2 Basis of preparation and accounting policies

Basis of preparation

The interim condensed financial statements for the 6 months ended 30 June 2015 have been prepared in accordance with IAS 34 Interim Financial Reporting.

The interim condensed financial statements do not include all the information and disclosures required in the annual financial statements, and should be read in conjunction with the Group's annual financial statements as at 31 December 2014.

From 1 January 2015 euro is the Company's and the Group's functional and presentation currency. The financial statements are presented in thousands of euro (EUR) and all values are rounded to the nearest thousand except when otherwise indicated. The previous year comparison information recalculated using the official litas to euro conversion ratio: 1 euro = 3.4528 litas.

Significant accounting policies

The accounting policies adopted in the preparation of the interim condensed financial statements are consistent with those followed in the preparation of the Group's annual financial statements for the year ended 31 December 2014, except adoption of new Standards and Interpretations as of 1 January 2015, noted below.

IFRIC 21 Levies

The interpretation clarifies the accounting for an obligation to pay a levy that is not income tax. The obligating event that gives rise to a liability is the event identified by the legislation that triggers the obligation to pay the levy. The fact that an entity is economically compelled to continue operating in a future period, or prepares its financial statements under the going concern assumption, does not create an obligation. The same recognition principles apply in interim and annual financial statements. The application of the interpretation to liabilities arising from emissions trading schemes is optional. The Group is not currently subjected to significant levies so the impact on the Group is not material.

Annual Improvements to IFRSs 2013

The improvements consist of changes to four standards.

- The basis for conclusions on IFRS 1 is amended to clarify that, where a new version of a standard is not yet mandatory but is available for early adoption; a first-time adopter can use either the old or the new version, provided the same standard is applied in all periods presented.
- IFRS 3 was amended to clarify that it does not apply to the accounting for the formation of any joint arrangement under IFRS 11. The amendment also clarifies that the scope exemption only applies in the financial statements of the joint arrangement itself.
- The amendment of IFRS 13 clarifies that the portfolio exception in IFRS 13, which allows an entity to measure the fair value of a group of financial assets and financial liabilities on a net basis, applies to all contracts (including contracts to buy or sell non-financial items) that are within the scope of IAS 39 or IFRS 9.
- IAS 40 was amended to clarify that IAS 40 and IFRS 3 are not mutually exclusive. The guidance in IAS 40 assists preparers to distinguish between investment property and owner-occupied property. Preparers also need to refer to the guidance in IFRS 3 to determine whether the acquisition of an investment property is a business combination.

The amendments had no impact on the Group's financial statements for the 6 months ended 30 June 2015.

3 Segment information

The Board of Directors monitors the operating results of the business units of the Group separately for the purpose of making decisions about resource allocations and performance assessment. Segment performance until becoming investment entity is evaluated based on net profit or loss and it is measured on the same basis as net profit or loss in the financial statements. After becoming investment entity the performance of segments excluding asset management segment is evaluated based on changes in fair value of investments. Asset management segment's performance is evaluated based on net profit or loss. Group financing (including finance costs and finance income) and income taxes are allocated between segments as they are identified on basis of separate legal entities. Consolidation adjustments and eliminations are not allocated on a segment basis. Segment assets are measured in a manner consistent with that of the financial statements. All assets are allocated between segments, because segments are identified on a basis of separate legal entities. The granted loans by the Company are allocated to segment's, to which entities they are granted, assets. The impairment losses of these loans are allocated to a segment to which the loan was granted initially.

For management purposes, the Group is organised into following operating segments based on their products and services:

Asset management (continuing operations)

The asset management segment includes pension, investment funds and portfolio management services.

Agriculture (continuing operations)

Agricultural activities include the primary crop and livestock (milk) production, grain processing and agricultural services. The segment's companies sell plant protection products, fertilizers, seeds, compound feed, feed supplements, veterinary products, buy grain, provide grain and other raw materials drying, cleaning, handling and storage services.

