### **Management report**

#### **General information**

The Group is one of the biggest pharmaceutical companies in Latvia with 40 years of experience in production of medication and chemical and pharmaceutical products. A basic principle of Group's operations is to produce reliable and effective top quality products for Latvia and the rest of the world. Products made by the Group are being exported to more than 30 countries of the world, including the Baltics, Russia, other CIS, Europe, Asia, North America and Australia.

During the reporting period changes have been made to the composition of the Group. It consisted from parent company JSC Olainfarm, its daughter companies SIA Ozols JRD, travel agency SIA First Class Lounge and pharmaceutical retail companies SIA Latvijas Aptieka and SIA Rupes Farm. During the reporting period 100% shares in SIA Kiwi Cosmetics, a local producer of Eco cosmetics, were acquired. JSC Olainfarm also owns 96.69% shares in leading Latvian food supplement company SIA Silvanols.

#### Corporate mission and vision

#### Corporate mission:

JSC Olainfarm is one of the biggest manufacturers of finished drug forms chemical products in the Baltics. The keystone of our work is manufacturing of reliable and effective high quality products to the whole world. We are about fair and effective cooperation with our customers – patients, doctors, pharmacists and other partners. In achievement of our goals, we are creating a team of highly qualified, socially secured and well-motivated employees. Our priority is organizing an environmentally friendly manufacturing and constant increase of the Company's shareholders value.

#### Corporate vision:

We are aiming to become the leading manufacturer of finished drug forms and chemical-pharmaceutical products in the Baltics and to make our products known and available worldwide.

Company's Corporate Governance Report is available at www.olainfarm.lv.

#### Operational environment

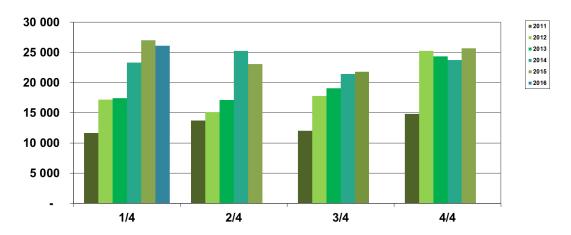

During the reporting period the operational environment in a large part of markets important for the company, has remained rather unpredictable. Although the economic situation in Russia seemed to be improving, it did not deliver the expected sales volumes there. At the same time, despite the obvious economic issues in both, Ukraine and Belarus, sales growth in these countries has been rather impressive.

During the reporting period, the banking license of AS Trasta Komercbanka has been withheld. This bank participated in a scheme, providing no-recourse factorizing of receivables from Ukrainian partner OOO Olfa. Since payments of this partner to AS Olainfarm were significantly delayed, the said factorizing scheme allowed treating these receivables as completely safe. Because such factorizing services are no longer available, depending upon payments from OOO Olfa, management of JSC Olainfarm will be deciding about additional provisions for these receivables. During the reporting period, JSC Olainfarm has already made provisions of 1 million euros for them.

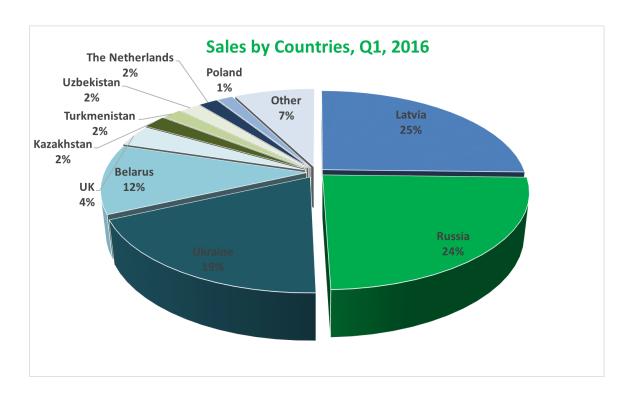

#### Financial results

During the first quarter of 2016, sales volumes have declined by 3% compared to similar period of 2015 and reached 26.1 million euro. Although there is a declining sales compared to the last year, in terms of sales this anyway is the second best quarter in corporate history. This has been achieved largely because of rather successful operations in Ukraine, Belarus and Central Asian countries.

