#### **Future Outlook**

The diversification of export markets is still one of the key challenges for ensuring the successful and sustainable performance. In order to achieve this goal, the Group increases efforts to register its products in new markets, as well as plans to invest substantial funds in further research of existing products during 2018 - 2021 period. That could allow the expansion in current and potential markets.

These unaudited interim condensed consolidated financial statements (hereinafter – the interim financial statements) were approved by the Management Board on 31 August 2018.

#### 2. Basis of preparation and changes to the Group's accounting policies

#### Basis of preparation

The interim condensed consolidated financial statements for six months ended 30 June 2018 have been prepared in accordance with IAS 34 Interim Financial Reporting.

The interim financial statements do not include all the information and disclosures required in the annual financial statements and should be read in conjunction with the Group's annual financial statements as at 31 December 2017.

The interim financial statements are presented in euro (EUR), the monetary unit of the Republic of Latvia, and rounded to the nearest thousand (EUR '000 or thsd. EUR).

The interim financial statements comprise the financial statements of the Parent Company and all its subsidiaries as at 30 June 2018.

#### Changes in accounting policy and disclosures

The accounting policies are consistent with those followed in the preparation of the Group's annual financial statement for the previous periods. The Group has adopted new and amended IFRSs and IFRICs effective for annual periods beginning on 1 January 2018. No impact on the interim financial statements of the Group is identified except as described below.

Adoption of IFRS 9 Financial Instruments:

The Group has adopted IFRS 9 as from financial year 2018. Group has recorded lifetime expected losses on trade receivables applying measurement based on historical observed default rates of trade receivables. IFRS 9 impairment loss is applied retrospectively with transition impact recognized in retained earnings as of 01.01.2018 on amount of 369 thsd. EUR. During the reporting period applying the same default rates as for the initial recognition the additional impairment of Group's trade receivables of 50 thsd. EUR is recognized in the statement of comprehensive income under Other operating expense.

The Group has not applied and has not evaluated the impact of the application of the IFRS and IFRIC interpretations that have been issued as of the date of authorization of these financial statements for issue, but which are not yet effective. The Group plans to adopt these standards and interpretations on their effectiveness dates provided they are endorsed by the EU.

#### 3. Business combination and reorganization

During the reporting period, the Group has not acquired any new companies.

During the reporting period reorganization - merging process was performed in the course of which four of JSC Olainfarm owned companies (acquiree) were merged into SIA Latvijas Aptieka (acquirer). On 9 January 2018 cosmetic wholesale company SIA Aroma was merged into SIA Latvijas Aptieka. In April, 2018 three pharmacies SIA Avril, SIA Rēzeknes ērgļa aptieka and SIA Veselība were merged into SIA Latvijas Aptieka.

All the rights and obligations of the acquiree are transferred to the acquirer. Assets and liabilities of the acquired company are reflected in the financial statements of SIA Latvijas Aptieka at their carrying value as at the date of the merging, excluding intercompany mutual balances and the difference recognizing in prior year retained earnings. Due to the fact that the merged companies till the date of the reorganization were part of the same Group, the performed reorganization did not affect the financial results of the Group.

During the reporting period reorganization of SIA Longgo has been initiated with intent to merge it into SIA Silvanols. The reorganisation process was completed after the end of the reporting period – on 6 July, 2018.

#### 4. Impairments

Goodwill is tested for impairment annually and when circumstances indicate the carrying value may be impaired. Goodwill acquired through business combinations has been allocated to the following cash generating units (CGU): Pharmacy CGU (all pharmacy retail entities), Silvanols CGU (including Longgo), Tonus Elast CGU (Tonus Elast and Elast Medical), Biotest CGU, Diamed CGU, Olainmed CGU and Other CGU.

The recoverable amount of each CGU is determined based on a value in use calculation using cash flow projections from financial budgets approved by the management of the Group. Applying the same key assumptions in value in use calculation as for the latest year end testing, management has not identified circumstances that indicate the carrying value of CGUs related goodwill, premises lease agreements and licenses may be materially impaired at the date of these interim financial statements.

#### 5. Property, plant and equipment

During the reporting period the investments of 1 305 thsd. EUR are provided under the EU co-financed project Implementation of Experimental Technology for Production of New Products of JSC Olainfarm. The investments made are fully financed by loan from credit institution.
