Management report

General information

During the reporting period no changes have occurred to the composition of the Concern and it consisted from the parent company JSC „Olainfarm” and its daughter company SIA „Reinolds” which owns several patents related to the new products.

Concern is one of the biggest companies in the Baltic States with more than 35 years of experience in production of medicines and chemical and pharmaceutical products. The basic principle of Concern’s operations is to produce reliable and effective top quality products for Latvia and the rest of the world. Currently the products of Concern are being exported to more than 30 countries worldwide, including the Baltics, Russia, CIS, Scandinavian and other Western European countries, Asia and the USA.

Financial results

Sales of the Concern continued increasing during the second quarter of 2009 compared to the similar period a year earlier. Sales reached 5 115 383 lats (7 278 534 Euro) which is a 6% increase compared to the 2nd quarter of 2008.

Consolidated Sales by Quarters, thsnd LVL

Similar growth trend can be observed when looking at the total sales of the first six months. Consolidated sales of the concern during this period reached 10.7 million lats (15.2 million Euro), which is a 4% increase compared to the first half of 2008.

Consolidated Sales of First Six Months, thsnd.

It must be noted, however, that significant shipments were made during the first half of 2008 to partners in Poland and the UK, and similar shipments are planned for the second half of 2009. Should the respective corrections be made for such irregular and untypical sales, sales of the first half of 2009 would have grown by 15%.

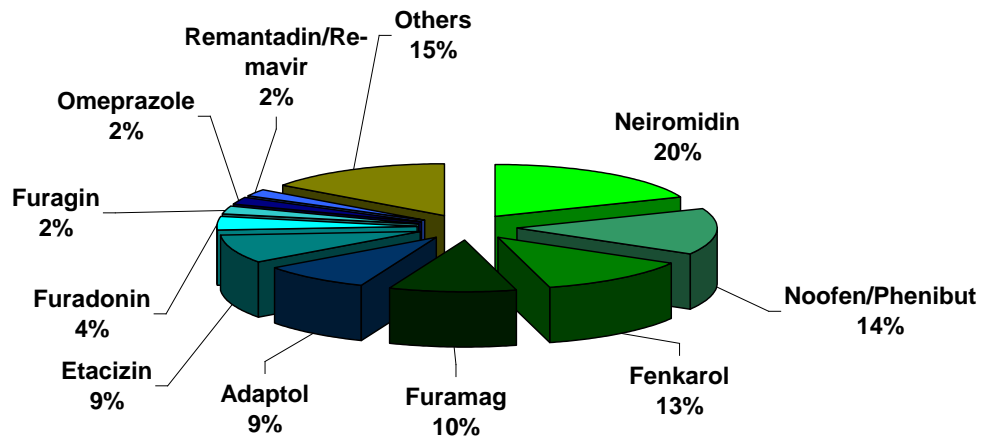

Like before, according to the results of 1st half of 2009, significant sales growth remains in the countries where Concern's marketing effort has been particularly strengthened. Sales to Russia during the 1st half of 2009 have grown by 40%, to Moldova by 76%, to Azerbaijan by 147%, to Kazakhstan by 22%. Some smaller growth has been achieved in countries with more turbulent economic conditions, namely Belarus, Ukraine and Latvia. Biggest sales decreases in percents have come from countries with rather insignificant influence to Concern's sales like Tajikistan, Kirgizstan and Estonia. In some instances the sales to these countries has decreased by as much as 55%, but since the impact of these countries to overall sales of the Concern is negligible, such a decrease could not and did not leave any significant adverse impact on overall Concern's sales figures.

Sales of First Half of 2009 by Countries

During the 2nd quarter of 2009 the work was continued at sales promotion in different markets and as of the end of the first half of 2009 five best selling products were the products, sales of which are being promoted particularly strongly. At the same time, despite a rather considerable growth of Neimomidin's share in overall sales, rather good diversity of products in portfolio remains, as the best sold product makes up only about one fifth of total sales while ten best sold products make up only 85% of total sales.

Sales of First Half of 2009 by Products

In the 2nd quarter of 2009 as before, the impact of previously made decisions regarding the sales promotion and cost optimization remained. Thus the net profit of the Concern with slight corrections for seasonality remained on the level of 1st quarter and reached 359 thousand lats (511 thousand Euros).

