Compared to the level of previous year, net-turnover of the reporting period is by 1 831 thous.LVL (2 606 thous.EUR) or by 20% less.

Profit before taxes amounted to 566 thous.LVL (805 thous.EUR) in 12 months period of 2008, which is by 334 thous.LVL (475 thous.EUR) more than in 2007 owing to the sale of non-business assets – land plot owned by the company. Profit after taxes amounts to 134 thous.LVL (191 thous.EUR).

Commodity output is estimated in the amount of 7 780 thous.LVL (11 070 thous.EUR). The result of this year is by 1 060 thous.LVL (1 508 thous.EUR) or by 12% less than the 12 months result of the last year.

At present the company exports 98% of its products to the East and West: among them 67% eastwards and 31% westwards; 2% of products are sold on domestic market.

The average statistical number of employees of JSC "Ditton pievadķēžu rūpnīca" was 519 in 12 months of year 2008.

The average salary amounted to 324 LVL (461 EUR) in 12 months period of 2008, which is by 45 LVL (64 EUR) more than in 12 months of 2007.

Key figures of financial standing of JSC „Ditton pievadķēžu rūpnīca”

Own capital profitability of the company (capital using ratio) achieved 1,48% in year 2008, which proves the capability of the company to develop stably (the standard of this ratio = 0,7-0,9).

Return on assets (ROA) was 2,89% in year 2008, and this is indicative of efficiency of using fixed assets and other non-current assets (normally ROA is accepted to be satisfactory at 0,5-1).

Sales profitability – commercial margin shows that in year 2008 1,82% of earned profit accounts for one unit of salable production (norm is 0,7-1,0).

Turnover ratio of long-term investments is admissible to be ≥ 1 , in year 2008 it was 1,59.

Reserves turnover ratio enables to assess the optimal size of reserves. In 2008 turnover speed was 2,13 times, compared to 2007 this ratio increased by 0,76.

Economic profitability enables to determine that 4,92% of earned profit accounts for one unit of company's assets.

Commercial profitability indicates that company earned 7,68% of profit on one net-turnover unit before taxes, and accordingly 1,82% after taxes.

Market tendencies and development of the company. Risks.

Crisis occurrences and falling off in demand on consumer markets negatively affect falling off and instability in demand of company's finished products market. And it is considered as a basis to forecast a future instability of market and market prices, in circumstances of which the company is acting. The company notes that production quality in general complies with market requirements (in 2008 the company has not received any noticeable consumers' reclamations), but

JSC "DITTON PIEVADKĒŽU RŪPNĪCA"
AUDITED ANNUAL REPORT FOR YEAR 2008

taking into account the abovementioned causes, the natural price growth from one side and sales slowdown from other side give no grounds for optimistic forecasts in respect of maintaining of production volume.

At the end of 2008 these tendencies have been aggravated through inflation of our consumers' currencies against EUR, where the rate of Latvian currency, in which our costs have been calculated and actually paid, remained unchanged.

In 2008 the economics have been comprised by global crisis. Its indications are such as crisis occurrences in the sphere of circulation of financial instruments, including in banking sector, inflation and devaluation of almost all national currencies, dropping of companies' capitalization and confidence level in crediting-investments sector obstructing attraction of crediting-investment means, falling of consumers demand and overproduction of some goods and services, and suspension of production and/or substantial decline of production caused by this (which especially concerned the company as supplier of component parts for companies of automobile industry), recession processes and ongoing production and GDP falling, which are now observable in most developed countries.

It all concerned the joint-stock company "Ditton pievadkēžu rūpnīca" at full extent.

Positive indices of the balance have been achieved first of all owing to the sale of non-profile assets about which the shareholders have been informed in the management report of financial report for 6 months of 2008, and owing to purchase orders placed in 2007 and beginning of 2008 as well.

Future global processes have substantially changed the dynamics of purchase orders and company's development.

