This condensed interim financial information for the twelve month period ended 31 December 2020 has been prepared in accordance with IAS 34, "Interim Financial Reporting" as adopted by the EU. The condensed interim financial information should be read in conjunction with the annual financial statements for the year ended 31 December 2019, which have been prepared in accordance with International Financial Reporting Standards ("IFRS") as adopted by EU. Except for the points described below, all the accounting policies applied in the preparation of this condensed interim financial information are consistent with those of the annual financial statements of the Bank for the year ended 31 December 2019.

Income tax

Income tax in the interim periods is accrued using the tax rate that would be applicable to expected total annual earnings.

New and amended standards, and interpretations

The Bank's management do not believe the newly published standards, amendments and interpretations that are mandatory for the Bank's reporting periods beginning on or after 1 January 2020 will have a material impact on the Bank's financial statements, also there are no new standards, amendments and interpretations that are mandatory for the Bank with effect from 2020, and that would have a material impact on the Bank's financial information.

Critical accounting estimates and judgements

The preparation of financial statements in conformity with IFRS requires the use of estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Although these estimates are based on management's best knowledge of current event and actions, actual results ultimately may differ from those estimates. Main judgements and estimates include impairment of financial assets, goodwill impairment, TLTRO-III borrowing classification, insurance liabilities, taxes, Level 3 fair value estimations. It should be noted that at the moment of producing the financial reports uncertainties regarding further development scenarios of Covid-19 pandemic and further global, country and sector development trends existed, therefore there is a significant probability that actual results may deviate from the estimated.

These financial statements combine the consolidated financial statements for the Group and stand-alone financial statements of the Bank. Such format of reporting was adopted to ensure consistency of presentation with the format prescribed by the Bank of Lithuania and applied for statutory reporting.

No significant amounts of the Group's and the Bank's income or expenses are of a substantial seasonal nature.

NOTE 1

LOANS TO CUSTOMERS AND FINANCE LEASE RECEIVABLES

Credit risk is defined as the risk for the Group to incur losses due to the Group's customers' failure to fulfil their financial obligations towards the Group. Credit exposures arise principally in lending activities and it is the most significant risk in the Group's banking activities. There is also credit risk in investment activities that arise from debt securities and in the Group's asset portfolio as well as in the off-balance sheet financial instruments, such as loan commitments, guarantees and letters of credit.

The Bank regularly reviews its credit risk management policies which include lending policies, credit risk limit control, other credit risk mitigation measures as well as the internal control and internal audit of credit risk management.

The Bank takes risks only in the fields, which are well known to it and where it has long-term experience, trying to avoid excessive risk in transactions that can have negative influence to the big portion of shareholders' equity but seeks the sufficient profitability which, in terms of increasing competition, would ensure the stable Bank's position in the market and would increase the Bank's value. In assessing exposure to credit risk, the Bank adheres to the principle of prudence.

The aim of the Bank's credit risk management policy is to ensure that the conflict between interests of staff or structural units is avoided. With respect to provision of credits to clients, the principle stating that profit should not be earned at the expense of excessive credit risk is observed.

Maximum exposure to credit risk before collateral held or other credit enhancements:

LOANS TO CUSTOMERS AND FINANCE LEASE RECEIVABLES (continued) NOTE 1

Loans are assigned to stages using the following principles (a deviation from these principles is allowed in the process of individual loan assessment based on contract-specific circumstances if it would result in more precise assessment of the risk of the contract):

Stage 1 loans: loans with no increase in credit risk observed.

Stage 2 loans: loans with an increase in credit risk observed. Main reasons for determining an increase in credit risk are: deterioration of borrower's financial status from the initial (this criteria is not applicable to the low credit risk loans, i.e. loans that have internal borrower's financial status assessment grades "very good" or "good" or investment grade credit ratings by external credit rating agencies), payment delay of over 30 days, and other objective criteria showing an increase in credit risk.

Stage 3 loans: defaulted loans. Main reasons for determining a default are: payment delay of over 90 days, bankruptcy of the borrower, termination of the contract, start of the foreclosure procedures and other objective criteria.

