MANAGEMENT REPORT

Type of operations

The principal activity of AS Moda Kapitāls (further - Company) is non-bank issuance of loans services, including issuance of short-term loans against a pledge of a movable property, a pledge of vehicles, real estate and issuance of consumer loans.

Performance during the financial year and financial situation of the Company

In 2016 there was no change for AS "Moda Kapitāls" branch structure and there is no plan to change it in 2017 either.

Given the current market situation in non-bank loan sector, the company's priority is not the opening of new branches, but the improvement of branch operations and increasing of profitability. The Company considers changing the location for several branch premises to be able to improve the quality of services offered, expand the assortment and improve customer service conditions by expanding the customer service area.

There is continuous improvement of the qualification of employees and improvements in the Company's customer service system. In order to improve the quality of the services provided, Company is doing continuous staff rotation and recruitment of new employees. Improvement and modernization of branch premises continues. The Company actively expands its range of goods for sale by offering to its customers different types of used household appliances and electrical items. In order to have a variety of goods, the Company makes regular purchases of goods from their cooperation partners.

In 2016 as well as in previous years there was no significant overall customer growth activity and demand for AS "Moda Kapitāls" provided loan services rendered. By analyzing the statistical data of 2016 it is been observed that several types of loans have been increased, others decreased. In 2016 the turnover growth was observed in loans against a pledge of movable property and in consumer loans. Not in all Company's branches loan increase or decrease is observed under identical loan forms. Depending on the branch there is a different type of increase or decrease in the loan type segments which is observed in each branch.

The Company issues loans only in their branches. Company estimates that substantial proportion of the company's loan portfolio will be consumer loans without collateral.

In 2016 customer interest in purchase of slightly used household appliances objects and used gold products continued to increase. Accordingly there is an increase in the customer base that regularly uses the company's services - both customer loans and sale of existing merchandise.

As in previous years, major attention is being paid to the payment discipline and individual work with clients, solving delayed payment problem through co-operation.

Future prospects and future development

We expect that 2017 sales will be about the same level as in 2016. According to the company's plan, in 2017 we plan to significantly improve the results of trade and increase the trade of goods offer. Given that the development of this segment is associated with additional expenses, it will have a negative impact on the company's 2017 results, but will give a positive effect The Company plans to resume gain profit from operating activities in the secon part of 2018.

Significant events since the year end

During the time period from the last day of the financial year till singing of this report, no significant events have occurred that would have significantly affected the financial position of the Company at 31 December 2016.

Company's branches

On December 31, 2016 The Company provides its services in twenty-seven branches that are located in twenty-six mojor Latvian cities: Aizkraukle, Alūksne, Balvi, Bauska, Cesis, Dobele, Daugavpils, Gulbene, Jekabpils (two branches), Jelgava, Kraslava, Kuldiga, Liepaja, Limbazi, Madona, Ogre, Rezekne, Riga, Saldus, Talsi, Valmiera, Ventspils, Tukums, Preili, Ludza and Valka.

NOTES TO THE FINANCIAL STATEMENTS

(1) GENERAL INFORMATION

AS Moda Kapitals (further - Company) main activity is the issuing of short-term loans against pledge of movable and immovable property. AS Moda Kapitals is a joint stock company founded and operating in Latvia. Registered address of the Company is at Ganibu dambis 40A-34, Riga, LV-1005.

The auditor of the Company is SIA "DONOWAY ASSURANCE".

Reporting period

The reporting period is from

01.01.2016

to

31.12.2016

(2) ACCOUNTING POLICIES

Basis of preparation

The financial statements of the Company have been prepared in accordance with International Financial Reporting Standards as adopted for use in the European Union (IFRS).

The financial statements have been prepared using the measurement bases specified by IFRS for each type of asset, liability, income and expense. The measurement bases are more fully described in the following notes.

Preparation of the financial statements in compliance with the IFRS requires critical assumptions. Moreover, preparation of the statements requires from the Management to make estimates and judgments applying the accounting policies adopted by the Company. Critical estimates and judgments are as follows.

a) Standards, amendments and interpretations effective in the current year and have no impact on the Company's financial statements

Amendments to IAS No 16 "Fixed Assets" and IAS No 38 "Intangible assets" - explanation of methods of permissible depreciation and amortization. IAS No 41 "Agriculture" and IFRS 16 "Fixed assets" of fruit-bearing plants.