Crisis conditions have caused changes in payment terms of suppliers of raw materials and resources, who switched to work mainly in prepayment conditions. Prepayment for materials and resources in conditions of instability of demand and orders for company's production destabilizes cash flows of the company and causes delay in financial obligations fulfillment. Substantial delays in payments for services and finished products occurred owing to suspension of our consumers' production and/or inability to sell their production. In respect to market specifics (restricted volumes, specialization, traditional focusing on definite partners etc.), immediate collection of debts shall not have the necessary result and vice versa – it will cause loss of consumers and their confidence, and it seems to be problematic to reestablish them.

In the abovementioned circumstances the company is forced to work in economy regime by using internal resources and reorganizing production processes according to the existing volumes of demand, production and costs, including optimization of staff in accordance with production volumes and its actual employment, and to refuse from planned investments in current and capital repairs of building, engineering constructions and networks and equipment stock.

Processes which negatively influence the company are unstable and depend on general crisis in global economics. At present moment the company does not see tendencies for "stopping" and stabilization of crisis occurrences. In this connection prognosis for future development of events in economics, on raw material, resources and company's production market, and prognosis for company's future development as well are unfavorable.

The Management Board considers it necessary to restrict these negative company's development prognosis to the crises period, which according to analysts shall be most critical in 2009 and 2010.

JSC "DITTON PIEVADĶĒŽU RŪPNĪCA"
AUDITED ANNUAL REPORT FOR YEAR 2008

The Management Board considers it as its main task to minimize global crisis risks, maintain the company with its brand, technologies, personnel, traditional partners and market with future development upon overcoming the crisis together with the whole global and Latvian economics.

Profit distribution policy

The Management Board of the company has taken into account not only the provision of immediate benefit for the Company's shareholders by paying dividends to them but also the expediency of profit reinvesting, which would increase the value of the Company in future. The policy of the Management Board in relation to the matter of submitting proposals about directing of profit to payment of dividends has not changed for last three years, and in particular members of the Management Board proposed to distribute the profit by directing up to 10% of net-profit to payment of dividends. For year 2007 this amount amounted to 14 800 LVL (21 059 EUR).

This year, taking into account global economic crisis and company's retention priority, the Management Board proposes to leave the net-profit of 2008 undistributed by directing it to the goals of Company's retention and development.

STATEMENT ABOUT MANAGEMENT LIABILITY

In opinion of the Management Board, according to the information at its disposal, the presented annual report for year 2008 has been prepared in accordance with the existing legislative requirements and gives a true and fair view of financial standing of the Company and its performance, cash flow and profits. In all substantial aspects there are Latvian accounting standards met.

The management confirms herewith that there have not been any essential events taken place after the end of the reporting period, which could have affected the annual report of the Company for year 2008.

Management report contains truthful information.

REPORT ON CORPORATE GOVERNANCE

By arranging corporate governance of the company, the Management Board and the Council follow Corporate Governance codes, developed and approved by NASDAQ OMX Riga (before „Riga Stock Exchange”) in 2005. Information about application of the above-mentioned Codes regarding responsibility of the shareholders has been presented on the annual general meeting of shareholders on April 27, 2007 (Protocol No.1). The shareholders may familiarize themselves with information comprised by the Corporate Governance codes on the web site of NASDAQ OMX Riga <http://www.nasdaqomxbaltic.com/?id=1700277> or by filing an appropriate request to the company.

Information about order and procedures of application of Corporate Governance codes, restrictions, exceptions and practice in 2008 has been reflected in the appendix of this statement. The shareholders may familiarize themselves with information included into the appendix on the website of NASDAQ OMX Riga, in the appropriate section of the company, or by filing an appropriate request to the company.

System of internal control is arranged in compliance with the Corporate Governance codes, by adding the institution of revision committee, which has been founded and elected in the extraordinary meeting of shareholders on January 9th, 2009. Statement of the revision committee regarding procedures of risks control and management in the course of drawing up the annual report for 2008 is enclosed.