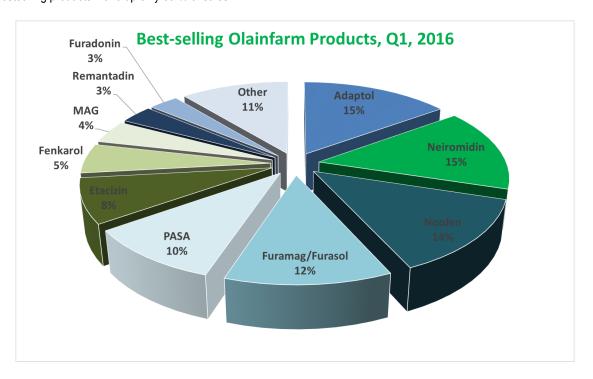

### Sales by Quarters, Thsnd. EUR

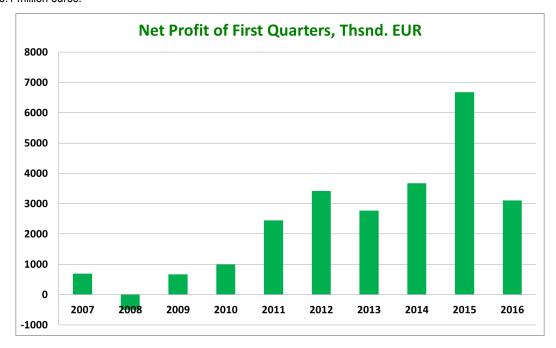

During the 1st quarter of 2016 sales to all company's main markets continued increasing except for Russia, where they shrunk by 38%, compared to 1st quarter of 2015. This fact, combined with good sales growth in Latvia, has made Latvia to be the biggest market for the Group during 1st quarter of 2016. The most rapid sales increase has been achieved in Poland, where sales grew by 181%. Sales to Turkmenistan grew by 162%, Sales to Uzbekistan grew by 134% and sales to Belarus grew by 77%. Major sales markets of JSC Olainfarm in three months of 2016 were Latvia, Russia, Ukraine and Belarus.

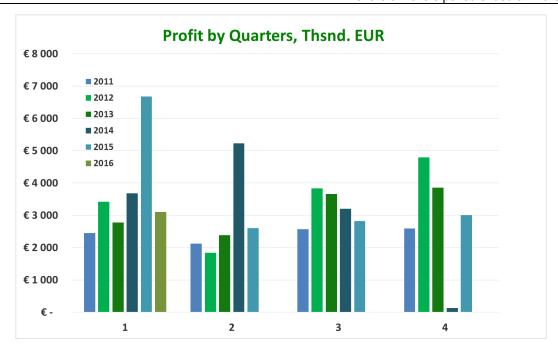

During the first quarter of 2016 significant changes have occurred to the structure of bestselling products, as Adaptol has become the bestselling product, leaving a long term leader Neiromidin in the second place. Share of the bestselling products has also levelled out as no product makes up more than 15% of JSC Olainfarm sales. Overall concentration of sales has also improved, as ten bestselling products make up only 89 % of sales.

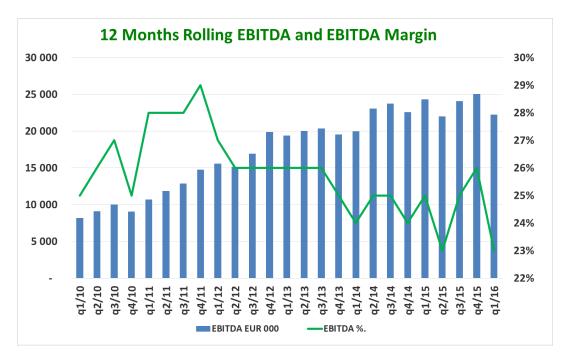

Profitability of the company during the 1st quarter of 2016 was influenced by several factors. Compared to the first quarter of 2015 such influence was mainly negative: sales were smaller, although there were positive rouble fluctuations, they were smaller than one year ago, and additional provisions of 1.2 million euros were also made. Therefore, the net profit of Q1 declined in 2016 by 52% to 3.1 million euros.

As less successful first quarter of 2016 replaced more successful first quarter of 2015 in 12 months rolling EBITDA calculation, EBITDA and EBITDA margin have also declined. 12 months EBITDA fell to 22.2 million and EBITDA margin during this period fell to 23%.