Amendments to IAS No 1 "Presentation of Financial Statements" for the initiative of disclosed information.

Amendments to IFRS No 10 "Consolidated Financial Statements", IFRS No 12 "Disclosure of interests in other enterprises" and IAS No 28 "Associates and joint ventures" - application of the consolidation exception of the investment company.

Amendments to IFRS No 11 "Joint agreements": Participation in joint activities of purchase accounting. IAS No 27 "Separate Financial Statements" - the equity method in the separate financial statements.

b) Standards that have been issued but not yet effective

Standards that have been issued but not yet effective or are not approved by the EU and which have not been applied before the effective date.

The Company has not applied the following IFRS and IFRIC Interpretations that have been issued for the approval day of financial statements, but not yet effective:

IFRS No 15 "Revenue from contracts that have been entered into with customers" (effective once adopted by the EU for annual periods beginning on 1 January 2017 or later).

IFRS No 9 "Financial Instruments" (effective once adopted by the EU for annual periods beginning on 1 January 2018 or later).

The Company is in the process of assessing the impact of the guidance on the financial position or performance of the Company. The Company plan to adopt the above mentioned standards and interpretations on their effectiveness date.

Foreign currencies

The company's functional currency and presentation currency is the Latvian national currency Euro (EUR).

Foreign currency transactions are translated into euro at the European Central Bank's official exchange rate on the transaction date. Monetary assets and liabilities denominated in foreign currencies are translated into euros at the European Central Bank's official exchange rate at the period end. Exchange rate differences arising from foreign currency transactions or financial assets and liabilities using the exchange rates that differ from the initial transaction accounting rates are recognized in profit or loss in net worth.

Segment disclosure

An operation segment is a component of entity which qualifies for the following criteria: (i) engages in business activities from which it may earn revenues and incur expenses; (ii) whose operation results are regularly reviewed by the Company's chief operating decision maker to make decisions about resources to be allocated to the segment and assess its performance and (iii) for which discrete financial information is

Revenue recognition

Income is recognised to such extent, for which substantial measurement is feasible and there is a reason to consider that the Company will gain economic advantage related thereof. Income is evaluated in the fair value of remuneration received, less sale discounts and the value added tax. The Company assesses its income gaining operations according to certain criteria, in order to establish whether it acts as the parent company or a representation. The Company considers that in all income gaining operations it acts as the parent company. Before income recognition the following preconditions shall be fulfilled:

Sales of goods

Sales income shall be recognised if the Company has transferred to the customer significant risks related to the goods ownership and remunerations, usually at the moment of delivery of goods.

Mediation income

The Company gains income from mediation services for pledged goods. Mediation services refer to the Company basic type of operations, so these income is included in the income statement as net turnover. Income from such services are gained when the Company sells to a client the respective pledged goods.

Interest income and expense

For all financial instruments booked in their amortised acquisition value and financial assets, for which interest is calculated and which are classified as available for sale, the interest income and expenses are registered using the effective interest rate, namely, the rate which actually discounts the estimated monetary income through the whole useful life period of the financial instrument or - depending on the circumstances may be - a shorter time period until the balance sheet value of the respective financial asset or liability is reached.

Other income

Income from penalties charged from clients is recognised at the moment of receipt. Penalties mainly consist of fines imposed on clients for the delay in payment.

Intangible assets and fixed assets

Intangible assets, in general, consist of licenses and patents. Intangible assets are recognised at the cost of acquisition less accumulated amortisation. Amortisation is calculated from the moment the assets are available to use. Amortisation of intangible assets is calculated using the straight-line method to allocate amounts to their residual values over their estimated useful lives, as follows:

Intangible assets:	<u>Years</u>
Licenses and patents	3-5

Buildings are recognised at their fair value on the basis of assessment made by independent valuator from time to time less accumulated depreciation. Accumulated depreciation is liquidated as of revaluation date, net sum is charged to the revaluated cost. Land is recognised at their fair value on the basis of assessment made by independent valuator from time to time. Other assets are recognised at their acquisition value less accumulated depreciation. Acquisition value includes the costs directly related to acquisition of the asset.

