GENERAL INFORMATION

"Latvijas Juras Medicinas Centrs" is a joint-stock company (the Company) incorporated in the Republic of Latvia on 27 August 1996. The consolidated financial statements incorporate the financial statements of the Company and its subsidiary - "Juras medicina" Ltd. (the Group).

The Group's main activity is health care services.

1. ACCOUNTING PRINCIPLES

Basis of consolidation

The consolidated financial statements have been prepared in accordance with the International financial reporting standards adopted by the European Union. Enclosed financial statements are prepared in the national currency of Latvia, the lats (LVL).

There is no difference in the dates of the Statements of financial position of the Company and its subsidiary.

The interest of minority shareholders is stated at the minority proportion of the net assets.

All significant intercompany transactions and balances among Group companies are eliminated on consolidation.

The net assets' portion attributed to the parent company are offset with the investment and have been eliminated. The retained earnings portion attributed to the parent company are earned after the acquisition date of shares are included in the consolidated retained earnings.

Foreign currency

Transactions denominated in foreign currencies are converted into Lats by the official exchange rate of the Bank of Latvia at the date of transaction. Monetary assets and liabilities are converted by the excannge rate of the Bank of Latvia as on the date of statements of financial position.

The applicable rate used for the principal currencies were the follows:

	December 31, 2011	December 31, 2010
EUR	0.702804	0.702804
USD	0.535	0.544

Gain or loss on conversion is posted to the statement of comprehensive income on the official exchange rate of the Bank of Latvia as of the statement of financial postion date and recognized in the period when they incurred.

Exchange differences rising on the settlement of monetary items are recognized in the period in which they arise.

Cash and cash equivalents

Cash includes cash on hand and demand deposits with credit institutions. The statement on cash flow is prepared using indirect method, making adjustments affecting the net profit reconciling with the changes in cash during the year.

Trade receivables

Trade receivables are stated at their net realizable value. Trade receivables represent the gross balance due from customers less provision, if any, for doubtful accounts receivable. Provision for doubtful accounts receivable at the balance sheet date represents the estimated amounts of probable losses that might have been incurred at the statement of financial position date based on individual evaluation of each debtor.

Inventory

Inventories are stated at the lower of cost or market, using FIFO method.

Fixed assets

Fixed assets excluding real estate are stated at historical cost, less accumulated depreciation. The cost of the item comprises its purchase price, including import duties and any directly attributable costs of bringing the asset to working condition for intended use. The cost of self-constructed asset is determined using the same principles as for an acquired asset. Only assets with its useful life more than one year are capitalized. Depreciation is calculated based on the historical cost.

Separate accounts are used for assets acquired by EU funding.

Repair and maintenance costs are expensed when incurred. Capital expenditures such as refurbishment of buildings and improvements to structural elements are recognized as an asset if the expenditures improve the condition of the asset beyond its original estimated life.

Land and buildings (real estate) are accounted according to the revaluation model, recognized at the fair value determined from market-based evidence. Buildings are revaluated as on 31.12.2011 based on the cadastral value as fair value. Accumulated depreciation at the date of the revaluation is eliminated against the gross carrying amount of the asset and the net amount restated to the revalued amount of the asset. Depreciation is calculated based on the revalued amount. The depreciation charge for each period is recognised in the statement of income.

The increase (decrease) in the value of buildings and constructions is reflected in the Statement of comprehensive income under "Gains (losses) from revaluation of properties". Revaluation decreases are charged first against the revaluation surplus in equity related to the specific asset, and any excess against profit or loss.

Depreciation is provided on all fixed assets based on historical cost. Depreciation on fixed assets are computed using the straight-line method over the estimated average useful lives:

Buildings: 20 years
Revaluated part of the buildings 15 years
Machinery and equipment: 3 years
Other fixed assets: 5 years

For tax purposes, depreciation on tangible fixed assets is calculated under the double declining balance method over the period established in accordance with prevailing tax legislation.

Investments in associates

Investments in associates are initially recognized at the cost and then accounted under the equity method.

Revenue recognition

Sales of goods are recognized when goods are delivered and title has passed.

Dividends

Dividends are recognized as liabilities in the Group financial statements after the Group shareholders made a decision to pay.

Property revaluation surplus

The revaluation surplus is included in other comprehensive income and accrued amount is reflected in equity under the heading "Investment revaluation reserve". According to IASs 16, p.41, the revaluation surplus included in equity is transferred directly to retained earnings. The surplus transferred is the difference between depreciation based on the revalued carrying amount of the asset and depreciation based on the asset's original cost. Transfers from revaluation surplus to retained earnings are not made through profit or loss.

Taxation

Deferred taxes are provided on the liability method whereby deferred tax assets are recognized for deductible temporary differences and deferred tax liabilities are recognized for taxable temporary differences. Temporary differences are the differences between the reported amounts of assets and liabilities and their tax basis. Deferred tax assets are reduced by a valuation allowance when, in opinion of management, it is more likely than not that some proportion or all deferred tax assets will not be realized.

Deferred tax on revaluation surplus is reflected in the Statement of other comprehensive income.

Risk Management

The Management Board is responsible for setting up risk management guidelines and risk monitoring.

The Group has identified the major risk factors and developed policies and mechanisms to control these factors. The major risks are defined as:

Market risk: a country's economic deterioration, changes in the public and the insurer health care and its financing policy, competition, changes in utility tariffs, etc. can significantly affect the demand for Groups services and its profitability.

Operational risk: The possibility of suffering losses caused by inadequate or failed internal pace of the medical treatment process, actions of staff or systems, or external events impact. Patient dissatisfaction with the quality of medical services, treatment process organization or staff attitudes in the long term can lead to a fall in income and even financial claims.

Credit Risk: The inability of insurance companies and patients to pay for the services in time and in full amount.

Liquidity risk: unable to meet the legally enforceable requirements without major damage and inability to cope with unplanned changes in Groups resources and / or market conditions related to the fact that it does not have sufficient liquid assets.

Risk control mechanisms include: appropriate risk policies, investment planning, cash flow planning, budgeting and control, liquidity control, the medical treatment process organization and control, sanitary compliance control, staff skill development, implementation of advanced technologies, employee involvement in risk assessment and control.

INDEPENDENT AUDITORS' REPORT

To the Shareholders of JSC Latvijas Juras Medicinas Centrs

Report on the Consolidated Financial Statements

We have audited the accompanying consolidated financial statements of JSC Latvijas Juras Medicinas Centrs set out on pages 8 to 22 of the accompanying annual report, which comprise the consolidated statement of financial position as of 31 December 2011 and the consolidated statement of profit or loss and other comprehensive income, changes in equity and cash flows for the year then ended and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with International Financial Reporting Standards as adopted by the European Union, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with International Standards on Auditing. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements give a true and fair view of the financial position of JSC Latvijas Juras Medicinas Centrs as of 31 December 2011, and of its financial performance and its cash flows for the year then ended in accordance with the requirements of the International Financial Reporting Standards adopted by the European Union.

Report on Other Legal and Regulatory Requirements

We have read the management report for 2011 set out on pages 5 to 6 of the accompanying consolidated annual report and did not identify material inconsistencies between the financial information contained in the management report and that contained in the consolidated financial statements for 2011.