In the company there exists a multi-stage system of drawing up the annual report, control and risks management at drawing up the annual report.

1st stage: drawing up of the annual report and internal control in subdivisions of the company;

2nd stage: examining and approval of the annual report by the Management Board of the company;

3rd stage: auditing of the annual report by an independent sworn auditor in accordance with the Annual Accounts Law, Law On Accounting, Commercial Law and Law On the Financial Instruments Market;

4th stage: examination of the annual report by the revision committee and its statement on the annual report quality and independence of the sworn auditor;

5th stage: examination of the annual report by the Council of the company and its statement about activity of the Management Board and company in general reflected in this report;

6th stage: approving of the annual report in a general meeting of shareholders of the company.

It is obvious that activity of the institutions mentioned in stages 3, 4 and 5 are independent of the company and ensure accuracy of the annual report and independency.

Independence of the shareholders' resolution is ensured in conformity with norms of the Commercial Law (Clauses 273-286) and Corporate Governance codes.

COUNCIL REPORT

to the annual report for year 2008

Issued according to LR Commercial Law and to the Company's Articles,
approved by Council resolution of the JSC "Ditton pievadkēžu rūpnīca"
dated 24.04.2009., Protocol No.126

The Council of joint-stock company "Ditton pievadkēžu rūpnīca" announces that the report of the Management Board of the Company to the annual general meeting of shareholders and annual report for year 2007 truly reflect the commercial activity results and the financial position of the Company. Joint-Stock Company worked with profit.

During the reporting period the Management Board managed the industrial and economic activity of the Company and represented the Company in accordance with the laws of Republic of Latvia in force, with the Company Articles, resolutions of general meeting of shareholders and Council recommendations.

The shareholders as well as the Council members have no claims to the Management Board and its individual members, and the Council evaluates the activity of the Management Board as positive.

The Council of the Company represented interests of shareholders during the period between the general meetings, and in reporting period it supervised constantly for the Management Board activity according to the Company Articles and Laws of Republic of Latvia.

Altogether during the reporting period seven meetings of the Council were held. In four of the joint meetings of the Council and the Management Board there have been considered and approved interim financial reports of the Company for 12 months of 2007 and 3, 6, and 9 months of the year 2008.

Additionally the following issues have been considered in the Council meetings and decisions on them were made:

- convening of annual general meeting of shareholders and approving of draft resolutions;
- considering the composition of the Management Board and powers of their members;
- convening of extraordinary meeting of shareholders and approving of draft resolutions;
- confirming budget prognosis for 2009;
- other issues related to the activity of the Company and stipulated by the Company's Articles and laws of Republic of Latvia.

Herewith the Council of the Company draws attention of the shareholders to the following important events:

In the 2nd half of 2008 there could be the expansion and deepening of global economic crisis observed, prognosis and influence on perspectives of the Company of which for 2009-2010 are described in the Management report. Positive indices of the Company's activity in general have been achieved owing to the Company's activity in the 1st half of 2008 and sale of non-profile assets. Results of the 2nd half of 2008 are less effective and not related to the performance of the Management Board. On the contrary, the Council evaluates the performance of the Management Board as timely and effective response to the crisis challenges. Nevertheless it is impossible to solve effectively the negative consequences of crisis within one separate company.

JSC "DITTON PIEVADKĒŽU RŪPNĪCA"
AUDITED ANNUAL REPORT FOR YEAR 2008

The Council considers that 2009 and 2010 will be survival years for the Company in the situation when the consumers demand for goods and equipment in which our products are applied is falling off, which has caused and will cause overproduction of these goods and equipment and suspension of some productions.

The Council admits the right of the Management Board to take "difficult" decisions related to the decrease of productions volumes and staff redundancy.

The Council admits that, in spite of timely and effective responses to the crisis challenges, in 2009 and 2010 the Company may not have profit retaining the Company itself, brand and partners.

That will allow retaining Company in growing crisis, stabilizing its activity in the period of global economic slowdown and recession and increasing production volumes upon global economic revival and surmounting the crisis.

In these circumstances the Council considers it necessary to recommend the Management Board and also urges the shareholders to refuse to distribute the profit of 2008, and also of 2009 and 2010 if such shall be gained, aiming it at goals of the Company.

From other side the Council considers that possible positive results of the crisis shall be review of priorities in favor of real sector of economics.

Chairman of the Council

APPENDIX TO THE ANNUAL REPORT FOR 2008

Principles of bookkeeping and methods of evaluation

The annual report is prepared in conformity with requirements of Law On Accounting, Annual Accounts Law and international financial standards which have been adopted and approved in the European Community. Statement on profit and loss is done in conformity with the method of turnover expenses.

Items of the annual report are evaluated in conformity with the following principles of bookkeeping:

- a) it is accepted that the company will work further;
- b) the same evaluation methods are used as in the last year;
- c) the evaluation of items is made with due foresight, i.e.
 - in the report there is the profit included received before the day of working up of balance sheet;
 - all expected sums of risk and loss which have appeared in the accounting period, or in the previous years, are taken into account, also then, if they became known during time between date of balance and day of working up of the annual report;
 - all sums of deterioration and depreciation are estimated and taken into account, no matter if the fiscal year is finished with profit or loss;
- d) income and expenses related to the accounting period are taken into account irrespective of the settlement date and date of reception or making out a bill. Expenses are coordinated with incomes in the reporting period;
- e) components of items of assets and liabilities and shareholders' equity have been evaluated separately;
- f) the balance of the beginning of the reporting period coincides with balance of the termination of the previous year;
- g) economic bargains are reflected considering their economic contents and essence, but not the legal form.

The bookkeeping was kept in 2008 on united bookkeeping accounts, which have been approved on 13 May, 1993, detailing the plan of accounts in conformity with features of economic activity of the company.

The bookkeeping register of the synthetic accounting is the Ledger, where the records are made from the statements of grouping of economic activity operations. Kinds of registers of the analytical accounting are books, cards, lists etc..

The reporting period is from 01 January 2008 till 31 December 2008.

Data reflected in these financial reports is expressed in national currency – in Latvian lats (LVL), and in Euro (EUR) as well. All monetary items of assets and liabilities and shareholders' equity are counted in lats at the rate of the Latvian bank on last day of reporting year.

JSC "DITTON PIEVADKĒŽU RŪPNĪCA"
AUDITED ANNUAL REPORT FOR YEAR 2008

In the result of fluctuation in exchange rate of foreign currencies, the received profit or loss is reflected in the statement of profit and loss for the appropriate period.

In the long-term items there are the sums indicated, whose receipt, payment or write-off terms come later than one year after the termination of the proper reporting year. The sums, which have to be received, paid or written off during one year, are specified in short-term articles.

All fixed assets are stated at historical cost, less depreciation. Depreciation is calculated using the straight-line method during the period of useful using of the fixed assets.

Reserves are estimated using a method of the average expenses. Reserves have been accounted under the cost price. In case of need the value of out-of-date, damaged reserves or reserves with slow turnover is written off, or the their stocks are formed. The rests of resources have been checked in an annual inventory.

Investments in the capital of other companies are reflected in cost of purchase.

Net turnover is the income received during the year from sale of manufactured and purchased products without value added tax (VAT).

For more precise reflecting of financial standing of the company, the management of the company reflects tax provisions in the annual report, i.e. provisions for expected taxes.

In compliance with the loan contract No.127/07K23 dated 03.01.2008 JSC "Ditton pievadkēžu rūpnīca" received from JSC "DnB NORD Banka" loan in the amount of EUR 2 490 000. The loan has been secured with the immovable property of the borrower.