Subsequent costs are recognised in the asset's carrying amount or as a separate asset only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. Other repairs and maintenance are recognised as an expense during the financial period when they are incurred.

Increase in value arising on revaluation is recognised in equity under "Revaluation reserve of non - current assets", but decrease that offsets a previous increase of the same asset's value (net of deferred tax) recognised in the said reserve is charged against that reserve; any further decrease is recognised in other comprehensive income for the year incurred.

Land is not depreciated. Depreciation on other assets is calculated using the straight-line method to allocate their cost or revaluated amounts to their residual values over their estimated useful live, as follows:

Fixed assets:	<u>Years</u>
Buildings	20-30
Computer equipment	3-5
Other machinery and equipment	4-10

The asset's residual values and useful lives are reviewed, and adjusted if appropriate, at each end of the financial year.

Impairment of non-financial assets

For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are largely independent cash inflows (cash-generating units). As a result, some assets are tested individually for impairment and some are tested at cash-generating unit level. Goodwill, if any, is allocated to such cash-generating units or groups of cash-generating units that are expected to benefit from the business combination in which the goodwill arose.

Cash-generating units to which goodwill has been allocated are tested for impairment at least annually. All other individual assets or cash-generating units are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable.

An impairment loss is recognised for the amount by which the asset's or cash-generating unit's carrying amount exceeds its recoverable amount, which is the higher of fair value less costs to sell and value-in-use. To determine the value-in-use, management estimates expected future cash flows from each cash-generating unit and determines a suitable interest rate in order to calculate the present value of those cash flows. The data used for impairment testing procedures are directly linked to the Company's latest budget.

An impairment charge is reversed if the cash-generating unit's recoverable amount exceeds its carrying amount. A reversal of an impairment loss for a cash-generating unit is allocated to the assets of the unit, except for goodwill, pro rata with the carrying amounts of those assets. In allocating a reversal of an impairment loss for a cash-generating unit, the carrying amount of an asset is not increased above the lower of: (a) its recoverable amount (if determinable) and (b) the carrying amount that would have been determined (net of amortisation or depreciation) had no impairment loss been recognised for the asset in prior periods.

Lease-to-buy (financial lease)

In cases when leased assets are received with lease-to-buy (financial lease) conditions, under which all risks and rewards of ownership are transferred to the Company, are recognized as Company's assets. Assets under the finance lease are recognized at the inception of lease at the lower of fair value of the leased assets or the present value of the minimum lease payments. Lease interest payments are included in the statement of comprehensive income by method to produce a constant periodic rate of interest on the remaining balance of the liability.

Inventories

The inventories are stated at the lower of cost and net realizable value. Cost is determined using the weighted average method. Net realizable value is the estimated selling price in the ordinary course of business, less the costs of completion and selling expenses. When the net realizable value of inventories is lower than their cost, provisions are created to reduce the value of inventories to their net realizable value.

Financial instruments

Financial assets and financial liabilities are recognised when the Company becomes a party to the contractual obligations of the financial instrur Financial assets are derecognised when the contractual rights to the cash flows from the financial asset expire, or when the financial asset and all substantial risks and rewards are transferred. A financial liability is derecognised when it is extinguished, discharged, cancelled or Financial assets and financial liabilities are measured initially at fair value plus transaction costs, except for financial assets and financial liabilities carried at fair value through profit and loss, which are measured at fair value.

The Company categorises its financial assets, except derivative financial instruments if any, under loans and receivables. The categorisation depends on the purpose for which the financial assets were acquired. Management determines the categorisation of its financial assets at initial recognition.

The Company's financial liabilities include borrowings, trade and other payables and obligations arising from derivative financial instruments (if formed).

Loans and other receivables

Loans and receivables are non-derivative financial assets with fixed (including transaction costs) or determinable payments that are not quoted in an active market. They are included in current assets, except financial assets with maturities greater than 12 months after the balance sheet date. These are classified as non-current assets.

