# REPORT OF THE MANAGEMENT

### Type of operations

The parent company of the APF Group, public limited company APF Holdings, is active in the operation of holding companies and in the management of poultry and chicken egg production companies.

The main activities of subsidiaries are: SIA "Alūksnes putnu ferma" – poultry farming and egg production; SIA "APF Trading" – wholesale of chicken

SIA "Oluksne" – provision of poultry farming and egg production services;

SIA "APF Energy" – production of gas and organic fertilisers;

SIA "Preiļu putni" — poultry farming, rearing of young birds.

Performance of the APF Group during the financial year

AS APF Holdings (hereinafter – APF Group) companies aim to develop sustainable circulation production in the poultry sector by offering premium eggs and other food products for Latvian and European consumers.

## **FUTURE PROSPECTS**

In the next reporting period, the APF Group plans to implement important strategic development projects that will contribute to the increase of existing production capacity and the acquisition of new lines of activity. Intensive work will be continued on the development of egg products production, breeding of young birds and biomass processing projects. Work on the implementation of a systemic sustainability

strategy has also been started, as the first step in this direction, the subsidiary company of the concern SIA "Alūksnes putnu ferma" received the ISO500001 certificate in February 2023, which is a confirmation of the implementation of the energy efficiency management system, as the next step is planned emissions from the production process calculation (CO2 footprint) and development of solutions for their reduction.

# RESEARCH AND DEVELOPMENT

As the APF Group's production capacity and product range increase, the APF Group's companies are intensively engaging in research activities, incl. in collaboration with scientists and laboratories. It performs product analysis, assessing its deeper processing and reuse possibilities, deals with emissions analysis, looking for ways

to reduce them, improve animal welfare and reduce the impact on the surrounding environment.

In the reporting year, the APF Group has invested EUR 50 438 in research and development.

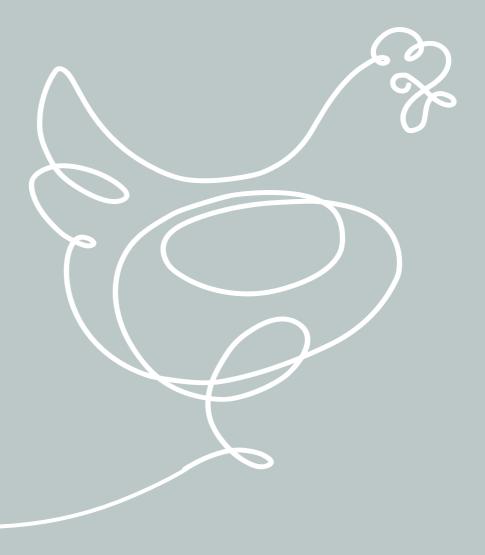

## FINANCIAL RISK MANAGEMENT

The policy of financial risk management the APF Group and the Company is described in the financial report's Note 41.

## SUBSEQUENT EVENTS

In February 2024, the APF Group has secured EUR 7 million from a private bond placement. Polish Investment Fund CVI acquired the entire volume of the bond issue. The maturity for the bonds is set at four years. Part of the attracted financing was used to fully refinance all of the Group's loans from banks.

There are no other subsequent events from the last date of the financial year until the date of publishing of financial statements, which would have a significant effect on the financial position of the APF Group and the Company.

## **APF HOLDINGS ACHIEVED** HISTORICALLY BEST **RESULTS LAST YEAR**

In 2023, the turnover of APF Group reached another historical record, amounting to EUR 13.3 million, which is EUR 2.0 million more than the previous year, resulting in a 19% increase.

The company's production capacities were increased to the current level at the end of 2021, making the production capacities of the group in 2022 and 2023 equal. However, due to the production cycle of laying hens, the quantity of eggs produced slightly decreased from 113 million in 2022 to 105 million in 2023. Despite the lower quantity of eggs sold, the group's core market – the production of fresh eggs – saw a turnover increase of 17%, while revenues from Cage egg sales remained at the 2022 level, but revenues from Barn egg sales increased by 27%.

Despite the sharp increase in raw material prices starting in the second quarter of 2022, group's equity capital has increased the group's production costs only increased by 7%, which in turn allowed achieving a huge 69% increase in Gross profit. The group has very ambitious growth plans for 2024 and 2025 and beyond. To realize them, in the reporting year, it was necessary to attract new employees to strengthen the team and expand the development of new business directions, conducting research work, and executing an IPO during the reporting year. These actions aimed at development for the next periods resulted net liabilities decreased, allowing the Group increase of administrative costs in 2023. resulting in a more moderate increase in EBIT and adjusted EBITDA indicators comparing to the Gross profit, i.e. those increased by 19% and 33% respectively, which is a significant achievement anyway considering the reduced quantity of eggs sold, which also lead to adjusted EBITDA profitability improvement by 2 percentage points. In 2023 Group net profit increased by nearly EUR 200 000 and comprises EUR 527 059, which constitutes 59% improvement compared to the previous Investment Fund CVI, the Rural Support year. It is noteworthy that in 2022 the group received one-time state supports amounting to nearly EUR 600 000, thus the financial result and its increase in the reporting year were achieved through the group's own efforts, without external support, which is additionally commendable.

After the completion of the IPO, the almost eight-fold, from EUR 0.76 million in 2022 to EUR 6.1 million in 2023, which inevitably led to a decrease in the ROE indicator to 10%, compared to 17% in the previous year despite a much better financial result in 2023.

Thanks to the financing received during the IPO, the amount and proportion of the Group's current assets in the balance sheet also increased, and the balance of existing to improve liquidity and financing indicators, i.e. the liquidity ratio has reached a level of 1.8x, while the Debt/Ebitda ratio has dropped to 0.6x.

2024 will be a development year for the Group, during which the company's management plans to complete the construction of two hen houses, as well as a warehouse and an egg processing workshop. Funding for these investments has been secured from the Polish Service, and the funds received from the IPO. Given the size of the project and the expected implementation time, the largest impact on turnover and financial results is expected in 2025.

# THE MOST SIGNIFICANT EVENTS IN 2023

# EXPANSION WITH THREE NEW PRODUCTS

Fiteg2 – tasty and healthy egg white protein smoothies

Following healthy lifestyle and nutrition trends, APF Group introduced a new line of egg white protein smoothies called "Fiteg2" in 2023.

The innovative "Fiteg2" brand recipes are based on high-quality egg whites. This is a valuable source of protein, amino acids, and other micronutrients, such as vitamin B3, magnesium, potassium, and sodium, suitable for a wide range of consumers – including active lifestyle individuals, children and athletes with high physical loads, young mothers, seniors, and people with special diets.