Facility management (continuing operations)

The facility management segment includes facility management of dwelling-houses, commercial and public real estate properties.

Banking activities (continuing operations)

The banking activities segment includes investment and private banking activities, financial brokerage and accounting services of the issuers' shares.

Other production and service segments (continuing operations)

The other production and service segments are involved in road signs production, wood manufacturing. The Group also presents investment, financing and management activities of the holding company in this column, as these are not analysed separately by the Board of Directors.

Furniture production (disposed, discontinued operation)

The furniture segment includes flat-pack furniture mass production and sale. In May 2014 entities of the segment were fully disposed.

Real estate (transferred during the Split-off, discontinued operation)

The real estate segment is investing in investment properties held for future development and in commercial real estate and its rent. The entities of the segment were transferred during the Split-off completed in 2014 to AB INVL Baltic Real Estate. Control of UAB Sago was lost due to a bankruptcy proceedings.

3 Segment information (cont'd)Agricultural land (transferred during the Split-off, discontinued operation)

The agricultural land segment is involved in investment in agricultural land and its rent. The entities of the segment were transferred during the Split-off completed in 2014 to AB INVL Baltic Farmland.

Information technology infrastructure (transferred during the Split-off, discontinued operation)

The information technology infrastructure segment is involved in offering IT infrastructure strategy, security and maintenance solutions and supplies of all hardware and software needed for IT infrastructure solutions of any size and in the development and implementation of software for government register systems, including consultation. The entities of the segment were transferred during the Split-off completed in 2014 to AB INVL Technology.

Segment revenue, segment expense and segment result include transfers between business segments. Those transfers are eliminated in column 'Inter-segment transactions and consolidation adjustments'.

Establishment

In February 2015 the Company has established UAB INVL Farmland Management by investing EUR 100 thousand (at the end of reporting period EUR 75 thousand was unpaid). The new established entity has signed on 30 June 2015 a basic property administration agreement with INVL Baltic Farmland group. AB INVL Baltic Farmland is a company listed in NASDAQ Vilnius Stock Exchange. Group companies own more than 3 thousand hectares of agricultural land in Lithuania.

In January 2015 was completed the legal registration of share capital increase of UAB Regenus (the Company has invested EUR 2 thousand (LTL 7 thousand) in December 2014).

In May 2015 the Company has established UAB INVL Finasta by investing EUR 150 thousand. The entity has applied for the brokerage company licence to the Bank of Lithuania.

In May 2015 the Company has additional invested EUR 3 thousand into the share capital of UAB Consult Invalida.

AB Bankas Finasta

In January 2015 the remaining part of the debt for AB bankas Finasta shares was paid (EUR 500 thousand). In March 2015 5.35% of shares of AB Bankas Finasta was sold for EUR 220 thousand to management of the bank (shares shall be paid during 2015). Shares option agreement was also signed with the management of the bank. According to the agreement, they have put option (the right to require from the Company that the shares would be redeemed by the Company). The Company would have from 30 September 2015 call option (the right to require that shares would be sold to the Company). Both options expire on 31 December 2015. The put option is not recognised in the statement of financial position, because it is out of money under the current conditions. After sale of shares of AB bankas Finasta in July 2015 the options was expired (Note 13).

Merger of asset management entities

On 25 May 2015 the Bank of Lithuania authorised a permission to reorganise the specialised pension fund managing entity UAB MP Pension Funds Baltic and transfer the pension funds management business to UAB INVL Asset Management (previous name – UAB Finasta Asset Management). The Company's owned asset management entities, UAB MP Pension Funds Baltic and UAB INVL Asset Management as well as UAB INVL Fondai will be merged into one joint asset management entity. The joint entity will operate under the name of UAB INVL Asset Management. Until issue of interim financial statements the reorganisation was not completed.