In April 2020 the Bank joined the moratoria initiated by the Association of Lithuanian Banks (ALB) that offer principal repayment deferral solutions for individual and business customers. During the period when moratoria were offered (until 30 September 2020) Group's approved applications for modification of loan payment schedules based on Covid-19 implications on the borrowers amounted to EUR 246,184 thousand, of which EUR 89,874 thousand were according to ALB moratoria conditions. Group follows legal treatment for loan contract amendments, i.e. amended loan contracts are accounted for as modifications. As interest rate is not modified as a condition for moratoria, no material result from contract modifications was recorded (during twelve month period ended 31 December 2020, loan modifications resulted in net loss of EUR 47 thousand, which was included in income statement line "Other operating income").

Although no significant increase in payment delays was observed, the share of loans assigned to Stages 2 or 3 increased. Two factors contributed the most:

(i) Changes in credit classification criteria: in line with the supervisory guidelines, additional scenarios for assigning loans to Stages 2 and 3 have been introduced, which had a major impact on the migration of loans to Stage 3 and some impact on loan migration from Stage 1 to 2:

a. Stage 2 loans can be classified according to additional scenarios, which include inclusion in the Watch List and loan restructuring in case of financial difficulties of the borrower;

b. Stage 3 loans can be classified under additional unlikelihood to pay scenarios;

(ii) the classification of loans as Stage 2 due to the impact of the pandemic (deterioration of the client's financial condition compared to the original status or due to loan restructuring measures outside the scope of the ALB moratoria were the main reasons for loan migration from Stage 1 to Stage 2).

Expected credit losses increased due to changes in the structure of loan stages, calculation parameters (mostly increase in probabilities of default) and relevant customer parameters such as customer risk and collateral structure. Collective assessment of the significant increase in credit risk used in previous quarters of 2020 was discontinued as the individual review of potentially affected customers was performed during the fourth quarter and the uncertainties regarding future economic developments were included calculation of impairment parameters.

NOTE 5

SIGNIFICANT INFORMATION ON CHANGES IN OTHER LIABILITY ITEMS

Due to other banks and financial institutions

On 24th June 2020, Bank borrowed via the ECB's TLTRO III operation EUR 150 million for the 3-year term. Loan maturity date is on 28th June 2023 with early repayment option starting on 29th September 2021. Interest rate on TLTRO III is -0.5% from June 2020 to June 2021 and for banks meeting the lending thresholds, the interest rate can be as low as -1%. Debt securities with accounting value of EUR 155,921 thousand as of 31 December 2020 were pledged for this borrowing.

As of 31 December 2020 and 31 December 2019 the Banks's share capital amounted to EUR 174,210,616.27, it comprised 600,726,263 ordinary registered shares with par value of EUR 0.29 each.

At 31 December and 31 December 2019, the European Bank for Reconstruction and Development possessed 26.02% of the authorised capital and votes of the Bank.

As at 31 December 2020, the Bank had 9,053 shareholders (as at 31 December 2019: 5,391).

Dividends:

On 31 March 2020 the ordinary general meeting of shareholders did not approve draft profit distribution therefore no dividends were paid out for year 2019 and all the profit that the Bank has earned for 2019 remains undistributed.

On 28 March 2019 the ordinary general meeting of shareholders made a decision to pay EUR 0.029 (i.e. 10.00%) dividends per one ordinary registered share with EUR 0.29 nominal value each.

Reserve for acquisition of own shares:

On 28 March 2019 the ordinary general meeting of shareholders made a decision to form a reserve for acquisition of own shares from retained earnings. The reserve can be used for two purposes – to preserve the market price of Bank's shares and to acquire the shares that will be granted to Group's employees as part of variable remuneration.

During the twelve month period ended 31 December 2020 the Bank acquired 780 thousand own shares for EUR 320 thousand. The acquired shares were granted to the employees of the Bank and its subsidiaries as a deferred part of variable remuneration for 2016 and 2017. As of 31 December 2020, the Bank did not possess its own shares.

During the twelve month period ended 31 December 2020 the Bank acquired 1,176 thousand own shares for EUR 618 thousand. The acquired shares were granted to the employees of the Bank and its subsidiaries as a deferred part of variable remuneration for 2015, 2016 and 2017. As of 31 December 2019, the Bank did not possess its own shares.