The new "Fiteg2" egg protein smoothies are available in 300 ml packages with three natural fruit flavours - mango, orange, and apple-vanilla. Each flavour also differs in egg white or protein nutritional value. Mango egg protein smoothie contains 64% egg white – 21 g of protein, orange smoothie contains 60% egg white – 20 g of protein, while apple-vanilla smoothie contains 79% egg white -25 g of protein. Importantly, "Fiteg2" smoothies do not contain added sugar, are lactose-free, fat-free, and gluten-free. The drinks should be stored in the refrigerator and have a shelf life of 140 days. "Fiteg2" is available at Rimi, Stockmann, Bolt Food, Wolt and Narvesen stores in Latvia. In 2024, it is planned that "Fiteg2" will become more widely available in Estonia and Lithuania.

The Chick Game –
a combination
of quick consumption
product, eggs, with
a mobile game

APF Group innovatively combined the egg industry with digital technology, creating "The Chick Game". This project combines a mobile gaming application with a new egg product packaged in a modern, environmentally friendly way. "The Chick Game" eggs allow consumers to engage in virtual chicken farming, providing an entertaining and educational insight into modern poultry farming practices, as well as attracting a technology-savvy, younger audience.

Available on Google Play and AppStore, "The Chick Game" application educates players about chicken farming and eggbased recipes, and additional game bonuses are unlocked by scanning special QR codes on the egg packaging. These eggs, sold in 10-pack cardboard boxes, are available in Rimi stores in Latvia (since June 2023), Estonia (since August 2023), and Lithuania (since September 2023). "The Chick Game" product is an example of APF Group innovative approach to creating added value for everyday FMCG products, such as eggs.

### Liquid egg mass – the new opportunities for cooperation with B2B customers

In 2023, APF Group introduced a new liquid egg mass product suitable for B2B or business customers. Initially, it was

produced in collaboration with partners, and it is planned that production will be transferred to APF Group facilities by the autumn of 2024. The product is offered in sustainable 10 kg Bag-in-Box packaging. APF Group plans to start production of liquid egg mass in Alūksne, in its egg processing line, with a processing capacity of 7500 eggs per hour by the autumn of 2024. This demonstrates the company's efforts to meet the growing demand for sustainable egg products.

# UTILIZING EXPORT POTENTIAL

APF Group's successes in the Baltic market

APF Group already successfully cooperates with the Rimi store network, providing eggs under the Rimi private label in the Baltic States. In 2023, APF Group expanded its assortment in Rimi store shelves in the Baltics, offering Estonian and Lithuanian consumers eggs laid outside the cage under its own brand "The Chick Game". This has resulted increase of eggs sale by 3.4 million eggs and EUR 515 thousand in revenue. Successful campaigns with IKI in Lithuania and Grossi stores in Estonia have paved the way for negotiations with other retail chains and smaller partners, opening a new chapter in our company's growth and presence in the market.

## **QUALITY ACHIEVEMENTS**

Quality and Efficiency Approval Certificates In 2023, the APF Group's commitment to ensuring operational excellence and sustainability was confirmed by the ISO 50001 energy management system certificate awarded in February 2023. The receipt of the certificate demonstrates our proactive approach to energy conservation and efficiency. Furthermore, our strict adherence to food safety standards was confirmed by the successful results of the annual audit of the FSSC 22000 food safety management system. These achievements demonstrate our commitment to ensuring quality, safety, and environmental responsibility, fostering trust and providing customers with the highest level of products and services.

# Implementation of Lean Programmes for Continuous Improvement

In 2023, APF Group successfully began implementing LEAN programmes, focusing on the Kaizen philosophy and practicing the 5S principle, which has already brought significant efficiency improvements.

Kaizen, meaning "change for the better" in Japanese, symbolizes a continuous improvement process where waste is identified and eliminated, while improving processes. APF Group is particularly proud that 70% of the company's employees have been trained in Kaizen principles, promoting collective involvement and improvement initiatives — a total of 22 improvement initiatives have been submitted, of which 80% have already been implemented or are in the process of being implemented.

The APF Group has also introduced the 5S system – a strong visual management method that promotes an efficient and organized work environment, allowing for quick identification and elimination of process deficiencies. This system is based on five steps: sort, set in order, shine, standardize, and sustain self-discipline, ensuring that the workplace is optimally organized and only necessary

tools are available for work. 60% of the company's employees have received training in this system. These changes have promoted deeper integration of knowledge and understanding into daily processes, also improving internal communication processes, laying the groundwork for further company growth and increased efficiency. APF Group is confident that these measures will continue to promote the company's sustainable development and competitiveness.

APF Group has identified seven key goals out of the 17 sustainable development goals to integrate into its ESG (environmental, social, and governance) strategy for 2030. This approach includes reducing resource consumption, increasing efficiency, investing in green energy production, and utilizing a circular economy approach in egg production.

## A NEW PAGE IN THE HISTORY

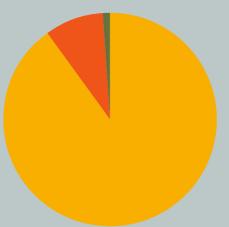

### Debut on the Nasdaq First North Alternative Market

The most significant event for APF Group in 2023 was the successful initiation of stock trading on Nasdaq Riga. This significant moment occurred on 9 November at 10:00 with a stock price of EUR 5.11. The shares are listed on the First North list under the symbol EGG, and the stock listing marks a new phase of the company's development for our shareholders, ensuring additional transparency and liquidity for the company.

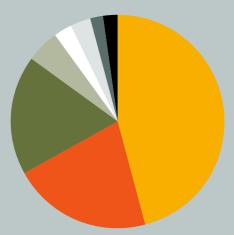

The conclusion of our initial public offering (IPO) on 3 November was a testament to investors' confidence in APF Group's growth story throughout Latvia and the Baltics, as the company exceeded its investment target by 7%, attracting more than EUR 5.6 million from 2128 investors, including two significant Latvian pension funds. This strong investor support clearly demonstrates the company's potential and strategic direction.

# Distribution of subscription amounts by countries

- Latvia 90%
- Estonia 9%
- Lithuania 1%

# Distribution of subscription amounts among banks

- Signet Bank 46%
- Citadele 21%
- Swedbank LV 18%
- LHV 5%
- Swedbank EE 3%
- SEB LV 3%
- Luminor 2%
- Other banks 2%

The goal of the company's IPO was to raise funding to significantly expand operations, increasing egg production by 60% and achieving a doubling of revenue by 2025. The capital raised is intended for the construction of two additional poultry sites, complementing the existing three, as well as for the modernization of production infrastructure. It is expected that this expansion will increase annual egg production up to 180 million and increase the number of laying hens to 665 000.