This is how other indicators have changed during the reporting period:

Financial indicator for period	01.01.2016 - 31.03.2016	01.01.2015 - 31.03.2015	% to previous period

P/E	9.0	5.9	

It is proposed, that Annual meeting of shareholders of JSC Olainfarm to be convened on June 7, 2016 approves operating plan of the Group for 2016. According to it, sales of the Group in 2016 are planned to be 100 million euros, but the net profit will reach 10 million euros. According to this unaudited report for 1st quarter of 2015, during the first three months 26% of annual sales target and 31% of annual profit target is met.

#### Shares and stock market

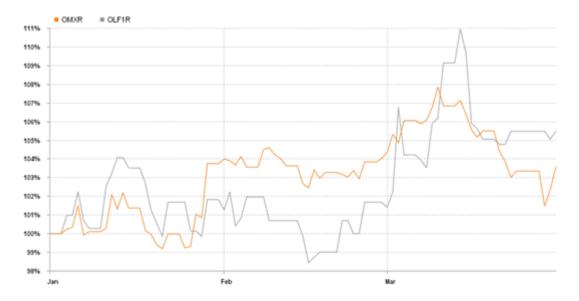

Rapid improvement of Company's financial indicators over the last three years are reflected in significant fluctuations of price of Company's shares on NASDAQ OMX Riga. During the reporting period, share price mainly fluctuated around 7.20 euro per share, reaching its low of 7.00 per share in the middle of February, and reaching its high of 7.89 in the middle of March. During the reporting period, 408 transactions were made with shares of JSC Olainfarm. Before the production of this report, the share price did not experience any major changes and fluctuated around 7.60 euros.

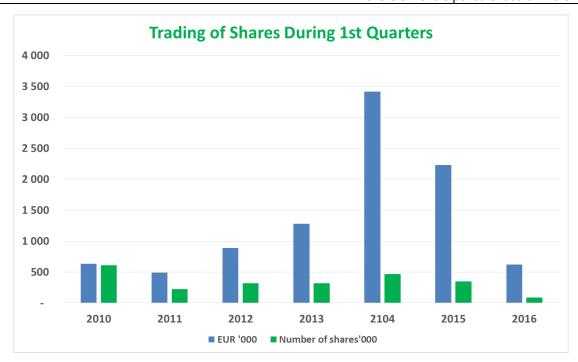

During the first quarter of 2016, price of share of JSC Olainfarm increased slightly more than OMX Riga index. During these three months OMX Riga index increased by 3.6%, while price for share of JSC Olainfarm by 5.5%.

# Rebased price of Olainfarm share vs. rebased OMX Riga index (Reporting period)

-- OMX Riga

-- JSC Olainfarm

During the first quarter of 2016, more than 84 thousand shares of JSC Olainfarm worth more than 620 thousand million euros were traded on Nasdaq Riga. Compared to the first quarter of 2015, the number of traded shares decreased significantly, as the number of traded shares now was one fourth of what it was in 2015.

#### Development

During the reporting period, registration processes continued in Turkey, Bosnia and Herzegovina, Myanmar, Cameroon and Vietnam.

Registration of several products has been successfully completed in Estonia, Turkmenistan, Bosnia and Herzegovina.

Laboratory research has been completed for 100mg capsules of new product Macrobid and Ibuprofen Antigripp, two new final dosage forms developed for Ranitidine, scheduled for registration by the end of 2016. Work continues at developing new final dosage forms of anti-tuberculosis products.

#### **Future outlook**

Successful operations of the Company in future will largely depend on its ability to diversify its sales markets and products and to preserve its current position in its key markets. In this respect, the Company continues taking all steps necessary to obtain the market authorisations in Turkey, which is large enough market, much less subjected to turbulences, compared to CIS countries. Company continues and will continue acquiring daughter companies in pharma related sectors with similar or different sales markets.

Deterioration of economic situation in several CIS countries has forced their governments to take steps targeted at protection of local markets and supporting of local producers. In several occasions, such activity has had negative effect on operations of JSC Olainfarm. In order to mitigate the effect of measures already in place and to limit their effects in the future, the Company plans to place parts of production in these countries or acquire companies there. It is expected that such a move will at least partially ease the limitations currently in place for foreign producers.