Upon recognition loans and receivables are subsequently measured at amortised cost using the effective interest method, less provision for impairment. A provision for impairment of loans and receivables is established when there is objective evidence that the Company will not be able to collect all amounts due according to the original terms of loans and receivables. Significant financial difficulties of the debtor, probability that the debtor will enter bankruptcy or financial reorganisation, and default or delinquency in payments are considered indicators that the loans and receivables are impaired. The amount of the provision is the difference between the asset's carrying amount and recoverable value. The changes of the provision are recognised in the statement of comprehensive income. Loans and receivables carrying amount is reduced through the use of the provision account. Loss of the provision are recognized in the statement of comprehensive income as other operating expenses. When a loan or receivable is uncollectible, it is written off against the provision account for loans and receivables. Subsequent recoveries of amounts previously written off are credited against 'other operating expenses' in the statement of comprehensive income.

Borrowings

Borrowings are recognised initially at the amount of proceeds, net of transaction costs incurred. Borrowings are subsequently stated at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption value is gradually recognised in profit and loss.

Borrowings are classified as current liabilities unless the Company has an unconditional right to defer settlement of the liability for at least 12 months after the balance sheet date.

Cash and cash equivalents

For the purposes of the cash flow statement, cash and cash equivalents comprise cash and the balances of the current bank account.

Share capital and dividends

Ordinary shares are classified as equity. Dividends to be paid to shareholders of the Company are represented as liabilities during the financial period of the Company, when shareholders of the Company approve the dividends.

Employee benefits

Short-term employee benefits, including salaries, social security contributions and bonuses are included in the statement of profit or loss on an accrual basis.

The Company pays social security contributions for state pension insurance and to the state funded pension scheme in accordance with Latvian laws. State funded pension scheme is a defined contribution plan under which the Company pays fixed contributions determined by the law and they will have no legal or constructive obligations to pay further contributions if the state pension insurance system or state funded pension scheme are not able to settle their liabilities to employees. The social security contributions are recognised as an expense on an accrual basis and are included in the staff costs.

Corporate income tax

Corporate income tax is calculated in accordance with tax laws of the Republic of Latvia. Effective laws provide for 15% tax rate,

Deferred income tax is provided in full using the liability method on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. However, where the deferred income tax arise from recognition of the assets and obligations resulted from transactions, which are not the business dilution, and at the moment of transaction do not affect profit or loss neither in the financial statements nor for the taxation purposes, the deferred income tax is not recognised.

Deferred income tax is determined using tax rates (and laws) that have been enacted by the year-end and are expected to apply when the deferred income tax is settled.

The principal temporary differences, in general, arise from different tangible assets depreciation rates as well as provisions for slow-circulating goods, accruals for unused annual leave and accruals for bonuses. Where an overall deferred income tax arises it is only recognised to the extent it is probable which the temporary differences can be utilised.

Fair value estimation

In respect of financial assets and liabilities held in the balance sheet at carrying amounts other than fair values, the fair values are disclosed separately in notes.

The carrying value of trade receivables and payables are assumed to approximate their fair values. The fair value of financial instruments for disclosure purposes is estimated by discounting the future contractual cash flows at the current market interest rate that is available to the Company for similar financial instruments unless there is information on market prices.

Related parties

Related parties are defined as shareholders of the Company, who have a significant influence or control over the Company, members of the Board and the Council, their close relatives and companies, in which they have a significant influence or control. Also companies located in ultimate control or significant influence by the controlling member are related parties.

Critical accounting estimates and judgments

In order to prepare financial statements in accordance with IFRS it is necessary to make critical estimates. Therefore, preparing these financial statements the Management must make estimates and judgments applying the accounting policies adopted by the Company.

Preparation of financial statements in compliance with IFRS require estimates and assumptions affecting value of assets and liabilities recognised in the financial statements, and disclosures in the notes at the year-end as well as income and expenditures recognised in the reporting period. Actual results may differ from these estimates. Scopes; the most-affected by assumptions are revaluation of the land and building and determination of their useful life period, determination of revaluation regularity, as well as recoverable amount of receivables and inventories as disclosed in the relevant notes.