Additionally, APF Group plans to move towards egg processing by integrating new production facilities to offer modern and healthy egg products. This step towards value-added production is in line with the company's commitment to ensuring the highest quality and continuous innovation.

## Essential Support Received from Rural Support Services

On 23 October, 2023, APF Group received a decision from the Rural Support Service (LAD) to allocate EUR 2 million for development plan financing. This funding signifies a significant support for the company's future development, demonstrating a successful long-term partnership with LAD. This marks the third LAD support for the company, indicating confidence in the APF Group development strategy at this crucial stage.

LAD support strengthens the company's financial position and provides additional assurance to shareholders, banks, employees, and partners regarding the company's ability to meet the highest governance standards.

With this funding, significant expansion of the company's operations is planned, increasing the quantity and revenue of egg production, as well as introducing new production technologies and products.

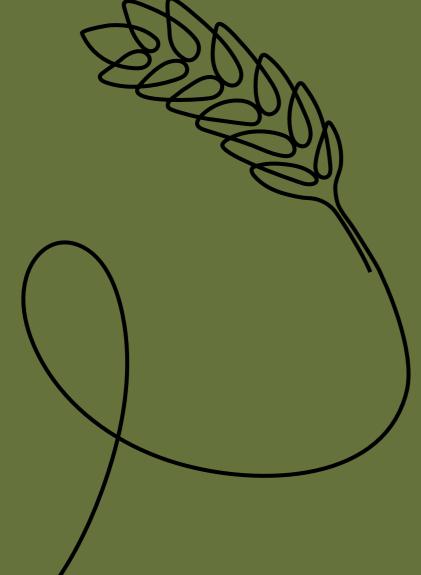

## Start of Construction in Alūksne

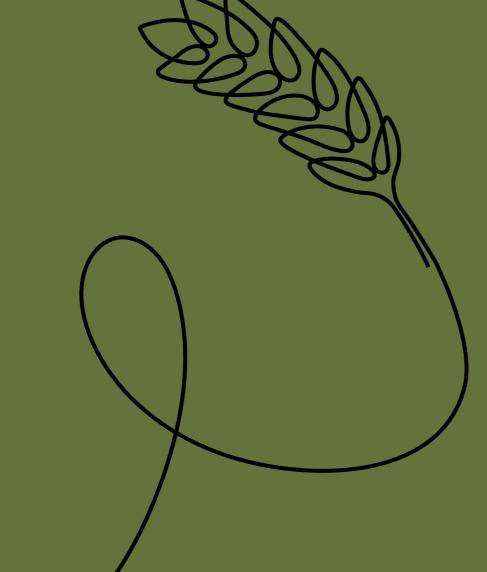

In 2023, APF Group began the construction of a modern egg sorting, processing, and storage facility in Alūksne, following the IPO strategic plan. With an investment of EUR 3.2 million, the company is on track to complete this significant project by mid-2024, demonstrating APF Group commitment to operational excellence and a leading position in the market. This development not only aligns with the company's strategic goals in innovation and sustainability, but also strengthens the supply chain and product range, especially in the liquid egg product category. It is planned that this activity will commence in the autumn of 2024. The APF Group's efforts to improve existing infrastructure and optimize operations demonstrate APF Group's commitment to meeting market needs, promoting business sustainability, while fostering open communication with all stakeholders involved in our operations.

# SUSTAINABILITY

## APF Group's Sustainability Development and Launch of the ESG Strategy

In 2023, APF Group embarked on a new phase of development, significantly advancing towards a sustainable and innovative future. This year was pivotal as the company, with its new motto "We Provide the Most Sustainable Proteins in Every Egg Shell", developed and began implementing a Sustainability and ESG (Environmental, Social, and Governance) strategy to ensure the highest value of egg protein using minimal resources and making it accessible to all.

Our commitment to adhering to ESG principles influences everything we do. These principles include ethical treatment of animals, responsible management of natural resources, waste reduction through reuse, sustainable supply chain provision, as well as the evaluation of our employees and stakeholders' work.

The key event in this area this year was the opening of the company's solar park. The first phase of the project was completed, installing 384 solar panels with a capacity of 250 kWp. This solar park will provide

energy to all of the company's poultry farm locations during the summer and cover 25% of the total annual energy needs in 2024. The use of renewable energy is important not only for reducing operating costs, but also because APF Holdings is becoming a circular economy company. This means using self-generated energy, recycling production process waste, and ensuring animal welfare. Sustainability is becoming increasingly important to egg buyers not only in Latvia, but also in Europe. Selfgenerated energy is a vital part of our ESG strategy, helping to reduce carbon emissions. The solar energy park is a significant step towards our goal of becoming energy selfsufficient.

In 2023, the company also made significant changes in packaging, commencing cooperation with the producers of the RPET (recycled polyethylene terephthalate) packaging for eggs. This decision to use sustainable packaging is a significant step towards waste reduction and a circular economy direction. It is the beginning of changing perceptions about PET packaging and educating all involved about the importance of 'greener thinking.' This step also opens up the opportunity to contribute to the development of an egg packaging deposit system in Latvia and the Baltic States, not only reducing the company's environmental impact, but also setting new standards for responsible practices in the egg industry.