Other equity:

Other equity consists of amount that corresponds to the obligation to present Bank's shares to Group's employees as part of variable remuneration.

Impairment expenses increased due to changes in the structure of loan stages, calculation parameters (mostly increase in probabilities of default) and relevant customer parameters such as customer risk and collateral structure. Collective assessment of the significant increase in credit risk used in previous quarters of 2020 was discontinued as the individual review of potentially affected customers was performed during the fourth quarter and the uncertainties regarding future economic developments were included calculation of impairment parameters. Changes in impairment calculation parameters resulted in a recognition of impairment loss of EUR 4,205 thousand during the 2020 for the Group (in 2019, an impairment reversal of EUR 524 was recognized due to change in parameters).

Scenarios used to established PD parameters relied on institutional forecasts, adjusted taking into account uncertainties regarding further economic developments and end of loan extension measures applied for the customers.

NOTE 13

LIQUIDITY, MARKET AND OPERATIONAL RISKS

Liquidity risk

Liquidity risk means the risk that the Bank is unable to meet its financial obligations in time or that it will not manage to receive financial resources during a short time by borrowing or selling the assets.

Liquidity risk management process

The liquidity risk management depends on the Bank's ability to cover the cash shortage by borrowing from the market and the liquidity of the market itself. Liquidity risk management is regulated by the Procedures for Liquidity Risk Management approved by the Board of the Bank. The management of the current and non-current liquidity risk is distinguished in the mentioned procedures. The current liquidity is based on the control of the incoming and outgoing cash flow. The non-current liquidity is managed on the limit system basis.

No Bank's liquidity situation deterioration was observed during Covid-19 epidemic situation.

Tables below present the assets and liabilities according to their remaining maturity defined in the agreements. However, actual maturity of the particular types of assets and liabilities may be longer as, for example a portion of loans and deposits is extended and thus the real repayment terms of short-term loans and demand deposits move forward.

The structure of the Group's assets and liabilities by maturity as at 31 December 2020 was as follows:

NOTE 13

LIQUIDITY, MARKET AND OPERATIONAL RISKS (continued)

Operational risk

Operational risk is the risk to incur losses due to inadequate internal control processes or incorrect process implementation, errors and/or illegal actions of employees, malfunctioning of information systems or external incidents. Unlike other risks (credit, market, liquidity), which are not being taken on purposefully, with anticipation of benefits, operational risk occurs naturally in the course of Bank's business.

Covid-19 epidemic situation significantly impacted the organization of Bank's activities and activated certain business continuity management processes. Much attention was devoted to assurance of continuity of services, management of risk factors related to organization of activities during the quarantine. Due to quarantine restrictions servicing in physical customer service points was reorganized, customers encouraged to use electronic service channel when possible. Possibility to work from home was organized for some employees, additional security measures were organized for employees.

In 2020, Bank's attention is further devoted to Bank's business continuity management, outsourcing, improvement of internal control organization and formalization of data and information quality assurance processes. In the first half of 2020, banking product creation and development process was renewed. It includes all new and (or) modified products and services. The goal of this process is to avoid unforeseen risks in banking activities, help to assure quality of new and (or) modified products and services. Bank's business continuity management regulations were also updated, in which structure and components of business continuity plan were modified. Other bank's continuity planning documents were updated, Crisis Management Commission composition was renewed, its regulations were prepared..

NOTE 14

FINANCIAL ASSETS AND LIABILITIES MEASURED AT FAIR VALUE

Types of inputs used in valuation techniques determine the following fair value hierarchy:

- Level I – Quoted prices (unadjusted) or public price quotations in active markets for identical assets or liabilities;
- Level II – Inputs other than quoted prices included within Level I that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices);
- Level III – inputs for the asset or liability that are not based on observable market data (unobservable inputs).

During the twelve month period ended 31 December 2020, the process of fair value measurement did not change significantly as compared to the process described in the annual financial statements for the year 2019.

