MANAGEMENT REPORT

Type of operations

According to the Statistical Classification of Economic Activities, the main activity of Marijas 2 SIA (hereinafter referred to as the Company) is renting and managing own or leased property (NACE code 68.20).

Information on Company's share capital

The Company's registered and fully paid share capital is EUR 14,502,800, it consists of 145,028 ordinary shares with EUR 100 nominal value per share.

Performance of the Company during the year

The Company purchased real estate located at Marijas street 2A and presumed parts of real estate located at Marijas street 2. Since establishment, all activities have been focused on development of a modern 7-floor A-class office building. The real estate was purchased with an approved project and building permits issued in accordance with the building project. The total leasable area of the building is 23 700 m² is developed, of which 3,300 m² will be ground floor retail area and 20,400 m² – A-class offices. There are planned two underground floors with 240 parking spaces in the building. The construction works have started in 2020, underground works were completed in February 2022. The aboveground construction agreement was signed in December 2021. Construction works will be completed in Q2 2023 with building commissioning scheduled in Q3 2023.

Despite the COVID-19 pandemic and high commercial premises supply over the past couple of years, the demand for office in Riga centre remains high. Latvian real estate market has once again set a new high in the value of transactions at 665 million EUR, nearly doubling the transaction volume of 2021 investment. Preliminary analysis suggests that 2021 office take-up exceeds 52,000 m², a nearly 50% increase over the 2020 numbers. Lack of completed high-class developments has not only compressed the prime office yield by 10 percentage points, but also increased the pre-lease proportion. Around 40% of the signed leases in 2021 were pre-leases. Rents for new projects are higher than for existing ones but that does not deter the tenants. New technologies and solutions not only provide more comfort but also decrease the additional costs minimizing the difference between A-class and lower-class buildings for the tenant, especially with rising energy costs. Based on these trends, it is forecasted that the demand for A-class offices will remain high for both the tenants and the investors. Average range of rent rates for A-class offices in Riga is 14 - 17 EUR/m² and prime yield for offices is 5.5%, with a tendency for decreasing.

In 2021 the Company did not have any employees and no remuneration was paid to the Management Board.

Risk management

The Company's most significant financial instruments are borrowings from banks, other borrowings, cash and bank deposits. The main task of these financial instruments is to provide financing for the Company's business operations. The Company also has a number of other financial assets and liabilities, such as trade receivables and payables to suppliers and contractors, arising directly from its operations.

Market risk is the risk that changes of current market factors will significantly influence the Company's business and ability to attract funding. Company sees that the main factor is the rent rate of offices that influences both the value of the assets and covenants to secure the bank financing. To mitigate the risk the Company is in constant contact with real estate agents who help assess the market situation and provide consultations about planned pre-lease contracts.

Management report (continued)

Risk management (continued)

Interest risk is the risk of increasing financial costs due to changes in interest rates for the Company due to rising EURIBOR value. The company has mitigated this risk by issuing long-term bonds with fixed EURIBOR interest rate to finance the development. The company will continue to manage the interest risk by keeping a close eye on the interest rates on the market and look for more favorable financing options.

The Company adheres to prudent liquidity and cash flow risk management, ensuring that adequate credit resources are available to settle liabilities in a timely manner. The Company's management manages liquidity and cash flow risk by maintaining adequate cash reserves and providing sufficient funding through loans, credit lines, financial leases, etc., as well as by constantly monitoring expected and actual cash flows and harmonizing the maturity structure of financial assets and liabilities.

The company is not subject to a currency risk since business is conducted in euros. Describe other risks.

Future prospects

In 2022, the Company management will focus on completing the construction project and adapting the premises to the needs of the tenants, as well as finding tenants for the vacant premises.

Post balance sheet events

The company has issued bonds (ISIN LV0000802551) to finance its business operations until the completion of the construction works and commissioning the building. The company expects to attract 45 million euro over 18 months. The first tranche has been completed in March 2022 with total raised amount of 4,5 million euro. The company plans to continue with quarterly issues of bonds.

Except for above, from the end of the reporting year until today no other significant subsequent events have occurred that would materially impact the presentation of financial statements or which should be described in these financial statements.

Current year loss

Current year loss EUR 54,467 will be offset with future years' profits.

SIA Cipari Baltic

NOTES TO THE FINANCIAL STATEMENTS

1 Accounting policies

General principles

Legal address of Marijas 2 is Krisjana Valdemara street 33 - 18, Riga, LV-1010. The Company is registered in the Commercial register of the Republic of Latvia under number 50203281461. The Company's shareholders are Evernord Real Estate Fund III Closed-end fund intended for informed investors (Lithuania), which owns 65.38% of the Company's share capital and Novira SIA, which owns 34.62% of the Company's share capital. Company's members of the Board are Nikolay Kryzhanovskiy and Jolanta Jurga. The Company's auditor is PricewaterhouseCoopers SIA, and responsible auditor is Ilandra Lejiņa.