Revaluation of land and buildings

Management of the Company determines fair value of the assets based on assessment made by independent certified valuators in accordance with the property valuation standards and based on observable market price as well as future cash flow and construction costs methods.

The Management believes that assets must be revaluated at least once in 5 years or earlier if any indicators show the potential material changes in market values. By the management estimates, in the reporting year the factors that indicate a potentially significant changes in the value of those assets has not been identified, and, as a result, fair value measurement procedures has not been made. Last evolution of land and buildings was carried out in 2016 on preparation of financial statements.

Recoverability of receivables

The calculation of recoverable value is assessed for every customer individually. Should individual approach to each customer be impossible due to great number of the customers only bigger receivables shall be assessed individually. Receivables not assessed individually are arranged in groups with similar indicators of credit risks and are assessed jointly considering historical losses experience. Historical losses experience is adjusted on the basis of current data to reflex effect of the current conditions that did not exist at acquisition of the historical loss, effect and of conditions in the past that do not exist at the moment. Information on amount and structure of receivables is disclosed in Note (14) of the financial statements.

Prior period errors

During the preparation of annual report for the year 2016, it was found that in 2011 the long-term revaluation reserve was incorrectly calculated and disclosed.

In accordance with the International Accounting Standard No 8 "Accounting Policies, Changes in Accounting Estimates and Errors", the Company accounted the adjustments in year 2016, but in the annual report it was disclosed retrospectively.

After making adjustments to prior period errors, changes have been occurred in the following financial report items:

Item adjusted	Annual report for the year 2015 before adjustments	Adjustment	Annual report for the year 2015 after adjustments
Adjustment to Balance Sheet as at 31.12.2015		1	,
Long-term investments revaluation reserve	133 288	-61 654	71 634
Retained earnings form previous financial periods Adjustments to the income	-239 717	71 468	-168 249
statement for the 2016 Depreciation of revalued fixed			
assets, which are recognized in equity	-110 238	2 181	-108 057

Due to adjustments Company's profit for the year 2015 was increased by 2181 EUR; the share equity as of 31.12.2015 was decreased by 9814 EUR and makes 320 433 EUR.

(3) Segment Information and net sales

Operation and reportable segment

Core activity of the Company is the issuing of short-term loans against pledge of movable and immovable property and the realization of the pledged property. As the Company's other business lines, including other commodity trade is irrelevant, the Company has only one operation and reportable segment. Operation segments are reported in a manner consistent with the internal reporting provided to the Company's chief operating decision maker being the Board.

Geographical markets

Currently there are twenty-seven branches: Aizkraukle, Alūksne, Balvi, Bauska, Cesis, Dobele, Daugavpils, Gulbene, Jekabpils (two branches), Jelgava, Kraslava, Kuldiga, Liepaja, Limbazi, Madona, Ogre, Rezekne, Riga, Saldus, Talsi, Valmiera, Ventspils, Tukums, Preili, Ludza, and Valka.

(11) Corporate income tax

Components of corporate income tax	2016 EUR	2015 EUR
Changes in deferred income tax	-32 931	-15 248
Corporate income tax according to the tax declaration	-1 299	0
Total	-34 230	-15 248
Reconciliation of accounting profit to income tax charges	*	
The actual corporate tax expenses consisting of corporate income tax as po	er tax return and changes in	deferred tax

differ from the theoretically calculated tax amount for:

Deferred tax liabilities at the end of the financial year	54 435	7 049
On equity attributable deferred tax liability from revaluation included in other revenues	14 455	
Deferred tax liabilities (asset) at the beginning of the financial year Deferred tax changes charged to the income statement	7 049 32 931	22 297 -15 248
	EUR	EUR
Movement and components of deferred tax	2016	2015
Total corporate tax charge	34 230	-15 248
Non-deductible expenses for tax purposes	42 851	3 248
Tax effects on:		
Theoretically calculated tax at 15% tax rate	-8 621	-18 496
Profit or loss before taxes	-57 471	-123 305
Corporate income tax:	EUR	EUR
	2016	2015