### Commitment to Social Responsibility

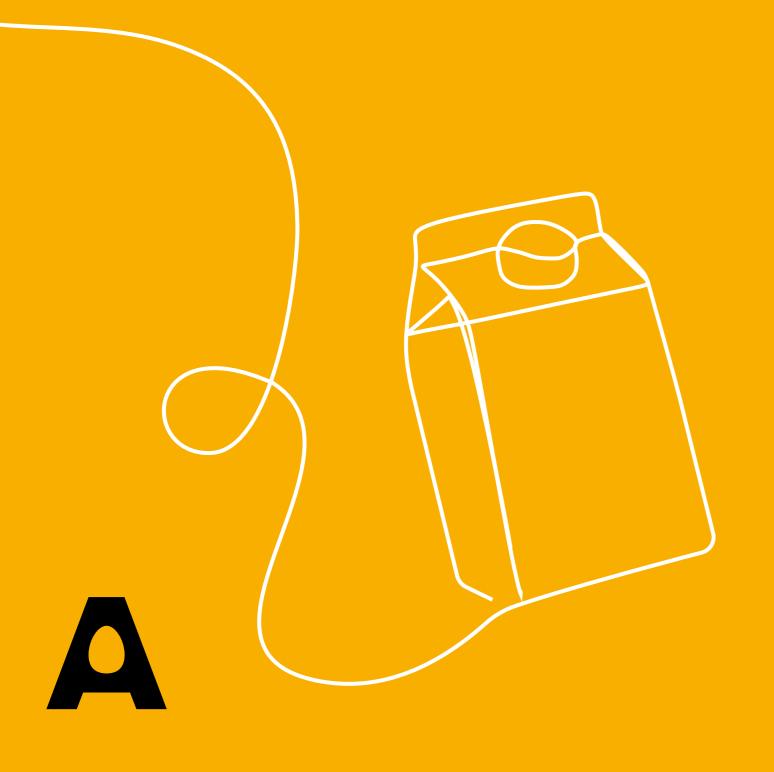

The APF Group has effectively invested in social responsibility by collaborating with various initiatives, such as "Feed Latvia", providing free eggs to this organization. We also actively participate in the "Angels over Latvia" social project run by Rimi, supporting families and seniors with free egg deliveries, positively impacting life in various communities, not just in the neighbourhoods of Alūksne but also in other municipalities of Latvia. For the third consecutive year, the company's employees have prepared Christmas gifts for children without parents, who grow up in foster families. The company's Easter gift campaigns have brought smiles to many young faces.

In the future, APF Group is committed to engaging in supporting the development of its community.

## SALES AND PERFORMANCE

The APF Group's development is largely tied to the increasing demand for cage-free eggs. Moreover, this new trend is observed not only from supermarket chains, which have announced decisions to gradually phase out cage-laid eggs, but also from schools, restaurants, food producers, and other market participants. This trend reflects a shift in societal habits and values, with increased attention on animal welfare and ethical food production practices.

The number of eggs sold by APF Group last year was 105 million, which is 7% less than the previous year. This slight decrease can be attributed to the cyclic replacement of the laying hen flock, which occurs regularly and consequently affects egg production volumes during specific periods.

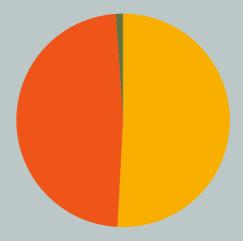

egg production methods. In 2023, 57% of all produced eggs were cage-free eggs, the for enriched cage eggs (small groups) company increased the share of cage-free eggs by 6 percentage points, demonstrating towards more ethical egg production. the company's commitment to promoting animal welfare and responsible production practices. The Group aims to increase the share of cage-free eggs to 90% by the end of 2030, aligning with the company's longterm strategy and market trends.

Furthermore, the amount of sold freerange eggs has grown insignificantly, but APF Group sees potential in this segment and plans to develop it by attracting new collaboration partners.

APF Group continues to develop sustainable This approach aligns with supermarket plans to phase out or significantly reduce demand by 2025, indicating a shift in market demand

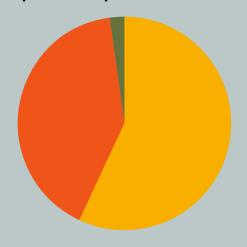

> APF Group believes that this direction not only promotes animal welfare, but also opens up opportunities for new product development and new market expansion, ensuring sustainable growth and competitiveness for the company in the future.

### Egg sales by method of hen keeping (2022)

- Cage-free barn 51% Enriched cage (small groups) 48%
- Free range 1%

## Egg sales by method of hen keeping (2023)

- Cage-free barn 57%
- Enriched cage (small groups) 41%
- Free range 2%

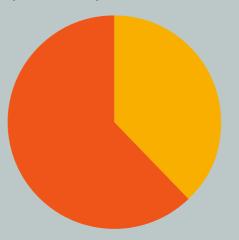

In 2023, APF Group achieved a 6% increase in egg sales in retail compared to the previous year, indicating the growing attractiveness of the company's products and rising consumer demand.

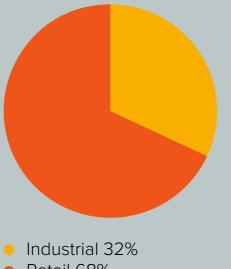

The growth is closely related to several new contracts with collaboration partners. For example, in 2023, the company started selling eggs under "The Chick Game" brand in Rimi stores in Estonia and Lithuania, as well as organized other egg sales campaigns in IKI (in Lithuania) and Grossi (in Estonia) store chains. These new collaboration agreements contributed to expanding the recognition and availability of APF Group products throughout the Baltics.

This successful development motivates the company to continue offering new and innovative APF Group egg brand products in 2024. The growth in the retail sector is also financially advantageous due to higher profit margins in this segment. As a result, the company earns more income per unit sold, promoting financial stability and growth for the APF Group.

## Egg sales by sales segments (2022)

- Industrial 38% Retail 62%
- Egg sales by sales segments (2023)

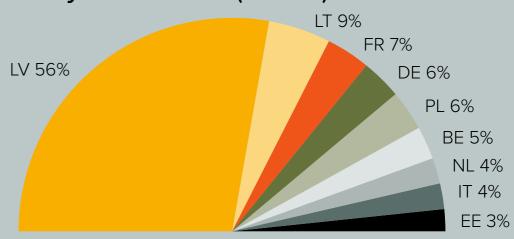

Retail 68%

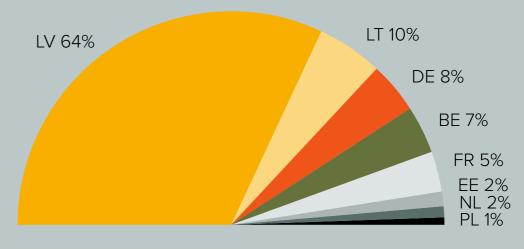

In 2023, 64% of all produced eggs were sold in Latvia, showing increased by 8 percentage points comparing to the previous year, demonstrating the company's ability to meet the growing consumer demand and strengthening its position at the local level. In addition to its successful operations in Latvia, APF Group also actively promoted the availability of its products beyond the country's borders, successfully collaborating with partners in Estonia

and Lithuania. This strategy not only expanded the company's operational geography but also unveiled new opportunities for increasing market share in Europe, especially highlighting potential in the markets of Poland, Germany, France, and the Scandinavian countries. These achievements testify to APF Group's commitment to promoting the availability of high-quality products both locally and internationally, ensuring sustainable growth and development.

### Egg sales by countries (2022)

### Egg sales by countries (2023)

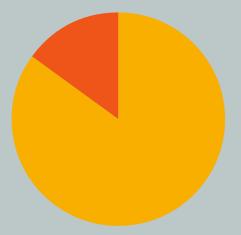

In 2023, the sales proportion of private label (PL) eggs remained at 15% of the total market sales of eggs. This indicator reflects the strong position of our brand eggs and the high demand for them in the market, indicating good brand recognition.

