### **Principal risks and uncertainties**

As part of the 4finance Group, the Company applies Group principles for overall risk management, and Group policies covering specific areas such as credit risk, liquidity risk, market risks, operational risks and reputational risks.

The principal risks and uncertainties of the Company relate to its main assets, ie loans to affiliated companies. Recoverability of these loans is dependent on the performance of the underlying companies. The Company is not exposed to interest rate risk as the loans and the bonds issued are at fixed rates. Most of the loans have maturities after more than one year, however, prior to maturity, the lender may request the repayment of the loan at any time, therefore these are presented under payables within one year. These loans are denominated in various currencies. In addition, liabilities largely consist of bonds denominated in EUR. The Company hedges this foreign currency risk through various financial instruments including swap, forward and option contracts.

### **Employees**

The Company had 3 part-time employees during the financial half year.

### **Research and development**

The Company does not undertake any research or development activities.

### **Corporate Governance**

Strong corporate governance is an integral part of the Group's core values, supporting the Group's vision of moving towards a sustainable future.

The executive committee of the Group is composed of a team that works with the senior leaders across the Group to evaluate the importance of the core values throughout the Group by promoting and fostering a corporate culture of the highest ethical standards, internal controls, and legal compliance.

In compliance with Luxembourg Company Law, this Corporate Governance Statement is presented below and constitutes an integral part of this report.

#### *Capital structure of the Company / 4finance Group*

The Company is part of the 4finance Group and is entirely held by AS 4finance (Latvia), a Latvian based company whose share capital is wholly owned by 4finance Holding S.A. ("Holdco"), a Luxembourg Société anonyme. The parent holding company of the Group and direct shareholder of Holdco is 4finance Group S.A. (Luxembourg). With a 100% shareholding in 4finance Group S.A., Tirona Limited (Cyprus) is the indirect shareholder of the Company. Tirona Limited largest shareholder (29.47%) is Edgars Dupats, with all other shareholders holding less than 10%. The Company has not acquired its own shares during the half year.

Corporate governance, management, and control of the Company is apportioned between the sole shareholder and the Board of Directors (the "Board"), in accordance with all relevant provisions of Luxembourg laws and in particular the law of August 10, 1915 on commercial companies, as amended (the "Luxembourg laws") so as the Company's articles of association (the Articles of Association"). The Company does not apply additional requirements in addition to those required by the above.

### *Powers of the sole shareholder*

The sole shareholder of the Company exercises all the powers granted by Luxembourg laws to the general meetings of shareholders, including (i) appointing and removing the directors (the “Directors”) and the statutory or independent auditor of the Company as well as setting their remuneration and discharging them from liability, as the case may be, (ii) approving the annual financial statements of the Company, (iii) amending the Articles of Association, (iv) deciding on the dissolution and liquidation of the Company, and (v) changing the nationality of the Company.

### *General Powers of the Directors / the Board*

The Company is currently managed by a Board composed of two directors of category A and two directors of category B, approved by the Company’s sole shareholder. In accordance with Luxembourg laws, each Director may be removed by the sole shareholder at any time without cause.

Directors of each category are vested with the same individual powers and duties. Directors of category A are Luxembourg residents, whereas directors of category B are not Luxembourg residents and at the same time generally hold positions within the Group entities.

The Board is responsible for conducting and managing the business affairs of the Company in accordance with Luxembourg laws and the Articles of Association. The Board is convened as often as required in the Company’s interest.

The Directors participate in all discussions but may however not vote or deliberate on any items in which they have a conflict of interest. In such a case, the concerned Director(s) must declare the nature of such conflict, which declaration is recorded in the meeting minutes. Any conflicts of interest are further reported to the sole shareholder in accordance with Luxembourg laws.

The Board may delegate certain functions, but not their responsibility, to third parties, subject to the supervision and Directors, i.e. the managing directors(s), commit the management of the affairs of the Company to one or more Directors or give special powers for determined matters to one or more proxy holders.

In accordance with the Articles of Association, when composed of several categories of directors (as is currently the case), the Board is bound by the joint signatures of one Director of each category. Thus the “four eyes” principle is established.

In line with the principles of the 3 lines of defence, the Company has a governance process enabling the business to understand, assess and manage risks in accordance to its defined risk appetite. The Company ensures a formal process of regular portfolio reviews, enabling the identification of risks associated with the portfolio, the definition and implementation of any corrective action, whenever required, consistent with the risk/reward approach set by the Board.

– Monitoring

The Board is directly responsible for establishing a sound control environment.

The Board has an annual process to ensure that appropriate measures are taken to consider and address any shortcomings identified and measures recommended by the independent auditor(s).

The internal audit department of the Group currently reports directly to the Group`s audit committee (the “Audit Committee”) and regularly performs an independent assessment of the Group`s processes. ## **NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

### **General principles**

The Company maintains its books and records in Euro (“EUR”) and prepares its accounts in accordance with applicable laws and regulations in Luxembourg as well as with the generally accepted accounting principles in force in the Grand Duchy of Luxembourg.

## **Going concern**

The interim accounts are prepared in accordance with the going concern principle.

## **Main valuation rules**

The main valuation rules applied by the Company are the following:

### Financial assets

Long term investments into debt instruments (bonds) are disclosed under item Investments held as fixed assets. These investments are valued at cost. In case of durable depreciation in value, according to the opinion of the management, value adjustments are made in respect of financial assets, so that the lower value is attributed to them at the balance sheet date. These value adjustments are reversed if the reason for which they were made have ceased to exist.

### Debtors

Debtors are stated at their nominal value.

A value adjustment is recorded when the recoverable value is lower than the nominal value. The recoverable value is estimated on the basis of the information available to the Board of Directors. These value adjustments are not continued if the reasons for which the value adjustments were made have ceased to apply.

### Derivative financial instruments

The Company is engaged in hedging activities, in particular the hedging of foreign currency exposure. Derivative financial instruments are initially recorded at cost. In the case of hedging of an asset or a liability that is not recorded at fair value, unrealized gains or losses are deferred until the recognition of the realized gains or losses on the hedged item.

Margin requirements of the hedge deals are accounted for in other debtors.

### Foreign currency translation

The Company maintains its accounting records in EUR and these accounts are prepared in this currency. Transactions made in another currency than EUR are translated into EUR at the exchange rate prevailing at the transaction date:

- cash and cash equivalents are valued at the exchange rate applicable at the balance sheet date, considering exchange rate differences as realized;
- all other assets expressed in another currency than EUR are valued individually at the lower of the value determined using the historical exchange rate or the value determined using the exchange rate prevailing at the balance sheet date;
- all liabilities expressed in another currency than EUR are valued individually at the higher of the value determined using the historical exchange rate or the value determined using the exchange rate prevailing at the balance sheet date;
- income and expenses expressed in currencies other than EUR are converted at the exchange rate applicable at the date of the transactions.

Consequently only realized foreign exchange gains and losses and unrealized foreign exchange losses are taken into account in the profit or loss account.

### Prepayments

This asset item includes payments incurred during the financial period but relating to a expenditure subsequent financial period. Company accounts bond issuing and extension costs paid in prepayments and amortise linearly to Other external expenses over the period of time until bond maturity.

### Creditors

Creditors are recorded at their reimbursement value. Where the amount repayable on account is greater than the amount received, the difference is recorded in the profit or loss account when the debt is issued.

### Provisions

Provisions are intended to cover losses or debts, the nature of which is clearly defined and which, at the date of the balance sheet, are either likely to be incurred or certain to be incurred but uncertain as to their amount or the date on which they will arise.