General principles

Annual accounts are prepared in accordance with the laws of the Republic of Latvia "On Accounting" and "Annual financial statements and consolidated statements" and Regulations of the Cabinet of Ministers Nr. 775 "Rules for Application of the law on annual financial statements and consolidated financial statements." The profit and loss account is prepared in accordance with the turnover module. According to the law on "Annual financial statements and consolidated financial statements" Article 5, Section 2 the company is classified as micro company. Compared to the previous reporting year, the accounting and valuation methods used by the company have not changed.

Going concern

Growing inflation in Latvia and particularly in the construction sector may negatively affect volume of funds the Company intends to raise in order to finance the ongoing development. During the financial year the Company was preparing documentation for Nasdaq registered Bond issue in order to secure financing of its business in amount of 40 - 45 million euro, which is planned to be finished in the first half of 2022.

For that purposes an analysis of the several finance raising options was carried out. Two big investment companies in the Baltics were contracted, which will be responsible for the preparation of the bond issue documentation and underlying fund raising process. Financing of development projects through a bond issue has increasingly become popular not only in Latvia, but in the Baltics as well.

The Company plans to attract up to 45 million euros in up to 10 tranches to complete the development of the real estate. The financing plan envisages quarterly bond issues over the next 18 months. The first issue, which took place in Q1 2022, has provided enough liquidity for operations for the first quarter 2022.

To further mitigate the financing risks, the Company plans to list its bond issue. This will allow the Company to reach more potential investors and obtain financing at shorter time notices.

Additionally, the Company co-operates with major Latvian banks to negotiate alternative financing sources. The Company considers bank financing as a viable source of funds in late 2022 or beginning of 2023.

The Company's management believes that the going concern assumption is appropriate for the preparation of these financial statements.

Currency

The figures presented in these financial statements are expressed in the official currency of Latvia - the euro (EUR). Cash and cash equivalents consist of cash current bank account balances.

Notes to the financial statements (continued)
Accounting policies (continued)

Intangible and tangible fixed assets

All intangibles and fixed assets are recorded at cost net of depreciation. Depreciation or amortization is calculated on a straight-line basis to write down each asset to its estimated residual value over its estimated useful life as follows:

	% per annum
Intangible assets	20%
Buildings	5%
Technological equipment	20%
Other assets	20%

Land is not subject to depreciation.

Interest costs on borrowing to finance the fixed assets under construction and other direct charges related to the particular fixed asset under construction are capitalized. This is during the period of time that is required to complete and prepare the asset for its intended use, as part of the cost of the asset. Capitalization of the borrowing costs is suspended during extended periods in which active developments are interrupted. Leasehold improvements are written down on a straight-line basis over the shorter of the estimated useful life of the leasehold improvement and the term of the lease. Current repairs and maintenance costs are charged to the profit and loss account in the period when the respective costs are incurred.

Where the carrying amount of an intangible asset or property, plant and equipment exceeds its recoverable amount, the intangible asset or property, plant and equipment is written down immediately to its recoverable amount. Recoverable amount is the higher of an intangible asset's or property, plant and equipment's fair value less costs to sell and value in use.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. Such costs are depreciated over the remaining useful life of the asset. When capitalizing the cost of an installed spare part, the residual value of the replaced part is written off in the income statement.

The costs of repairs and maintenance of property, plant and equipment are charged to the income statement in the period in which they are incurred.

Accounts receivable

Receivables are carried in the balance sheet at amortized cost less any allowance for impairment. Impairment losses are recognized when there is objective evidence that the Company will not be able to collect all amounts due according to the original terms of receivables. The amount of the provision is the difference between the carrying amount of the receivable and its recoverable amount. The amount of the provision is included in the income statement.

Taxation

Corporate income tax for the reporting period is included in the financial statements based on management's calculations which are prepared in accordance with Latvian Republic tax legislation.

Corporate income tax is calculated on distributed profits (20/80 of the net distributed amount). The corporate income tax on distributed profits is recognized when the Company's shareholders decide on profit distribution.

Notes to the financial statements (continued)
Accounting policies (continued)

The Company also calculates and pays corporate income tax on conditionally distributed profits (20/80 of the calculated taxable base), including statutory taxable items such as non-operating expenses, accrued doubtful debts and loans to related parties, if they meet the certain criteria, as well as other costs that exceed the statutory deductible thresholds. Corporate income tax is recognized in the income statement in the year in which it arises. Corporate income tax on distributed profit and corporate income tax on conditionally distributed profit are presented in the income statement line "Corporate income tax for the reporting year", and tax calculation details are provided in the notes to the financial statements.

Loans received

Borrowings are recognized initially at the proceeds received net of transaction costs incurred. In subsequent periods, borrowings are stated at the amortized cost using the effective yield method. Any difference between proceeds net of any transaction costs and the redemption value is gradually recognized in the profit and loss account or capitalized to fixed assets under construction, according to the fixed assets accounting policy over the period of borrowings or capitalize as part of construction in progress, in accordance with the accounting policy for property, plant and equipment.

Related parties

Related parties are defined as shareholders of the Company, members of the board, their close relatives, and companies in which they have a significant influence or control.