The project "The Chick Game", introducing new cage-free barn eggs, has facilitated our ability to enter the regular assortment of Rimi stores in Estonia and Lithuania, demonstrating the attractiveness of our brand and the expansion of market availability.

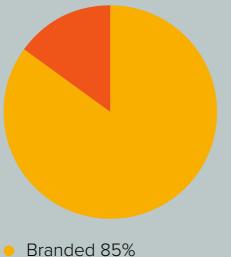

These successes encourage us to plan the introduction of new product units (SKU) in the retail segment in 2024, offering an even wider and more diverse selection of our brand eggs. We also see great opportunities for the development of private labels not only in Latvia and the Baltics, but also in European Union markets in 2024 and 2025. Therefore, we will continue to invest in the development of our products and increase our market share, taking advantage of these market growth opportunities.

# Egg sales distribution: branded eggs vs private labels (2022)

- Branded 85%
- PL 15%

# Egg sales distribution: branded eggs vs private labels (2023)

Branded 859PL 15%

In 2023, APF Group underwent significant changes in its product range, symbolizing the company's transition from primary agricultural operations to a processing enterprise.

Our latest product, "Fiteg2", was introduced to the Latvian market, becoming available in Rimi and Stockmann stores in Latvia from May 2023. This is just the beginning, as we plan to expand our presence to the Estonian and Lithuanian markets in 2024. The product's popularity and demand were tested through active tastings both in the aforementioned stores and at sports events, where we received positive feedback and confirmation of the high potential of our products.

In addition to the retail sector, we have also focused on supplying egg mass to industrial clients and the HoReCa sector, expanding our sales markets. This strategic move not only relates to the supply of egg mass, but also to a broader range of egg products, demonstrating our ability to respond to market needs and strategically expand our operations.

At the beginning of 2023, sales prices, compared to 2022, experienced a decline, but over the course of the year 2023 a trend towards price stabilization and growth of up to 30% relative to 2022 prices was observed. The adjustments made to pricing policies reflected a response to the specifics of storage methods and competitors' low-price offerings, especially highlighting exceptionally low prices for caged egg products.

An interesting observation was the increasing share of small-sized eggs, which were successfully sold through retail networks, considering the growing demand for such size eggs from supermarkets.

This market dynamic and change in consumer preferences has led to price stabilization and increases, reflecting the market's ability to adapt to changing economic and social trends.

## CORPORATE GOVERNANCE

APF Holdings became a publicly traded company on 9 November, 2023.

This represents a significant step in the company's development and the implementation of higher corporate governance standards. Before the initial public offering, a new professional Supervisory Council was elected, combining a wide range of expertise and experience to represent shareholder interests and ensure the sustainable development of the company.

The names and pictures of Council members are published on the company's website, ensuring transparency and easy access to information for all stakeholders. Transparency in decision-making is one of the key principles underlying our corporate governance. It helps build trust and accountability, promoting better corporate management and sustainable development.

The Council is the responsible body of the company, representing shareholder interests between shareholder meetings and overseeing the activities of the Management Board in accordance with the Commercial Law and the company's Articles of Association. The main functions of the Council include overseeing the operational strategy, electing and dismissing board members, monitoring the company's operations within the framework established by law and the statutes, reviewing the annual report, as well as examining the board's proposals for profit allocation. According to the Articles of Association, the Council consists of four members elected by the shareholders' meeting for five years. The Chairman and Deputy Chairman of the Council are elected by the members themselves. The Council may make decisions if more than half of its members are present at the meeting. Decisions are made by a simple majority of the members present. A council member may be removed from office at any time by a decision of the shareholders' meeting. Council meetings are convened as necessary, but at least once a quarter.

# NOTES TO THE FINANCIAL STATEMENTS

# (1) Summary of accounting policies

#### **General principles**

The consolidated and standalone financial statements are prepared in accordance with the Laws of the Republic of Latvia "On Accounting" and "On the Annual Report and Consolidated Annual Report" (the Law).

Based on the financial data for the full two recent years, the Group is classified as an average size Group. Financial statements disclose all information as defined by the Law, as well as additional information to provide fair and clear presentation.

The financial statements have been prepared according to the historical cost accounting principle. The income statement is prepared in accordance with the function of expense method. The cash flow statement has been prepared under indirect cash flow method.

Compared to the previous reporting year, the accounting and valuation methods used by the APF Group and Company have not changed.

#### **General accounting principles**

Financial statement items are recognized according to the following accounting principles:

- a) it is assumed that the APF Group/ Company will continue its activities;
- b) unless specified separately, the same recognition methods are used as in the previous year;
- c) recognition is made with sufficient care, including:
  - profit is recognized only if earned before the end of financial year;
- all known and foreseeable liabilities and losses occurred before the end of the financial year shall be considered, even if they were revealed during the period between the end of the financial year and the day of preparation of the financial statement;
- all asset impairment losses and depreciation are considered, regardless of whether the financial year is closed with profit or loss.
- d) unless specified separately, revenues and expenses are recognized according to accruals method, that is, considering the moment of their occurrence regardless of the day of payment and day of invoice issue or receipt. Expenses are reconciled with the revenues in the financial year.

- e) The sections of the items of Assets and Equity, Provisions and Liabilities are measured and classified separately. Income and expenses are classified and disclosed separately except the gains or losses from sale of non-current assets and from similar transactions (e.g., the result of currency exchange rate fluctuation or the result of sale or purchase of foreign currency), which are offset.
- f) Transactions are reflected with account of their economic intention and matter and not with account of their legal form.

#### **Consolidation methods**

The APF Group's parent company and all of its subsidiaries are consolidated using the acquisition or purchase method. Subsidiaries are consolidated from the time

of its incorporation till their disposal when the parent's control over the subsidiary ceases. In preparation of the consolidated financial statements, all Group intercompany transactions, balances and unrealized profits and losses from transaction with Group companies are excluded.

## Changes in items classifications and information disclosure in balance sheet

To enhance the accuracy and clarity of the financial report, the APF Group has reclassified certain assets. Comparative figures for the previous period in the financial statements have been reclassified according to the principles of the reporting year and are thus comparable. The reclassification has no impact on the financial results.

| Name of items reclassified                     | 2022<br>Adjusted<br>Name of item | 2022<br>Prior adjustments<br>Name of item | Amount<br>EUR |
|--|----------------------------------|---|---------------|
| Payroll expenses                               | Distribution expenses            | Costs of goods sold or services provided  | 12 121        |
| State mandatory social insurance contributions | Distribution expenses            | Costs of goods sold or services provided  | 2 859         |
| Other expenses                                 | Distribution expenses            | Costs of goods sold or services provided  | 136           |
| Rental of storage space                        | Distribution expenses            | Costs of goods sold or services provided  | 128           |

The accounting policies and valuation methods used by the APF Group are consistent with those used in the previous reporting year.

