COMMENTS TO THE FINANCIAL INFORMATION
(All amounts are in LTL thousand, unless otherwise stated)

Basis of preparation

Except as described below, the accounting policies applied are consistent with those of the annual financial statements for the year ended 31 December 2010, as described in those annual financial statements. Taxes on income in the interim periods are accrued using the tax rate that would be applicable to expected total annual earnings.

The accompanying interim financial information for the period ended 30 June 2011 has been prepared in accordance with IAS 34, 'Interim financial reporting'. The consolidated financial information have been prepared on the historical cost basis, as modified by the revaluation of property, plant and equipment, investment property and biological assets (livestock and crops). This financial information should be read in conjunction with the annual financial statements for the year ended 31 December 2010, which have been prepared in accordance with IFRS as adopted by the EU.

The preparation of financial information in conformity with IAS 34 requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the group's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the consolidated financial information, are disclosed below.

Critical accounting estimates and assumptions

The Group makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results. The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future periods if the revision affects both current and future periods. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities in future periods are addressed below.

Consolidation

As at 14 May 2010 the Group made sale agreement and on 17 May 2010 signed repurchase agreement regarding 3 land management subsidiaries with RN Investicijos UAB. The Group has a time period until 28 February 2011 (period prolonged until 29 July 2011) to repurchase the subsidiaries. The buyer has agreed not to take any shareholder decisions regarding management of these subsidiaries (including any sales of land owned by subsidiaries) without prior written approval of Agrowill Group AB. As the control over the entities is not lost, has taken the decisions to include the results and balances of these three companies in the Consolidated Interim Financial Information for 6 months ended 30 June 2011.

On 30 June 2011, the Group did not possess the shares of Grain Lt UAB, however had control over the subsidiaries operations and had a signed agreement regarding purchase of 100 per cent of the companies shares in the future. Due to this, the results and balances of this company were included in the Consolidated Interim Financial Information for 3 months ended 30 June 2011.

Income taxes

Tax authorities have right to examine accounting records of the Company and its Lithuanian subsidiaries at anytime during the 5 year period after the current tax year and account for additional taxes and fines. In the opinion of the Group's management, currently there are no circumstances which would raise substantial liability in this respect to the the Group.

The Group has created deferred tax liability on revaluation amounts of investment property and own assets. The applicable tax rate used was 15%, as it is planned that assets will be realized (if will be realized) after 2011 when the 15% corporate tax effect will be applicable to all Group's entities (except for the agricultural subsidiaries which are currently taxed at lower transition tax rate of 5% for 2009 and 10% for 2010, and 5% for 2011 and thereafter).

The Group has accumulated tax losses amounting to LTL 61 million as at 31 December 2010. Management recognises a deferred tax asset for separate companies deferred tax losses only when possible future returns can be reliably estimated and confirmed. As at 30 June 2011, the deferred tax asset on accumulated tax losses of land management entities was created in the amount of LTL 1,127 thousand (31 December 2010: LTL 1,127 thousand). The Group also created deferred tax asset for the companies, for which the restructuring plans were approved as at 30 June 2011 and Grūduva UAB for the amount of LTL 4,562 thousand (31 December 2010: LTL 3,543 thousand).

COMMENTS TO THE FINANCIAL INFORMATION
(All amounts are in LTL thousand, unless otherwise stated)

Revenues

Group's revenues breakdown by type was the following:

	6 months period ended 30 June	
	2011	2010
Milk sales	8,615	8,610
Crop sales	1,634	282
Cattle sales	1,141	932
Other revenues	1,510	1,871
Total	12,900	11,695

Over 1st half of 2011, the Group revenues did not change significantly as compared to 1st half of 2010, except for the crops sales of LTL 1,634 in 2011 – the Group had left outstanding over 2 thousand tons of wheat as at the year end of 2010, which was sold in January – February of 2011.

Cost of sales

Group's cost of sales breakdown by type was the following:

	6 months period ended 30 June	
	2011	2010
Milk sales	8,045	7,373
Cattle sales	2,421	1,606
Crop sales	1,535	179
Other revenues	31	42
Less: State subsidies	(5,884)	(6,255)
Total	6,148	2,945

The cost of sales of the Group have increased by LTL 3,203 thousand or by around 100% as compared to the same period of previous year. The difference occurred due to aforementioned crop sales, as well as increased cost of milk and cattle production. Significant % difference occurred due to comparably low volumes of total sales in 1st half of the year.

The gross margin of the Group equaled 52% in 2011. In 2010, the gross margin equaled 75%. The negative effect is due to decreasing cow herd of the Group, which increases fixed cost per cow, which was practically offset by increasing milk prices, with the main difference being due to crop sales in 2011 with 6% gross margin.

Operating expenses

Group's operating expenses breakdown by type of expenses was the following:

	6 months period ended 30 June	
	2011	2010
Payroll expenses	1,718	1,508
Social security expenses	533	468
Depreciation and amortization	1,229	688
Consultation services	918	319
Impairment of accounts receivable	762	-
Write-off of inventory	457	639
Tax and insurance expenses	230	478
Fuel and transportation expenses	186	91
Rent and utilities	75	96
Other expenses	2,120	802