Use of estimates

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, income and expense, and disclosure of contingencies. Future events occur which cause the assumptions used in arriving at the estimates to change. The effect of any changes in estimates will be recorded in the financial statements, when determinable.

Subsequent events

Post-period-end events that provide additional information about the Company's position at the balance sheet date (adjusting events) are reflected in the financial statements. Post-period-end events, that are not adjusting events, are disclosed in the notes when material.

31.12.2021.	14 500 000	7 577 772	22 077 772

Fixed assets include land and an unfinished construction site, both located in Riga, at Marijas Street 2 / 2A, where a modern seven-story Class-A office complex is being developed. In 2020 the land and construction costs were valued by an independent licensed valuator SIA "OberHaus Vērtēšanas serviss". The valuation determined the market value of the real estate by combining valuation methods of projected future income and market prices of comparable projects.

The total planned investment in the object, excluding the value of the land, is EUR 51.7 million. During the reporting period, investments were made in the amount of 7.6 million EUR, or 14.7% of the total planned investments. The share of the financial investment made corresponds to the actual stage of completion of the project. In 2022 it is planned to invest an additional 29.7 million EUR in construction works, but in 2023 - the remaining 14.4 million EUR.

During the reporting year interest in amount of EUR 270,061 (2020: EUR 0) was added to the project cost.

Due to the EUR 4,500,000 bond issue, registered on Nasdaq in March 2022, a mortgage of EUR 58,000,000 was registered in favor of the collateral agent for both land plots. The mortgage secures the payment of the bond coupon and principal, considering an increase in the amount of bonds issued in the future.

11 Capital commitments

In accordance with the construction agreement signed by the Company and the contractor, the Company is committed to pay for the construction works EUR 38 million, plus the value added tax applicable in the Republic of Latvia. The payments should be made in accordance with the contract terms. The completion of the construction under this contract is planned for May 2023.

12 Post balance sheet events

With the exception of the bond issue, described in the paragraph "Going Concern" of the Note 1, no other significant events have occurred between the end of the reporting year and the signing of these financial statements that could significantly affect the assessment of the financial statements or that should be explained in these financial statements.

Financial statements are signed electronically.

Independent Auditor's Report

To the Shareholders of SIA "Marijas 2"

Our opinion

In our opinion, the accompanying financial statements set out on pages 6 to 15 of the accompanying annual report give a true and fair view of the financial position of SIA "Marijas 2" (the "Company") as at 31 December 2021, and the Company's financial performance for the year ended 31 December 2021 in accordance with the Law on Annual Reports and Consolidated Annual Reports of the Republic of Latvia.

What we have audited

The Company's financial statements comprise:

- the profit or loss account for the year ended 31 December 2021,
 - the balance sheet as at 31 December 2021, and
 - the notes to the financial statements which include a summary of significant accounting policies and other explanatory information.
-

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing adopted in the Republic of Latvia (ISAs). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We are independent of the Company in accordance with the International Code of Ethics for Professional Accountants (including International Independence Standards) issued by the International Ethics Standards Board for Accountants (IESBA Code) and the ethical requirements of the Law on Audit Services that are relevant to our audit of the financial statements in the Republic of Latvia. We have fulfilled our other ethical responsibilities in accordance with the IESBA Code and the ethical requirements of the Law on Audit Services.

Reporting on Other Information

Management is responsible for the other information. The other information comprises:

- Information on the Company as set out on page 3 of the accompanying annual report,
- the Management Report as set out on pages 4 to 5 of the accompanying annual report,

but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with

PricewaterhouseCoopers SIA

Translation note: This version of our report is a translation from the original, which was prepared in Latvian. All possible care has been taken to ensure that the translation is an accurate representation of the original. However, in all matters of interpretation of information, views or opinions, the original language version of our report takes precedence over this translation.

the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

With respect to the Management Report, we also performed the procedures required by the Law on Audit Services. Those procedures include considering whether the Management Report is prepared in accordance with the requirements of the Law on Annual Reports and Consolidated Annual Reports.

Based on the work undertaken in the course of our audit, in our opinion, in all material respects:

- the information given in the Management Report and information on the Company for the financial year for which the financial statements are prepared is consistent with the financial statements; and
- the Management Report has been prepared in accordance with requirements of the Law on Annual Reports and Consolidated Annual Reports.

In addition, in light of the knowledge and understanding of the entity and its environment obtained in the course of our audit, we are required to report if we have identified material misstatements in the other information. We have nothing to report in this respect.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation of the financial statements that give a true and fair view in accordance with the Law on Annual Reports and Consolidated Annual Reports of the Republic of Latvia and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

Translation note: This version of our report is a translation from the original, which was prepared in Latvian. All possible care has been taken to ensure that the translation is an accurate representation of the original. However, in all matters of interpretation of information, views or opinions, the original language version of our report takes precedence over this translation.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

PricewaterhouseCoopers SIA
Certified audit company
Licence No. 5

Eva Jansen-Diener
Persona per procura

Ilandra Lejiņa
Certified auditor in charge