#### Foreign currency conversion in euro

This financial statement is prepared in the euro (EUR), which is the functional currency of the APF Group and the official currency of the Republic of Latvia.

All transactions denominated in foreign currencies are converted into euro at the exchange rate set by the European Central Bank on the day of transaction. Monetary assets and liabilities denominated in foreign currencies are translated into euro in accordance with the official exchange rate set by European Central Bank for the last day of the financial year. The profit or loss resulting from the exchange rate fluctuations of the foreign currency are recognized in the income statements in the respective period on net amount.

#### Income recognition and revenue

Revenue contains the total value of goods and services sold during the year excluding discounts and value added tax.

Income is recognized according to the following principles:

Sales of goods - after significant ownership risk and rewards have been passed to the buyer;

Rendering of services - under the percentage of completion method;

Income from fines and penalties - at the moment of receiving the payments;

Interest income - on an accrual basis.

The management has assessed whether the APF Group acts as an agent for the provision of construction insurance services (see Note 39). Accordingly, revenue and the related direct costs are presented at net value.

#### Intangible and fixed assets

Intangible and fixed assets are initially recognized at the purchase cost. Purchase cost includes costs directly related to the

acquisition of an intangible or fixed asset. In financial statements, the intangible and fixed assets are recognized at purchase cost less depreciation.

Depreciation is calculated on a straightline basis applying the following rates of depreciation set by the management, based on the estimated useful life of the fixed assets:

| Depreciation period in years |
|------------------------------|
| 20                           |
| 3-10                         |
| 50                           |
| 20-30                        |
| 20-30                        |
| 3-10                         |
|                              |

The APF Group capitalizes its fixed assets valued over EUR 100 with useful life exceeding 1 year. Depreciation for improvements and other low-cost items with the value less than EUR 100 is recognized by 100 % after commissioning.

If sufficient evidence is acquired that the future economic benefit associated with subsequent repair or reconstruction costs will flow to the Company, which exceeds the return set previously, costs are capitalized as additional costs to the fixed asset. Capitalizing the cost of replaced parts, the carrying amount of the part replaced is derecognized and charged to the income statement. All other repair and maintenance costs are charged to the income statement during the financial period in which they are incurred.

Net gains or losses from disposal of fixed assets is calculated as the difference between the carrying amount of the fixed asset, write-off of related assets revaluation reserve (if any) and proceeds from sale, and recognized in the income statements during the period when disposal are incurred.

If it is possible to conclude due to any kind of occurrence or circumstances that residual value of fixed or intangible assets could exceed its recoverable value, appropriate value of fixed or intangible asset is to be decreased until recoverable value. Recoverable value is calculated as the highest of fair value less costs to sell or value in use.

### Capitalization of borrowing and other costs

The cost of asset under development is increased by borrowing costs and other direct costs during the period of time that is required to complete and prepare the asset for its intended use. The cost of asset is not increased by borrowing costs during the period with no active development of asset.

#### Research and development costs

Research costs are recognized in the income statement when incurred. Development costs that relate to development of asset intended for sale or own use, are capitalized and recognized as intangible assets and amortized on a straight-line basis starting from the beginning of commercial production of the respective product over the period when the return on this asset is expected.

## Investments in APF Group subsidiaries and associates, and in the capital of other companies

In the individual financial statements of the Company, investments in APF Group subsidiaries and associates, as well as in the capital of other companies, are recorded at acquisition cost, less impairment losses..

#### **Inventories**

Inventories are recognized at the lower of purchase or production cost and net realizable value. Purchase costs consists of purchase value and overheads, which have been acquired, by delivering inventories at their current position and value.

The costs of materials and other expenses that are directly connected with the production of the appropriate item as well as a respective part of overhead expenses are included in the production cost of inventories. Selling expenses are not included in cost. The balance value of the inventories is calculated by using the FIFO method. When the net realizable value of inventories is lower than its costs, the difference is recognized as provisions for the decrease of value.

Labour and productive animals (laying hens) are accounted for at their cost, which is reduced during the productive time of laying hens.

#### **Account receivable**

Trade receivables are recognized at invoiced amounts. After the initial recognition account receivables are measured at net amount less provisions for doubtful debts. Provisions for doubtful receivables are recognized when the management of the Company considers that it is probable that the total amount of receivables will not be collected in full.

## Initial share public offering (IPO) costs

Latvian laws and regulations do not stipulate the accounting policy for costs related to the initial placement of shares of the company (IPO costs). The APF Group / Company applies the provisions of International Accounting Standard No 32 Financial instruments to account for these transactions.

The Company incurs various costs in issuing or acquiring its own equity instruments. Those costs might include registration and other regulatory fees, amounts paid to legal, accounting and other professional advisers, IPO information and marketing campaign costs. The incremental costs of an equity transaction that otherwise would have been avoided, are accounted for directly to equity as a deduction from Share premium. Other indirect costs are recognized in the income statement.

#### **Borrowings**

Borrowings are recognized at the proceeds, net of transaction costs incurred.

## Accrued liabilities for unused annual leave

Amount of accumulated unused annual leave is determined by multiplying the average day rate of employees for the last six months of the financial year by the amount of accrued but unused annual leave at the end of the reporting year.

#### **Grants and government assistance**

Financial support received for the formation of fixed assets and other long-term assets is accounted for as income from subsequent periods, which are gradually included in revenue during the useful life period of assets received or acquired with financial

support. Other financial support and the payment of grant expenditure shall be allocated to revenue during the same period as the financing.

#### Corporate income tax

Starting from the year 2018 there are no payable income tax on earned profit. Income tax is payable only on dividends distributed and deemed profit distribution. The tax rate is 20% on gross amount or 20/80 of the net amount paid. The new tax law include some transitional provisions:

- retained earnings as at 31 December 2017 will not be taxed in additional by 20% tax when dividends will be distributed;
- accrued tax losses could be utilized within a 5 year period, but with the annual limit of 50% on income tax calculated for dividends distributed.

#### Cash and cash equivalents

For the purposes of the cash flow statement, cash and cash equivalents comprise cash, the balances of the current bank account and other current liquid financial assets.

#### **Current and non-current items**

Assets and liabilities classified as noncurrent if it receivable or payable later than one year after the end of the financial year. Amounts to be received or paid within one year classified as short-term items. In the event that payment terms of receivables or payables are extended after the end of the financial year, but before the financial statements are signed, they are classified under new payment terms.