The deferred company income tax has been calculated from the following temporary differences between value of assets and liabilities in the financial statements and their tax base (tax effect 15% from temporary differences):

	2016	2015
	EUR	EUR
Temporary difference on depreciation of fixed assets and intangible assets	39 953	32 306
Temporary difference on revaluation reserve	23 414	19 993
Gross deferred tax liabilities	63 367	52 299
Temporary difference on accruals for annual leave	- 0	-2 120
Tax loss carried forward	0	-2 420
Temporary differences on accruals	-8 932	-40 710
Gross deferred tax assets	-8 932	-45 250
Net deferred tax liability (assets)	54 435	7 049

The Company offsets the deferred tax assets and the deferred tax liabilities only when there is a legally enforceable right to offset current tax assets against current tax liabilities and when the deferred tax is related to the same taxation authority.

The movement of deferred tax assets and liabilities during the reporting year, without taking into consideration the offsetting of balances within the same tax jurisdiction, is as follows:

Accelerated Accruals for Accrual

Accelerated depreciation of fixed assets

cruals for unused annual leave Accruals / tax losses

Total current		369 317	494 631
Borrowings total	*	3 692 469	3 833 803

a) Fair value of borrowings

Considering that the variable interest rate is applied to loans from credit institutions and financial leasing agreements, fair value is not materially different from the carrying value. The management assesses, that also carrying value of other borrowings is not materially different from their fair value.

During the reporting and previous year with the Company's bonds were not made transactions for which is available public information to assess their market value.

b) Bonds

11 November 2015, the Company made the refinancing of the bonds with a new bond issue. The total number of issued bonds under refinancing emission was 3310, denominations of bonds is 1 000 EUR, the coupon rate is 12%. Bond are maturing on 15 November 2020.

Bonds are included in Baltic bond list of NASDAQ OMX Riga AS stock exchange.

	0	0	110 160	109 812	

(22) Number of employees

The average number of persons employed by the company

2016	201
53	53

(23) Operating leases - the Group as lessee

During the financial year was in effect a number of agreements of premises rent. Lease payments recognised as an expense during the reporting period amount to EUR 99 981(2015: EUR 103 512). No sublease payments or contingent rent payments were made or received.

(24) Financial and capital risk management

The Company's activity is exposed to various financial risks: market risk (including currency risk and interest rate risk), credit risk and liquidity risk. The Management of the Company seeks to minimize potential adverse effects of the financial risks on the Company's Market risk

a)Foreign exchange risks

The Company's main financial assets and liabilities are in Euro (EUR). Revenues are collected in EUR. Daily purchases primarily are incurred in EUR. The Company is not exposed to foreign exchange risk.

b) Interest rate risks

The Company is exposed to interest rate risk as the part of the liabilities are interest-bearing borrowings with the variable interest rate (Note (19)), as well as the Company's interest bearing assets have fixed interest rate.

	31.12.2016	31.12.2015
	EUR	EUR
	19 172	44 006
Financial liabilities with variable interest rate	19 172	44 006

Taking into account insignificant proportion of financial liabilities with variable interest rate in total financial liabilities, possible changes of interest and interest rate does not leave significant effect on the Company's profit before tax.

c) Other price risk

Other price risk is the risk that the value of financial instruments will fluctuate due to other market factors. The Company's management monitors the market fluctuations on a continuous basis and acts accordingly but does not enter into any hedging transactions.

Credit risk

Financial assets, which potentially subject the Company to a certain degree of credit risk concentration are primarily cash, trade receivables and loans. For the bank transactions only the local and foreign financial institutions with appropriate ranking is accepted.

Maximum exposure to credit risk	31.12.2016	31.12.2015
	EUR	EUR
Loans and trade receivables	2 137 805	2 212 807
Other current assets	41 696	44 086
Cash and cash equivalents	240 394 -	285 218
Total	2 419 895	2 542 111

Within the Company the credit risk is managed using centralized procedures and control. The main credit risk occurs in connection with outstanding loans issued. To reduce these risks the Company applies a conservative credit policy – the sum of issued loans is smaller than the value of pledged movable and immovable property. Such policy allows the Company to reduce its credit risk to minimum. Information about the structure of the loan portfolio is provided in Note 14.