#### **Environment**

Major environmental activities during the 1sr quarter of 2016 were related to piloting the new wastewater plant and proposed technologies. In order to select the most appropriate treatment technology, their ability to purify actually produced wastewater was tested.

#### Social responsibility

During the first quarter of 2016, the Company continued supporting development of new professionals of Riga Stradins University and Riga Technical University and University of Latvia with scholarships.

Demonstrating that health care and healthy life style is high among company's values, JSC Olainfarm participated in organizing Annual Medical Awards, supported amateur ice hockey tournament in the town of Olaine, basketball club Jurmala, development of young tennis and football players as well as sports dance festival Dance Art Cup 2016.

Company continued helping Inese Galante Fondation to search for musically talented young people of Latvia, was one of the key supporters of celebrations of Town Anniversary of Olaine, sponsored concerts of vocal group Dzeguzite.

#### Events after the end of the reporting period

In May 12, 2016 the Company acquired 100% stake of SIA Tonus Elast. SIA Tonus Elast was established in 1995 and is producing elastic medical products from elastic bandages to very complicated corset structures for pregnant and lactating women. Production site of SIA Tonus Elast meets all the standards of a modern producer of medical products, which is proven by LVS EN ISO 9001:2009 certificate.

Product portfolio of SIA Tonus Elast includes more than 100 different types of products. Best sold of them are bandages and compression products. On average about 11.2 million units are produced on production site of Tonus Elast in Nica County. About 11% are sold locally in Latvia, while 89% are being exported. The main markets are CIS countries, EU, India and the Middle East. In Latvia products of Tonus Elast are available from company stores in Riga, Liepaja, Daugavpils and Ventspils, as well as in several pharmacies and internet shopping sites.

Tonus Elast employs a little more than 200 people, which makes this company the biggest taxpayer and employer in Nica County. According to unaudited reports, in 2015 sales of Tonus Elast were 7.3 million euros, while net profit reached 1.7 million euros.

### Statement of responsibility of the management

The Management Board of JSC Olainfarm prepares interim condensed consolidated financial statements for each quarter which give a true and fair view of the JSC Olainfarm group's (hereinafter - the Group) assets, liabilities and financial position as of the end of the respective interim period, and the financial results of the Group for that respective period. Interim condensed consolidated financial statements are prepared based on International Financial Reporting Standards as adopted by the EU in respect of interim financial statements. In preparing those financial statements, management:

- selects suitable accounting policies and then apply them consistently;
- makes judgments and estimates that are reasonable and prudent;
- prepares the financial statements on the going concern basis unless it is inappropriate to presume that the Group will continue in business.

The Management Board of JSC Olainfarm is responsible for keeping proper accounting records, which disclose with reasonable accuracy at any time the financial position, financial performance and cash flows of the Parent Company and the Group and enable them to ensure that financial statements drawn up from them comply with International Financial Reporting Standards as adopted by the EU.

Valerijs Maligins hairman of the Board (President)

The accompanying notes form an integral part of these financial statements.

#### Notes to the interim condensed consolidated financial statements

#### 1. Corporate information

The principal activities of Olainfarm Group (hereinafter, the Group) are manufacturing and distribution of chemical and pharmaceutical products. The Parent Company of the Group, JSC Olainfarm (hereinafter, the Parent Company) was registered with the Republic of Latvia Enterprise Register on 10 June 1991 (re-registered on 27 March 1997) and with the Republic of Latvia Commercial Register on 4 August 2004. The shares of the Parent Company are listed on Riga Stock Exchange, Latvia.

These unaudited interim condensed consolidated financial statements (hereinafter – the interim financial statements) were approved by the Board on 31 May 2016.

#### 2. Basis of preparation and changes to the Group's accounting policies

#### Basis of preparation

The interim condensed consolidated financial statements for three months ended 31 March 2016 have been prepared in accordance with IAS 34 Interim Financial Reporting.

The interim financial statements do not include all the information and disclosures required in the annual financial statements, and should be read in conjunction with the Group's annual financial statements as at 31 December 2015.

The interim financial statements are presented in euro (EUR), the monetary unit of the Republic of Latvia since 1 January 2014, and rounded to the nearest thousand (EUR '000 or thsd. EUR).

