022, all of the Company's Latvian subsidiaries complied with these requirements.

Pursuant to the Estonian Commercial Code the authorised share capital of a private limited liability company must be not less than EUR 2.5 thousand. In addition, the shareholders' equity should not be lower than 50 per cent of the company's share capital. As at 30 June 2022 OU Apranga, OU Apranga PB TRADE and OU Apranga Ecom EE had not complied with the requirements. The Group management decided to increase the share capital of OU Apranga, OU Apranga PB TRADE and OU Apranga Ecom EE in order to comply with the statutory requirements.

In addition, the Group should comply with the financial covenants imposed in the agreements with SEB bankas AB and Luminor Bank AB. The Group and the Company followed the covenants as at 30 June 2022.
