The loss before taxes of JM was 13130 EUR

Important events that affected results of the Group's activities in reporting period

Key developments in LJMC during the year 2013 is offering new medical service, improving the quality of existing services with the help of modern medical technology, new specialists and better patient service culture and increase of operational efficiency based on rational use of resources.

A contract was signed with the National Health Service on state-paid medical services at the level planned at the beginning of 2012.

On March 2013 Joint-stock company Latvijas Jūras medicīnas centrs „Ziemeļu diagnostikas centrs” received a quality certificate ISO 9001:2008 in functional diagnostics and radiology from DVN Certification OY/AB, Finland. This certificate is valid till March 14, 2016. The work on the initiation of ISO quality standards in the other structural units continues.

LJMC JSC has won the tender for PSKUS patient medical care for one year.

A project is developed for more rational use of premises at Vecmīlgrāvis area to reduce utility costs.

Significant rise of utilities and electricity tariffs, as well as the prices of medicines, medical materials and tools in comparison with previous year, has a negative effect on Company's financial performance 2013th. The short-term negative impact on spending leaves the depreciation of large investments in the information technologies at 2012th.

Negative impact on the 2013th the planned and actual financial results left the extra public funding at the end of 2012th. That gave a significant increase in salaries in the last months of the year 2012, which increased the 2013th annual allowance, mainly to the increased holiday costs, in amount about 40000 LVL including taxes.

The results also affected the exceeding the 6 months state financing quota by 240000 LVL. This gave the possibilities to take holidays and activity during the summer months when for the medical services is minimal demand. All material costs and part of the salaries spend for the services in amount of 240000 LVL have been referred to the 6 months but income will be when the state gradually pays for these services in the next months. It will result in a reduction of losses approximately by 150000 LVL.

Overall, the 2013th 6 months of the revenue plan is drawn up by 98% (or -34000 LVL). On the expenditure side is overflowing (excess 64721 LVL (3%) inclosing salary 15000 LVL (1.3%), medical equipment and current assets 23000 LVL (1.2%). Parent company loss before taxes: planned - 210 thousand LVL, actual loss 308 thousand LVL.
