Basis of preparation

Except as described below, the accounting policies applied are consistent with those of the annual financial statements for the year ended 31 December 2013, as described in those annual financial statements. Taxes on income in the interim periods are accrued using the tax rate that would be applicable to expected total annual earnings.

The accompanying interim financial information for the three month period ended 31 March 2014 has been prepared in accordance with IAS 34, 'Interim financial reporting'. The consolidated financial information have been prepared on the historical cost basis, as modified by the revaluation of property, plant and equipment, investment property and biological assets (livestock and crops). This financial information should be read in conjunction with the annual financial statements for the year ended 31 December 2013, which have been prepared in accordance with IFRS as adopted by the EU.

The preparation of financial information in conformity with IAS 34 requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the group's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the consolidated financial information, are disclosed below.

Critical accounting estimates and assumptions

The Group makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results. The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future periods if the revision affects both current and future periods. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities in future periods are addressed below.

Income taxes

Tax authorities have right to examine accounting records of the Parent Company and its Lithuanian subsidiaries at anytime during the 5 year period after the current tax year and account for additional taxes and fines. In the opinion of the Group's management, currently there are no circumstances which would raise substantial liability in this respect to the the Group.

The Group has created deferred tax liability on revaluation amounts of investment property and own assets. The applicable tax rate used was 15% (for land management entities and SPV's) and 5% (for agricultural subsidiaries).

Revenues

Group's revenues breakdown by type was the following:

	3 months period ended 31 March	
	2014	2013
Milk sales	8,595	5,828
Crop sales	583	1,368
Cattle sales	788	1,029
Other revenues	2,170	1,792
Total	12,136	10,017

The revenues of the Group increased as compared to previous year due to a larger amount of milk sold, which was a result of continuing cow herd expansion as well as significantly larger milk prices over the first quarter of 2014 compared to the same period in 2013. Crop sales and cattle sales for the reporting period of 2014 were lower compared to last year due to lower sales volumes as well as lower prices.

Cost of sales

Group's cost of sales breakdown by type was the following:

	3 months period ended 31 March	
	2014	2013
Milk cost of sales	5,351	5,050
Crop cost of sales	584	1,099
Cattle cost of sales	1,206	1,581
Other cost of sales	1,331	1,521
Less: State subsidies	(1,941)	(2,716)
Total	6,531	6,535

The Group achieved significant growth in gross profit despite a reduction of state subsidies as the gross profitability of milk sales in 2014 was around four times larger than over the same period of 2013. This was the cumulative result of higher milk productivity and higher prices of milk. Also, other revenues (consisting mostly of sales of agricultural supplies and services to other agricultural companies) were more profitable during the first three months of 2014.

Operating expenses

Group's operating expenses breakdown by type of expenses was the following:

	3 months period ended 31 March	
	2014	2013
Payroll expenses	1,243	1,204
Social security expenses	386	374
Depreciation and amortization	1,031	595
Consultation services	288	167
Write-off of inventory	282	840
Tax and insurance expenses	237	121
Fuel and transportation expenses	108	151
Rent and utilities	87	75
Impairment of accounts receivable	-	36
Other expenses	743	718
Total	4,405	4,281

Operating expenses of the Group remained at a similar level as in the beginning of 2013. Slight growth of payroll expenses and higher depreciation and amortization were offset by decreased inventory write-offs.

Interest and fines income	19	21
Other income	192	1
Total	1,268	22

In the first quarter of 2014 the Group's land management entities sold investment property – agricultural land not cultivated by group companies – parcel by parcel for a total value of LTL 4,700 thousand.

Other interest expenses	106	128
Negative currency fluctuation effect	3	3
Other financial expenses	80	74
Total	1,437	1,712