- The assets grew by 21% and exceeded EUR 3 billion
- The loan portfolio increased by 5% and reached EUR 1.76 billion
- The Bank became an active and significant participant of mortgage market - the portfolio increased almost 3 times and reached EUR 297 million
- The deposit portfolio grew by 15% and reached EUR 2.35 billion
- While overcoming the pandemic challenges, the Group managed to provide all services to customers, offered support solutions to residents and businesses impacted by COVID-19

Overview of the key performance indicators

The Šiaulių Bankas Group earned EUR 43.0 million of the unaudited net profit in year 2020 (EUR 51.5 million in 2019). Operating profit before impairment losses and income tax amounted to EUR 64.8 million, which is by 5% less than in 2019. The net profit for Q4 was EUR 8.8 million, and the operating profit before impairment losses and income tax amounted to EUR 13.5 million.

Net interest income increased by 5% compared to year 2019 and amounted to EUR 75.7 million. Net fee and commission decreased moderately to EUR 16.0 million, which is by 4% less than in year 2019.

There are no significant signs of decrease of credit quality or increase of loan repayment delays noticed, however, taking into account the findings of ECB asset quality review process, the Bank has changed the clients' credit quality evaluation criteria, which lead to the increase of non-performing exposures in the portfolio to 6.9%. The total amount of impairment losses for Q4 was EUR 2.9 million, and the total provisions for year 2020 amounts to EUR 12.0 million (EUR 8.4 million in 2019). The cost-of-risk on loans (CoR) in year 2020 was 0.6% (0.5% in year 2019).

The cost-to-income ratio was 42.7% at the end of the year (42.5% in year 2019), and the return-on-equity (ROE) was 12.7% (17.6% in year 2019).

The capital and liquidity positions remain sound and the prudential requirements are met with a large reserve – with a liquidity coverage ratio (LCR) of 283%* and a capital adequacy ratio (CAR), not including net profit for the year 2020, of 17.2%*.

Overview of Business Segments

Business and Private Clients Financing

The loan and finance lease portfolio increased by 5% and exceeded EUR 1.76 billion (+1% quarter-on-quarter) at the end of 2020. The new credit agreements signed in 2020 amount to EUR 700 million, which is 22% less than during year 2019.

Due to the uncertainty and government support, the business financing demand continued to decrease - during the Q4 business financing portfolio has decreased by 2% to EUR 1.06 billion (-9% year-on-year).

On the other hand, despite the restrictions of second quarantine, we have recorded a strong demand for household lending. Mortgage loan portfolio during Q4 has increased by 11%, to EUR 297 million (+192% year-on-year). Consumer financing portfolio during Q4 decreased by 2%, to EUR 160 million and remained unchanged throughout the year.

The Bank remains active in financing energy efficiency projects, the loan agreements for modernisation of multi-apartment buildings signed amounted to EUR 26 million during the Q4 (+258% year-on-year) and to EUR 81 million during the whole year (+176% year-on-year). In Q4, the Bank continued intensively working to set up a EUR 200 million renovation fund with the European Investment Bank (EIB) with the purpose of attract private and international investors, and thus encourage them to invest in multi-apartment building modernisation projects through the fund. The fund's launch date is moved to Q3, 2021.

During Q4, a deferral period applied to EUR 161 million of corporate loans deferred due to COVID-19 had expired. As of 31 December, only 8% of them have applied for additional restructuring. EUR 41 million of corporate loans, deferred due to COVID-19, had not reached the end of deferral period by the end of year 2020. An increase of loans payment delays, affected by COVID-19, is not expected, however, there is still uncertainty due to the pandemic, so it is difficult to predict future tendencies.

Daily Banking

The customer activity in using the Bank's services have been affected by the second quarantine that took place during major part of Q4. Net fee and commission income decreased by 7% to EUR 4.0 million, compared to Q3.

Over 21 thousand of new private customers and over 2 thousand of new business customers have started using the Bank's services in 2020. The service plans portfolio increased by 14% for private customers, and by 2% for business customers (49% of private and 55% of business customers, respectively, have already subscribed to service plans).

The updated digital services for customers during the third quarter - on-line banking and mobile application - have allowed to improve customer experience in the Bank's digital channels. The number of users in e-channels exceeded 190 thousand, number of logins to the e-channels increased by 26% during the year, and, in December 2020, for the first time, there were over 1 million logins to the e-channels. All in all, the customer stream for the remote service has increased twice.