1st Half Year of 2014

During the 1st quarter of 2014 the Company has established UAB Invalda LT Investments by investing EUR 400 thousand (at the end of reporting period EUR 270 thousand was unpaid). Also, the Company has invested EUR 9 thousand (LTL 30 thousand) to newly established entities UAB INVL Baltic Real Estate (current name – UAB Proprietas), UAB INVL Baltic Farmland (current name – UAB Cooperor), UAB INVL Technology (current name – UAB Inventio). During the 2nd quarter of 2014 UAB INVL Fondai was established by investing EUR 3 thousand.

After the Split-off during 2nd quarter of 2014, the Company has decreased the share capital of UAB Aktyvus Valdymas and has returned free funds of EUR 200 thousand.

On 28 April 2014 the Company signed the agreement with AB Invalda Privatus Kapitalas regarding purchase of 45.45% of shares of UAB Cedus Invest and loans granted by the seller to this entity for EUR 6,987 thousand (for the shares it was paid EUR 3,128 thousand, for the loan – EUR 3,859 thousand). The amount payables from this acquisition were set-off with amount receivable from sale of shares of AB Vilniaus Baldai. After this transaction the Group has increased owned shares of UAB Cedus Invest from 54.55% till 100% and the entity became the Group's subsidiary (before the transaction it was a joint venture). UAB Cedus Invest owns shares of associates UAB Litagra. So the Group has increased owned shares of UAB Litagra from 20.12% till 36.88%. In June 2014 the Company has invested EUR 8,104 thousand to increase the share capital of UAB Cedus Invest by converting loans granted.

On 28 April 2014 the Company signed the agreement with AB Invalda Privatus Kapitalas regarding sale of 45.4% of shares in associates AB Vilniaus Baldai. The transaction was completed on 28 May 2014. Shares' sale price after deduction of dividends received (EUR 4,497 thousand), amounted to EUR 18,730 thousand. The Company and the Group have recognised the profit of EUR 13,038 thousand and EUR 1,200 thousand from the shares sale, respectively.

Deconsolidation of subsidiaries on becoming investment entity in 2014

According to the management the Company is investment entity in accordance with IFRS 10 after the Split-off completed in 2014. Therefore, the subsidiaries are ceased to consolidate and the revaluation of investments is recognised. Subsidiaries and associates are measured at fair value. The entities having negative equity are measured at nil. The Group has earned a profit of EUR 3,099 thousand from the revaluation of investments. In this profit the profit of EUR 865 thousand from UAB Sago is included. The negative equity of UAB Sago amounted to EUR 2,033 thousand. As the Group has also recognised impairment loss of EUR 1,168 thousand from loans granted by real estate segment entities to UAB Sago, therefore presented the net profit on revaluation of investments to UAB Sago amounting to EUR 865 thousand in discontinued operation.

The Company has earned a profit of EUR 3,441 thousand from the revaluation of investments becoming the investment entity. Due to the bankruptcy of UAB Sago the Company had not suffered any additional loss, because the impairment losses were recognised in the previous accounting periods.

In March 2014 management of UAB Sago and UAB INTF Investicija has applied to the court regarding bankruptcy. On 29 April 2014, when the split-off was completed, UAB INTF Investicija has left the Group (it's solely shareholder, AB Invaldos Nekilnojamojo Turto Fondas, was transferred during the split-off). On 16 May 2014 after the court decision regarding bankruptcy of UAB Sago came to force, The Group has ceased to control this entity also.

The split-off of 2014 and entities left the Group during the split-off is described in detail in Note 3 of the annual financial statements for the year ended 31 December 2014.

6 Financial assets and fair value hierarchy

The Group uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:
Level 1: quoted (unadjusted) prices in active markets for identical assets or liabilities;
Level 2: other techniques for which all inputs which have a significant effect on the recorded fair value are observable, either directly or indirectly;
Level 3: techniques which use inputs which have a significant effect on the recorded fair value that are not based on observable market data.

As the Split-off completed in 2014 the Company is investment entity in accordance with IFRS 10. Subsidiaries and associates are measured at fair value through profit or loss.