The Company is not subjected to income concentration risk because the Company gains income from many clients where the total payment of interest income or commission fees is formed by small sums.

Liquidity risk

Company pursues a prudent liquidity risk management and maintain a sufficient quantity of cash and ensure the availability of financial funds through bonds emission, loans provided by banks and related parties. Company's management monitors the operational forecasting of liquidity reserves, based on estimated cash flows.

The following table shows the maturity structure of financial liabilities of the Company, that is based on non-discounted cash flows (excluding interest):

On 31 December, 2015	Total EUR	<1 year EUR	1-2 years EUR	2-5 years EUR	b	>5 years EUR
Bonds	3 310 000			3 310 000		0
Loans from credit institutions	0					0

Trade and other payables	135 837	135 837				
	3 775 009	451 857	3 152	3 320 000		0

All loans and trade receivables are short - term, with a maturity 1 year or less.

Capital Management

According to the Latvian Commercial Law requirements if the Company's losses exceed half of the share capital, the Board is required to address shareholders to make decisions on Company's going concern. Equity of the Company meets the Latvian legal requirements. Company's management manages the capital structure on going concern basis. During the reporting period there were no changes in capital management objectives, policies or processes.

Company's management controls the net debt to equity (gearing ratio).

	31.12.2016	31.12.2015
	EUR	EUR
Total borrowings	3 692 469	3 833 803

Independent Auditor's Report

To the shareholders of AS "Moda Kapitāls"

Our Opinion on the Financial Statements

We have audited the accompanying financial statements of AS "Moda Kapitāls" ("the Company") set out on pages 6 to 25 of the accompanying annual report, which comprise:

- · the statement of financial position as at December 31, 2016,
- · the statement of comprehensive income for the year then ended,
- the statement of changes in equity for the year then ended,
- · the statement of cash flows for the year then ended, and
- the notes to the financial statements, which include a summary of significant accounting policies and other explanatory notes.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of AS "Moda Kapitāls" as at December 31, 2016, and of its financial performance and its cash flows for the year then ended in accordance with the International Financial Reporting Standards (IFRS) that have been addopted in European Union.

Basis for Opinion

In accordance with the Law on Audit Services of the Republic of Latvia we conducted our audit in accordance with International Standards on Auditing adopted in the Republic of Latvia (ISAs). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report.

We are independent of the Company in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code) and independence requirements included in the Law on Audit Services of the Republic of Latvia that are relevant to our audit of the financial statements in the Republic of Latvia. We have also fulfilled our other professional ethics responsibilities and objectivity requirements in accordance with the IESBA Code and Law on Audit Services of the Republic of Latvia.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit matters

The key audit matters are matters that, based on our professional judgment, were the most important in the audit of these financial statements. These matters were generally dealt with in the context of the Audit of Financial Statements as well as in the preparation of the Independent Auditor's report for these Financial Statements, but we do not express a separate opinion on these matters.

We have determined the matters described below as the key audit matters to be communicated in our report:

Key Audit matter

Loans and receivables (see Note No 2 Accounting Policies and Note No 14)

As at December 31, 2016 loans and trade receivables consisted of 2 137 805 EUR and its impairment was 230 269 EUR.

We paid the attention to this matter, because the Management applies individual judgments in determining the period in which the impairment is recognized and in determining the amount of the impairment.

The Company provides loans, which are primarily secured with pledge. The loan impairment is determined by splitting issued loans into two groups: pledge secured and unsecured loans, and by estimating potential accounts receivables' default losses. The default analysis is made by determining the impairment provisions. Portfolio provisions are made for unsecured loans. The default losses to loans secured by pledge are estimated by individual borrowers' payment history and the amount of collateral assessment.

The Company's policy is to issue loans for the amount of approximately 70% of the pledged asset's market value. The information is updated at least once a month and the Management continuously monitors and documents the movement of issued loans.