Profit by Quarters thsnd. LVL and EUR

As far as the profit is concerned, in 2009 the Concern has experienced its best ever 1st half of year, as it totally made the net profit of 825 thousand lats (1 173 thousand Euro).

Consolidated Profit in First Halves, thsnd. LVL and EUR

EBIT and EBITDA keep improving with considerable speed. During the 1st half of 2009 EBITDA reached 2 306 452 lats (3 281 786 Euro), while at the same time last year it was 923 895 lats (1 314 584Euro), which means that in 1st half of 2009 it has increased two and a half times compared to the respective period of 2008. EBIT has also grown significantly to 1 058 486 lats (1 506 090 Euro), while a year ago it was negative figure of 337 718 lats (480 529 Euro).

Stabilization of financial indicators has also facilitated the stabilization of the share price of the share price on NASDAQ OMX Riga Stock Exchange, especially during the second half of the first quarter. Particularly strong growth of the share price can be observed after the results of the first quarter were published.

Price of share of Parent Company on Riga Stock Exchange (H1, 2009)

During the second quarter of this year the price of Olainfarm's shares has increased much more rapidly than the OMX Riga Index. It resulted in OMX Riga index falling in six months period by about 10%, while Olainfarm's share price during the similar period has increased by about 30%.

Events after the end of the reporting period

On July 3, 2009 Chairman of the Supervisory Council of Olainfarm Mr. Juris Savickis announced his resignation by July 9, 2009. Supervisory Council of Olainfarm elected Mr. Helmutis Balderis – Sildedzis to be the new Chairman of the Supervisory Council. However, since Mr. Savickis' resignation Olainfarm's Supervisory council was lacking one member, therefore, based on Articles 270 and 273 on Latvian Commercial Law the Management Board of Olainfarm decided to convene the Extraordinary Shareholders Meeting of Olainfarm on September 25, 2009, with elections of the Supervisory Council on agenda.

On July 15, 2009, Olainfarm received an announcement whereby Chairman of Olainfarm's Supervisory Council Mr. Helmutis Balderis – Sildedzis informed about obtaining an indirect participation in JSC Olainfarm because a company „HB-19 Investments Limited” owned by Mr. Balderis – Sildedzis has purchased 3 686 014 shares of JSC „Olainfarm”, which represents some 26,17% of

the total share capital. Respective announcement about the similar selling transaction was also received from former Chairman of the Supervisory Council Mr. Juris Savickis.

Statement of Responsibility of the Management

The Management Board prepares financial statements for each financial year which give a true and fair view of the state of affairs of the Group, the cash flows and the results of the Group for that period in accordance with International Financial Reporting Standards as adopted by the EU. In preparing those financial statements, they:

- ♦ select suitable accounting policies and then apply them consistently;
- ♦ make judgments and estimates that are reasonable and prudent;
- ♦ prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Group will continue in business.

The Management Board is responsible for keeping proper accounting records, which disclose with reasonable accuracy at any time the financial position, financial performance and cash flows of the Parent Company and the Group and enable them to ensure that financial statements drawn up from them comply with International Financial Reporting Standards as adopted by the EU.

9. Basic and diluted earnings per share

Earnings per share are calculated by dividing the net result for the year after taxation attributable to shareholders by the weighted average number of shares in issue during the year. The table below presents the income and share data used in the computations of basic earnings per share:

	2009 II. quarter		2008 II. quarter	
	LVL	EUR	LVL	EUR
Net result attributable to shareholders	824 707	1 173 452	(735 000)	(1 045 811)
Weighted average number of ordinary shares*	14 085 078	14 085 078	14 085 078	14 085 078
Earnings per share	0.059	0.083	(0.052)	(0.074)

The Parent Company has no potential dilutive ordinary shares and therefore diluted earnings per share are the same as the basic earnings per share.

21. Segment information

For management purposes group is organized into business units based on its products, and has two reportable operating segments as follows:

The finished form medicine segment represents tablets, capsules, ampoules and sachets, namely the products ready for final consumption by end users.

The chemicals segment is sales of chemicals to the clients of the Group for further processing, eventually into finished form medicines. Production of both segments is separated.

Under the segment „Chemicals” the Group has stated revenues from sale of chemical and pharmaceutical substances only to customers outside the Group. However, most of the chemicals are used to produce the final dosage forms within the Group and revenues generated by them do cover the resources invested into fixed assets used for chemical production. The Group does not keep separate books by segments.