#### **Group companies**

Subsidiaries of the APF Group or the parent company of the APF Group, or other subsidiaries of the APF Group, or subsidiaries of the subsidiaries of the APF Group are regarded as the APF Group companies.

#### **Associates**

An associated company is an entity within a significant influence of other company, which is provided by holding no less than 20% and no more than 50% of the voting rights.

#### **Related parties**

Related parties are considered Group companies, ultimate beneficial owners, Board and Council members, their close family members and entities, in which the previously mentioned persons or companies have significant influence or control.

SIA Alūksnes putnu ferma main activity is poultry farming. As of December 31, 2023, the Company owns 8 000 shares of SIA Alūksnes putnu ferma, which constitutes 100% of the subscribed share capital of SIA Alūksnes putnu ferma.

The main activity of SIA APF Trading is the wholesale of milk, milk products and eggs and edible fats and oils. As of December 31, 2023, the Company owns 28 capital shares of SIA APF Trading, which make up 100% of the subscribed and paid-up share capital of SIA APF Trading.

The main activity of SIA Oluksne is poultry farming. As of December 31, 2023, the Company owns 28 capital shares of SIA Oluksne, which make up 100% of the subscribed and paid-up share capital of SIA Oluksne.

The main activity of SIA Preiļu putni is poultry farming. As of December 31, 2023, the Company owns 2800 capital shares of SIA Preiļu putni, which make up 100% of the subscribed and paid-up share capital of SIA Preiļu putni.

The main activity of SIA APF Energy is the production of gas. As of December 31, 2023, the Company owns 2800 capital shares of SIA APF Energy, which make up 100% of the subscribed and paid-up share capital of SIA APF Energy.

#### c) Impairment testing of investments

Taking into account the negative results of the reporting years of the subsidiary company SIA Alūksnes Putnu Ferma, the Company has carried out an impairment test for investments in the capital of SIA Alūksnes Putnu Ferma.

The recoverable amount of the participation was determined based on the value in use method, discounting the future cash flow of the subsidiary. The future cash flow was discounted with the discount rate calculated for the Company's valuation needs and the Company's Enterprise Value was obtained. Loans and other interest bearing liabilities are subtracted from the Enterprise Value, thus obtaining the Company's Equity Value. According to the calculations, the value of the subsidiary's equity is higher than its carrying amount by EUR 564 thousand, as a result the Company has recognized a reversal of the impairment of investment of EUR 2.46 million, which was created on 31.12.2021. for EUR 560 thousand.

Significant assumptions in calculating the value of use are: egg prices dynamics, changes in feed prices, EBITDA/turnover ratio and discount rate. Management based its assumptions on historical experience, available industry data and now anticipated market developments. The main assumptions in the impairment calculation are as follows:

|                           | Budgeted<br>2024. gads | Budgeted<br>2025. gads | Projected<br>2026. gads | Projected<br>2027. gads | Projected<br>2028-<br>2048. gads |
|---------------------------|------------------------|------------------------|-------------------------|-------------------------|----------------------------------|
| Egg price dynamics        | -2,3%                  | 6,0%                   | 0,3%                    | 2,5%                    | 1,7%                             |
| Changes in feed prices    | -15,2%                 | 1,9%                   | 1,8%                    | 1,7%                    | 1,7%                             |
| EBITDA/Revenue ratio*     | 28,2%                  | 30,4%                  | 29,7%                   | 29,5%                   | 28,9%                            |
| Discount rate (after-tax) |                        |                        | 11,4%                   |                         |                                  |

<sup>\*</sup> EBITDA - Profit before depreciation of assets (including depreciation of the initial value of laying hens during its productive life), interest costs and corporate income tax.

#### Egg and feed prices dynamics

After Russia's attack on Ukraine, egg prices increased by approximately 50% not only in Latvia but throughout Europe (similarly, the prices of feed ingredients also rose). As the situation stabilized in 2023, egg prices slightly decreased and remained stable until the end of the year. However, due to market changes (increased sales of barn eggs), the supply increased at the end of 2023, resulting in pressure on the price of cage eggs, which continued into early 2024. Despite this, the prices of eggs sold by the Company in 2023 increased by approximately 30% compared to the previous year (when egg prices only rose mid-financial year). In 2024, retailers continued to increase the sales volumes of barn eggs in the Company's target markets, but without completely abandoning the sales

of cage eggs. These trends also caused undue pressure on the prices of barn eggs. The Company's management expects that the average price of eggs sold will improve in 2025, when supermarkets plan to stop selling cage eggs.

Since the end of 2023, there has also been a gradual decrease in feed ingredient prices. The Company's management believes that the egg and feed price levels achieved at the beginning of 2024 can be used as a basis for making forecasts. Egg and feed prices for 2024 are estimated based on the actual prices at the beginning of 2024. The increase in egg prices starting in 2025 is estimated in line with changes in the average consumer price index.

#### **EBITDA / Revenue ratio**

The actual indicator in 2023 was 21%. The value of the indicator depends on the price of eggs sold and the cost of eggs, primarily feed costs, as well as changes in the proportion of fixed costs depending on the laying cycle of hens. In the coming years, the Company expects the indicator to improve, as there are increasing changes in the egg baskets sold by supermarkets, with the goal of completely discontinuing the sale of cage eggs by 2025. The planned improvement in the indicator for 2024, compared to the previous year, will reach 34%, which can be explained by the higher quantity of cage and industrial eggs in 2023 compared to the budget, and the lower feed costs achieved at the beginning of 2024.

#### Discount rate

The discount rate (WACC method) reflects the average cost of financing based on actual borrowing costs from banks and the estimated cost of capital of 18.8% per annum. The actual proportion of external and equity financing at the end of 2023 is used to calculate the discount rate.

Below is an analysis of the sensitivity of the Company's Enterprise Value from changes in key assumptions.

#### Impairment sensitivity analysis

|   | Factors       | Effect on<br>increase<br>EUR | Effect on<br>decrease<br>EUR |
|---|---------------|------------------------------|------------------------------|
| Dynamics of the amount of eggs produced | changes by 1% | 1830 300                     | (1 819 700)                  |

|  | 92 184    | 92 184                          |                               | -                             |

The Deferred income item has recognizes the financing received from Lauku Atbalsta Dienests (LAD) programme from 2012 to 2015 in the amount of EUR 2 324 431 for the acquisition and reconstruction of fixed assets, as well received EUR 778 716 from 2019 and 2020 for the acquisition of fixed assets - for the expansion of activities.