The interim financial statements comprise the financial statements of the Parent Company and all its subsidiaries as at 31 March 2016.

### Changes in accounting policy and disclosures

The accounting policies are consistent with those followed in the preparation of the Group's annual financial statement for the previous periods. The Group has evaluated new and amended IFRSs and IFRICs effective for annual periods beginning on or after 1 January 2016. No impact on the interim financial statements of the Group was identified.

The Group has not applied and has not evaluated the impact of the application of the IFRS and IFRIC interpretations that have been issued as of the date of authorisation of these financial statements for issue, but which are not yet effective. The Group plans to adopt these standards and interpretations on their effectiveness dates provided they are endorsed by the EU.

#### 3. Business combination

During the reporting period the Group acquired several unlisted companies registered in Latvia as described below. Companies were acquired to increase retail coverage. The Group has used a multiple earnings method in the valuation of intangible assets. The main assumptions used – expected profitability and revenue growth. At the date of authorising for issue the interim financial statements the Group has not yet finalized the identification process for intangible assets from the business combinations - therefore the net assets and goodwill recognized in the interim financial statements are provisional. The interim financial statements include the results of acquired companies from acquisition date till the end of reporting period.

The fair value of the identifiable assets and liabilities of the companies as at the date of acquisition were:

Acquired entity Percentage of voting equity interest acquired Acquisition date	<b>Rūpes Farm Aptieka</b> 100% 12.01.2016	Kiwi Cosmetics 100% 14.03.2016	
	Fair value recognize		TOTAL

	•		•
Estimated effect of acquisition if acquisition date had been	as of the beginning of t	he year:	
Estimated revenue for whole period	78	39	117
Estimated profit before tax for whole period	-	13	13

According to the equity shares purchase agreement the total purchase price of SIA Kiwi Cosmetics is 326 thsd. EUR. Until the date of signing these interim financial statements there was consideration in the amount of 226 thsd. EUR paid. The remaining 100 thsd. EUR will be paid if SIA Kiwi Cosmetics achieves financial goals set in the purchase agreement.

The goodwill recognized is primarily attributed to the expected synergies and other benefits from combining the assets and activities of the subsidiary with those of the Group and increase of deferred tax liability from the business combination.

SIA Rupes Farm Aptieka goodwill is allocated entirely to the pharmacy retail segment.

#### 4. Impairments

Goodwill is tested for impairment annually and when circumstances indicate the carrying value may be impaired. Goodwill acquired through business combinations has been allocated to SIA Latvija Aptieka Cash Generating Unit (Pharmacy CGU) and Silvanols CGU. Premises lease agreements and licences are fully related to Pharmacy CGU.

The recoverable amount of Pharmacy and Silvanols CGU is determined based on a value in use calculation using cash flow projections from financial budgets approved by the management of the Group. Applying the same key assumptions in value in use calculation as for the latest year end testing, management has not identified circumstances that indicate the carrying value of Pharmacy and Silvanols CGU related goodwill, premises lease agreements and licenses may be materially impaired at the date of these interim financial statements.

#### 5. Income tax

The Group calculates the period income tax expense using the tax rate that would be applicable to the expected total annual earnings. The major components of income tax in the interim condensed income statement are corporate income tax 1 014 thsd. EUR (3M 2015: 1 772 thsd. EUR) and decrease in deferred income tax expense of 132 thsd. EUR (3M 2015: increase of 114 thsd. EUR). Deferred income tax liability at the period end is 1 830 thsd. EUR (31.12.2015: 1 947 thsd. EUR).

#### 6. Property, plant and equipment

During the reporting period there were no significant investments made for property, plant and equipment, also no material disposals or write-offs were performed during the reporting period.

#### 9. Dividends paid and proposed

No dividends are paid during the reporting period up to the authorisation of the interim financial statements. As this report is prepared, the Board maintains intentions to offer 17.5% pay-out ratio for approval by shareholders. The Board's intention also is to propose for the shareholders' approval to transfer the EUR denomination reserve of 322 thsd. EUR from Reserves to Retained earnings available for distribution to shareholders.

### 10. Events after the reporting period

Details of events after the reporting period end are described in Management Report accompanying these interim financial statements.