The number of payment cards increased by 9% (up to 174 thousand), compared to the end of year 2019. The number of operations and turnover increased by 23% and 21%, respectively, compared to year 2019. The demand for cash has also increased - although the number of operations did not change, the turnover of cash operations increased by 10%, compared to year 2019.

Customer service units are subject to early registration of clients for the visit. Customers wishing to keep their distance are served remotely. Only 7 out of 59 customer service units, which locate in the biggest Lithuanian cities, were closed during second quarantine. Considering the restrictions of moving between the municipalities, the Bank aims to ensure an access to the Bank's services for the customers.

Saving and Investing

The deposit portfolio has increased by 15% during the year and amounted to EUR 2.35 billion at the end of 2020. The demand deposits increased by 32%, or EUR 353 million, during the year, while the term deposits decreased by EUR 40 million (- 4% year-on-year). The loan-to-deposit ratio stood at 75% at the end of Q4 (82% at the end of year 2019). While having high liquidity buffers and in order to lower funding costs, interest rates on term deposits have been reduced again from January 2021.

RATINGS

On 16 May 2019, the international rating agency Moody's Investors Service, after assessing the consistent strengthening of capitalization and sustainable improvement of profitability, improved the credit rating of Šiaulių Bankas and set the following:

- a long-term deposit rating – Baa2;
- a short-term deposit rating - P-2;
- rating outlook - Stable.

On 18 February 2021 Moody's affirmed previous long-term deposit rating Baa2 and changed its outlook to positive from stable. The bank was also affirmed with the short-term deposit rating of P-2.

RISK MANAGEMENT, COMPLIANCE WITH PRUDENTIAL REQUIREMENTS

MANAGEMENT OF THE BANK

The Management Board bodies of the Bank are as follows: the General Meeting of the Shareholders of the Bank, Supervisory Council of the Bank, Management Board of the Bank and Chief Executive Officer (CEO).

The Supervisory Council of the Bank is a collegial body supervising the activities of the Bank. The Supervisory Council is chaired by the Chairperson. The Bank's Supervisory Council, consisting of seven members, is elected by the General Meeting of Shareholders for a term of four years. The members of the Supervisory Council are nominated for the meeting by the initiators of the meeting or shareholders holding 1/20 of the bank's shares. The Charter of the Bank provide that the number of terms of office of a member of the Supervisory Council is not limited.

The General Meeting of Shareholders held on 31 March 2020 elected the Bank's Supervisory Council for a new four-year term. The General Meeting of Shareholders approved amendments to the Bank's Charter according to which the Bank's Supervisory Council will consist of 8 members instead of 7, as before. The Chairman and members of the Supervisory Council of the Bank elected at the meeting:

- Chairman - Arvydas Salda;
- Members – Gintaras Kateiva, Darius Šulnis, Miha Košak, Martynas Česnavičius, Ramunė Vilija Zabulienė and Adriano Arietti.

The decision of the Meeting stipulates that the persons elected to the Bank's Supervisory Council for the first time will take up the duties of the members of the Council only with the permission of the supervisory authority. On 2 June 2020, the European Central Bank (ECB) received a notification that the Governing Council of the ECB had decided not to oppose the appointment of Adriano Arietti as a member of the Bank's Supervisory Council. Adriano Arietti is considered to be a member of the Supervisory Council of the Bank from 3 June 2020.

Susan Gail Buyske was elected to the Bank's Supervisory Council at the Extraordinary General Meeting of Shareholders held on 10 June 2020. On 31 July 2020, the Bank received a notification from the ECB that the Governing Council of the ECB had decided not to oppose the appointment of Susan Gail Buyske as a member of the Bank's Supervisory Board. Susan Gail Buyske is considered to be a member of the Supervisory Council of the Bank from 31 July 2020.

The Bank's Supervisory Council (elected on 31 March 2020, the term of office expires on the day of the Ordinary General Meeting of Shareholders of the Bank in 2024) currently consists of 8 members, 5 of whom are independent.