The fair value of financial instruments traded in active markets is based on quoted market prices at the balance sheet date. A market is regarded as active if quoted prices are readily and regularly available from an exchange and those prices represent actual and regularly occurring market transactions on arm's length basis. The quoted market price used for financial assets held by the Group is the measurement date exchange closing price.

The valuation of Level 3 instruments are performed by the Company's employees, analysts, every quarter. The value are estimated as at the last day of quarter. The management of the Company review the valuations prepared by analysts.

Investment into shares of UAB Litagra (agriculture segment) was measured using EBITDA multiplier method for the pieces of grains processing and agricultural productions and using Price to book value (P/BV) multiplier method for trading piece. It was used EBITDA for last three trailing 12 months periods ended at the end of reporting period with bigger weight for last 12 months period figures.

Investment in facility management entities was measured using trailing twelve months EBITDA and applying a multiplier of comparable entity AB City Service, operating in Lithuania and listed on the NASDAQ Vilnius. It was decided not to use other foreign companies' multipliers, which were higher than the one used in the calculations due to the fact that facility management is local business dependent on varying Lithuanian legal and business environment. Other facility management entities operating in Lithuania are not public companies.

The entities of banking activities segment were measured according to the last transaction price as at 31 December 2014, as these entities were acquired in December 2014. At 30 June 2015 the entities were measured according to the price of completed in July 2015 sales transaction.

UAB Kelio Ženkli was measured according to fair value of its assets and liabilities. The main assets - buildings - of UAB Kelio Ženkli was valued using sales comparison method. On the assessment the value of UAB Kelio Ženkli reflects its liquidation value.

Dormant entities are measured according to its equity, because they have only cash and current liabilities.

IV. INFORMATION ABOUT THE ISSUER'S AND ITS GROUP COMPANIES' ACTIVITY

12. Overview of the Issuer and its group activity

The growth of Lithuanian economy according to Statistics Lithuania in the second quarter of 2015 has slowed down to 1.3 percent year-on-year. Quarter-on-quarter growth was 0.6 percent. Positive result indicates that despite geopolitical tension and export sanctions Lithuania was able to avoid recession. However taking into account the economic growth slowdown the Bank of Lithuania revised its GDP forecasts for 2015 to 2.0 percent from the previous 2.7 percent, as stated in the economic overview published by the Bank of Lithuania *Lithuanian economy overview: June 2015*.

According to the comment by SEB published on July 2015, Lithuanian economy growth in the second quarter of 2015 was still relatively low due to unsolved issues such as trade sanctions and plummeting purchasing power of Russia. Export during the first five months of 2015 compared to the same period last year decreased by 4 percent, while import grew by 1.3 percent.

On the other hand economic growth was saved by internal consumption. The main driving forces of it are moderately improving unemployment rate, which has decreased by 0,6 percentage point compared to the first quarter of 2015 (10 percent) and reached 9.4 percent in the end of the second quarter and drop in consumer price index (CPI) which compared to the respective period last year was down by 0.7 percent. The biggest negative impact on prices due to high assigned weights in the CPI had plummeting prices of natural resources. On the other hand, prices of some products and especially services have increased after the adoption of euro, as stated in the SEB overview", however these carry low weights in the CPI and therefore in the overall index we see a decline in consumer prices.

According to the forecasts prepared by the Bank of Lithuania, Lithuanian economy development should be impacted by contrary factors. As stated in the forecasts in 2015 economy should grow by 2.0 percent and in 2016 by 3.4 percent. The main positive driving factors possibly will be sustainable recovery of Eurozone countries, growth of sectors oriented in internal consumption, decreasing unemployment, growing average wage and due to before mentioned reasons stable prices. However, there will possibly be plenty of negative factors too. Some of these are geopolitical tension with Russia might persist which means continued sanctions on export and weakening purchasing power in Russia and the second one is world economy growth forecasts being revised to the lower growth rates.

Despite the slowing down in economic growth rate, the Lithuanian stock market showed solid results:
