In 3 months of 2009 net-turnover in fact was fulfilled in the amount of 794 thous.LVL (1 130 thous.EUR) against the forecast 1 800 thous.LVL (2 561 thous.EUR), decrease amounts to 1 006 thous.LVL (1 431 thous.EUR) or 44%. Compared to the level of previous year, net-turnover of the reporting period is by 1 254 thous.LVL (1 784 thous.EUR) or by 39% less.

Loss before taxes amounted to 233 thous.LVL (332 thous.EUR) in 3 months period of 2009, which is by 274 thous.LVL (390 thous.EUR) less than the forecast. Loss after taxes amounts to 262 thous.LVL (373 thous.EUR).

Commodity output is estimated in the amount of 1 419 thous.LVL (2 019 thous.EUR). The result of 3 months of 2009 is by 635 thous.LVL (904 thous.EUR) or by 69% less than the 3 months result of the previous year.

At present the company exports 98% of its products to the East and West: among them 67% eastwards and 31% westwards; 2% of products are sold on domestic market.

The average statistical number of employees of JSC "Ditton pievadķēžu rūpnīca" was 378 in 3 months of year 2009.

The average salary amounted to 272 LVL (387 EUR) in 3 months period of 2009, which is by 42 LVL (74 EUR) less than in 3 months of 2008.

Market tendencies and development of the company. Risks.

In the 1st quarter the activity of the company proceeded in worsening crisis circumstances. The Management Board informed the shareholders on increase of crisis appearances, their reasons and possible consequences in quarterly and annual reports for 2008.

Unfortunately, the Management Board notices that decrease in demand for the company's production, which first of all is applied in mechanical engineering, exceeded substantially the forecasted indices.

At the same time the Management Board is not alone in its too optimistic forecast about the potential level of drop in production: at the moment the developing economic crisis is unusual in its volumes, factors, levels and consequences, is not (and can not be) studied in a historical retrospection and has no full scientific-economical ground either in respect of terms and intensity, or factors. In these conditions not only in scientific circles, but also governments of many economically developed countries have given wrong prognoses in respect of decrease level of GDP, production and consumers demand, and now abstain from any optimistic crisis evaluations.

While being included into a global and European economics the company was not able to survive like in an oasis of "prosperity" and it faces all factors of global crisis to the same degree, reflecting the level of the general decrease.

It is worsened also by the factor that automobile industry faces the most intensive crisis appearances because of an unpredictable drop in the consumers demand for its production (for some types – by 50-60%).

Many companies of automobile industry decrease their production and staff, stop their activity, do restructuring by means of merging or overtaking.

In the 1st quarter of 2009 the Russian manufacturers didn't resume their activity practically (e.g. AVTOVAZ) at the conditions, in which exactly this market consumed up to 65-70% of the company's production,

The Management Board has systematically informed the shareholders about an inability to do a rapid restructuring of our production placing an emphasis on Western market and make an aggressive promotion of our production on it. In the crisis conditions such restructuring is all the more impossible.

In the abovementioned circumstances the company is forced to work in economy regime by using internal resources and reorganizing production processes according to the existing volumes of demand, production and costs, including optimization of staff in accordance with production volumes and its actual employment.

Processes which negatively influence the company are unstable and depend on general crisis in global economics. At present moment the company does not see tendencies for "stopping" and stabilization of crisis occurrences. In this connection prognosis for future development of events in economics, on raw material, resources and company's production market, and prognosis for company's future development as well are unfavorable.

The Management Board considers it necessary to restrict these negative prognoses of the company's development to the crises period, which according to analysts shall be most critical in 2009 and 2010.

The Management Board considers it as its main task to minimize global crisis risks, maintain the company with its brand, technologies, personnel, traditional partners and market with future development upon overcoming the crisis together with the whole global and Latvian economics.