Deferred income from LAD financing has recognised as income in the profit loss statement during the useful life of the fixed assets acquired, within 20-50 years respectively. Part of LAD financing in the amount of EUR 2 040 062 shall be depreciated over a 5 year period.

The APF Group is liable within 5 years from the moment of receiving the funding to comply with the terms of the contract regarding the use of the purchased assets at the place of implementation of the Project and for the intended purposes, not disposing and not transferring the assets for use to third parties, insuring the property and fulfilling other obligations. In case of non-compliance with the specified conditions, the APF Group could be obliged to repay the received financing. According to management's assessment, this possibility is very remote.

## (44) Financial risk management

Financial risks related to the financial instruments of the APF Group and Company are mainly the interest rate risk, the liquidity risk and the credit risk. The Management of the APF Group and Company seeks to minimize potential adverse effects of the financial risks on the APF Group and Company financial position. The APF Group and Company does not use derivative financial instruments to hedge certain risk exposures.

#### Market risk - Interest rate risks

The Group accepts the interest risk it derives from loans with variable interest rates.

Derivatives are not used.

#### Credit risk

The APF Group is exposed to credit risk related to the debts of its buyers and principals. The Group shall control its credit risk by constantly assessing the history of repayment of customer debts and determining the credit conditions for each customer separately. In addition, the APF Group and the Company continuously monitors the balances of receivables in order to reduce the possibility of irrecoverable debts arising.

#### Liquidity risk

The APF Group and the Company controls its liquidity risk by maintaining an appropriate amount of cash and cash equivalents.

#### **Capital Management**

In order to ensure the sustainable development of the APF Group and the sufficiency of capital, the Management of the APF Group regularly monitors the compliance of financial data of the APF Group with market benchmarks, including regular monitoring of liquidity ratios (short-

term liabilities to current assets), adequacy of the equity (equity to total assets) and adjusted EBITDA (earnings before interest payments, taxes, depreciation and amortisation, as well as other irregular income and expenses, changes of the carrying amount of laying hens, donations and state aid received, etc.).

#### (45) Subsequent events

In February 2024, the APF Group has secured EUR 7 million from a private bond placement. Polish Investment Fund CVI date of puracquired the entire volume of the bond issue. The maturity for the bonds is set at financial properties. Part of the attracted financing was used to fully refinance all of the APF Group loans from banks.

There are no other subsequent events from the last date of the financial year until the date of publishing of financial statements, which would have a significant effect on the financial position of the APF Group and the Company

## INDEPENDENT AUDITOR'S REPORT

Baker Tilly Baltics AS Kronvalda bulv. 10 - 32 Riga, LV – 1010 Latvia

**T:** +371 6732 1000

office@bakertilly.lv www.bakertilly.lv

#### INDEPENDENT AUDITORS' REPORT

to the Shareholders of APF Holdings AS

#### Our Opinion on the Separate and Consolidated Financial Statements

We have audited the accompanying separate and consolidated financial statements of APF Holdings AS (the Company) and its subsidiaries (together "the Group") set out on pages 43 to 94 of the accompanying separate and consolidated annual report, which comprise:

- the separate and consolidated balance sheet as at 31 December, 2023,
- the separate and consolidated profit and loss statement for the year then ended,
- the separate and consolidated statement of changes in equity for the year then ended,
- the separate and consolidated statement of cash flows for the year then ended,
- the notes to the separate and consolidated financial statements, which include a summary of significant accounting policies and other explanatory notes.

In our opinion, the accompanying separate financial statements of the Company and consolidated financial statements of the Group give a true and fair view of the separate and consolidated financial position of the Company and the Group as at 31 December 2023, and of its separate and consolidated financial performance and its separate and consolidated cash flows for the year then ended in accordance with the 'Law On the Annual Reports and Consolidated Annual Reports' of the Republic of Latvia (the Law On the Annual Reports and Consolidated Annual Reports).

#### **Basis for Opinion**

In accordance with the Law on Audit Services of the Republic of Latvia (the Law on Audit Services) we conducted our audit in accordance with International Standards on Auditing adopted in the Republic of Latvia (ISAs). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Consolidated Financial Statements* section of our report.

We are independent of the Company and the Group in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants, including International Independence Standards (IESBA Code) and independence requirements included in the Law on Audit Services that are relevant to our audit of the separate and consolidated financial statements in the Republic of Latvia. We have also fulfilled our other professional ethics responsibilities and objectivity requirements in accordance with the IESBA Code, including International Independence Standards, and Law on Audit Services.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### Reporting on Other Information

The Company and the Group management is responsible for the other information. The other information is the Management Report, as set out on pages 7 to 40 of the accompanying separate and consolidated Annual Report and Information about the Company and the Group, as set out on pages 5 to 6 of the Annual Report.

ADVISORY · ASSURANCE · TAX

Our opinion on the separate and consolidated financial statements does not cover the other information included in the Annual Report, and we do not express any form of assurance conclusion thereon, except as described in the Other reporting responsibilities in accordance with the legislation of the Republic of Latvia section of our report.

In connection with our audit of the separate and consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the separate and consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed and in light of the knowledge and understanding of the Company and the Group and its environment obtained in the course of our audit, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

#### Other reporting responsibilities in accordance with the legislation of the Republic of Latvia

In addition, in accordance with the Law on Audit Services with respect to the Management Report, our responsibility is to consider whether the Management Report is prepared in accordance with the requirements of the Law On the Annual Reports and Consolidated Annual Reports.

Based solely on the work required to be undertaken in the course of our audit, in our opinion:

- the information given in the Management Report for the financial year for which the separate and consolidated financial statements are prepared is consistent with the separate and consolidated financial statements; and
- the Management Report has been prepared in accordance with the requirements of the Law On the Annual Reports and Consolidated Annual Reports.

#### Responsibilities of Management and Those Charged with Governance for the Separate and Consolidated Financial Statements

Management is responsible for the preparation of the separate and consolidated financial statements that give a true and fair view in accordance with the Law On the Annual Reports and Consolidated Annual Reports and for such internal control as management determines is necessary to enable the preparation of separate and consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the separate and consolidated financial statements, management is responsible for assessing the Company's and the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's separate and consolidated financial reporting process.

#### Auditor's Responsibilities for the Audit of the Separate and Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the separate and consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these separate and consolidated financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the separate and consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's and the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's and the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the separate and consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company and the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the separate and consolidated financial statements, including the disclosures, and whether the separate and consolidated financial statements represent the underlying transactions and events in a manner that achieves a fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Company and the Group to express an opinion on the separate and consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding of the Company and the Group, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.