Inventories (see Note No 2 Accounting Policies and Note No 13)

The inventories amounted to EUR 1,192,851 and these impairments amounted EUR 69,331 as at December 31, 2016.

This area we estimated as significant because the management has to make judgments to determine the value of the inventories and consider whether the value of inventories in the financial statements hasn't been presented overstated as its recoverable value, respectively necessary losses for value adjustment of inventories have been estimated.

The inventories of the company consist of goods purchased for sale as well as pledges taken over from borrowers, including real estate, commercial pledges and precious metals.

The procedures applied for evaluation of each group of pledges and pledges that have been taken over.

Procedures performed

We assessed whether the Company's accounting policies in relation to the loans and receivables are in compliance with IFRS.

We assessed the design and efficiency of the controls over impairment data and calculations. We performed the test of selected controls by using the re-performance test method on the sample base. We did not identify any restriction that impacted our audit approach in the result of procedures performed.

We obtained the impairment calculation of loans and receivables as at December 31, 2016 and assessed its appropriateness. We made the aging structure analysis of loans and receivables and calculated, in our opinion, necessary impairment, which we compared with the Company's ones. We did not find material deviations in the result of procedures performed.

We considered whether the disclosure properly made in the Note 14 to the financial statements is appropriate.

We obtained an understanding of the Company's approach of inventory accounting and evaluation, especially of the pledges taken over – real estate, commercial pledge and precious metals.

We assessed whether the Company's accounting policies in relation to the inventory comply with IFRS.

We acquainted with Company's procedures of the pledge value determining when loans are issued and when borrowers' pledges are taken over. We tested the procedures applied and their suitability on the sample base. We did not find any exception that could impacted our audit approach during the procedures performed.

We assessed the Company's calculations of provisions. We inquired the Company's management, examined the historical and the post-balance sheet date of inventory sales transactions and results.

Reporting on Other Information

The Company management is responsible for the other information. The other information comprises:

- the Company's Supervisory Board and the Board, as set out on page 3 of the accompanying Annual Report.
- the Management Report, as set out on page 4 of the accompanying Annual Report,
- the Statement on Management Responsibility, as set out on page 5 of the accompanying Annual Report,

 the Statement of Corporate Governance, which has been provided in a separate report prepared by the management and is available on the Company's website www.lombardsmoda.lv.

Our opinion on the financial statements does not cover the other information included in the Annual Report, and we do not express any form of assurance conclusion thereon, except as described in the Other reporting responsibilities in accordance with the legislation of the Republic of Latvia section of our report.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed and in light of the knowledge and understanding of the entity and its environment obtained in the course of our audit, we conclude that there is a material misstatement of this other information; we are required to report that fact. We have nothing to report in this regard.

Other reporting responsibilities in accordance with the legislation of the Republic of Latvia

In addition, in accordance with the Law on Audit Services of the Republic of Latvia with respect to the Management Report, our responsibility is to consider whether the Management Report is prepared in accordance with the requirements of the 'Law On the Annual Reports and Consolidated Annual Reports' of the Republic of Latvia.

Based solely on the work required to be undertaken in the course of our audit, in our opinion:

- the information given in the Management Report for the financial year for which the financial statements are prepared is consistent with the financial statements; and
- the Management Report has been prepared in accordance with the requirements of the 'Law On the Annual Reports and Consolidated Annual Reports' of the Republic of Latvia.

In accordance with the Law on Audit Services of the Republic of Latvia with respect to the Statement of Corporate Governance, our responsibility is to consider whether the Statement of Corporate Governance includes the information required in section 56.2, third paragraph, clause 1 of the Financial Instruments Market Law.

In our opinion, the Statement of Corporate Governance includes the information required in section 56.2, third paragraph, clause 1 of the Financial Instruments Market Law.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation of the financial statements that give a true and fair view in accordance with the 'Law On the Annual Reports and Consolidated Annual Reports' of the Republic of Latvia and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibility for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or
error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is
sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material

misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that
 are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness
 of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the
 disclosures, and whether the financial statements represent the underlying transactions and events in a
 manner that achieves a fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence and objectivity, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.
