Management Report

JSC 'Siguldas ciltslietu un mākslīgās apsēklošanas stacija' (hereinafter referred to as the Company) is the only producer of high-quality breeding bull semen and one of the largest suppliers of it in Latvia. The second largest field of the Company's basic economic activities is the milk testing services. The Company also provides other breeding related services – consultations on issues of cattle breeding, feeding and keeping, evaluation of cow exterior, artificial insemination of cows, initial processing of the supervisory data. The Company offers Latvian farms to test genome samples of herd animals in the US genetics laboratory.

The proportion of the revenue from the Company's basic economic activities, if compared to the first six months of 2023, had not changed substantially – the revenue from the sales of the bull semen comprised 67.9 % of the net turnover, whereas the milk laboratory services and processing of supervisory data services, taken together, accounted for 20.5 % of the net turnover.

Company's net turnover in the first six months of 2024 was 768.3 thousand euros, which is by 1.0 % higher than in the first six months of 2023, whereas Company's profit before enterprise income tax was 61.4 thousand euros – by 27.6 % or 23.4 thousand euros less, compared to the corresponding period in 2023.

During the reporting period, the Company received a new medium-duty truck on a financial lease for five years.

In the first six months of 2024 there are no another major events that have affected the financial statement, as well as no significant risks that the company might be confronted with and which could have an impact on its financial position and financial performance.

By increasing the operational efficiency of its business, the Company will continue to work on the expansion of its marketed product and service volume.

Board

Valda Mālniece
Member of the Management
Board, Manager of the
Financial and Accounting
department

(1) General information on the Company

JSC 'Siguldas ciltslietu un mākslīgās apsēklošanas stacija' (hereinafter - the Company) was registered in the Register of Enterprises of the Republic of Latvia on 26 July 1991 and was reregistered in the Commercial Register of the Republic of Latvia on 19 June 2004.

The Company's basic activities are agriculture and the types of business are as follows:

- production and sale of agricultural products high-quality breeding animals semen,
- making of milk analyses,
- evaluation of cow exterior,
- artificial insemination of cows,
- milk recording data processing,
- animals breeding organization.

(2) Significant accounting principles

Underlying principles of preparation of the Financial Statements

The Company's Financial Statements have been prepared according to the Law On Annual Reports and Consolidated Annual reports of the Republic of Latvia. According to Section 5 of the Law on Annual Reports and Consolidated Annual reports, the Company is classified as a small company according to the last two years figures. Taking into account the legal requirements for commercial companies whose transferable securities are listed on a regulated market, the Company applies requirements that are binding on a large company. The Profit or Loss Account is been prepared based on classification according to expense types. The Cash Flow Statement was prepared according to the direct method.

Complying the regulation stated in Article 13 Part 5 Chapter 2 of the Law On Annual Reports and Consolidated Annual reports, the Company acknowledges, assesses, shows in its financial report and provides explicative information on investment properties in compliance with the international accounting standards.

Accountig principles used

The items of the Financial Statements have been evaluated according to the following accounting principles:

- It is assumed that the Company will be a going concern;
- The same evaluation methods have been used, which were used in the previous year;
- Evaluation was done with sufficient prudence:
 - The Financial Statements include solely the profit gained until the balance sheet date,
 - All expected risk amounts and losses have been taken into account, which occurred during the reporting year
 or in previous years, also if they were known during a certain period of time between the balance sheets date
 and the day of preparing the Financial Statements,
 - All value decreasing and depreciation amounts have been taken into account irrespective whether the reporting year was closed with profit or loss;
- reporting year related income and costs were recognized irrespective of the payment date and the date of receipt or issuance of invoice. Costs have been agreed with the income in the reporting period;
- components of asset and liabilities items have been recognized separately;
- the opening balance of the reporting year agrees with the closing balance of the previous year;
- all items have been recognized, which materially influence assessment or decision-making process of the users of the annual report, insignificant items are merged and they are detailed in the Appendix;
- operating transactions in the reporting year have been recognized in the Financial Statements by taking into account their economic substance and contents, rather than legal form.

Financial instruments

Fair value of financial assets and liabilities

Fair value of financial assets and liabilities reflect the amount, for which it is possible to exchange assets or perform liabilities in a deal between well informed, interested and financially independent persons. If in the Company's management opinion, fair value of financial assets and liabilities materially differs from the value recognized in the balance sheet, then the fair value of these assets and liabilities is recognized in the Notes to the Financial Statements.

Financial risks management

Credit risk

The Company's management has developed credit policy, which is constantly controlled. Client evaluation is done for all customers above a fixed amount. The Company cooperates with clients who have proper credit assessment.

Currency risk

Based on the current structure of Company's financial assets and liabilities held in foreign currencies, the currency risk is not material.

Reporting period

The reporting period is six months from 1 January to 30 June 2024.

Revaluation of foreign currencies

The Company's functional currency and the currency used in the Financial Statements is euro (EUR). All transactions in foreign currencies are converted into euro according to the euro foreign exchange reference rate published by the European Central Bank on the day of particular transaction being performed.

Monetary assets and liabilities, which are shown in foreign currencies, are converted into euro according to the fixed euro foreign exchange reference rate published by the European Central Bank on the last day of the reporting period.

| | 30.06.2024 | 30.06.2023 |
|-----|------------|------------|
| USD | 1.07050 | 1.08660 |

Currency exchange rate differences arising from settlements in currencies or when recognizing assets and liabilities by using currency exchange rates, which differ from the initial currency exchange rates used for accounting of transactions, are recognized in the profit or loss account in net value.

Recognition of income

Income is recognized according to the conviction about the Company's possibility to gain economic benefit and in the amount, in which it is possible to state it, less value added tax and sales-related discounts. When recognizing income, also the following provisions are taken into account.

Sale of goods

Income is recognized when the Company has transferred to the purchaser major risks and indemnities related to the title of goods.

Provision of services

Income from services is recognized in the period when the services are provided.

Penalty and delay charges

Income from penalty and delay charges is recognized at the moment of their receipt.

Interest

Income is recognized according to the respective period of time.

Long-term and short-term items

Long-term items include amounts whose receipt, payments or write-off terms are due later after the end of the respective reporting year. Amounts, which are receivable, payable or written off during the year, are recognized in short-term items.

Leasing transactions

Financial leasing

In cases when fixed assets are purchased on the conditions of financial leasing and the related risks and return are taken over, these fixed assets are recognized in the value, for which they could be purchased with immediate payment. Leasing interest payments and similar payments are included in the profit or loss account of that period when they occurred.

Intangible assets and fixed assets

In the balance sheet, all intangible assets and fixed assets are reflected at their purchase prices, less depreciation. Depreciation is calculated from the first date of the next month after their commissioning and finished on the first date of the subsequent month after it is excluded from fixed assets. Depreciation is calculated according to the straight line method and is written off during the useful life time of respective fixed assets by choosing the following annual depreciation rates as fixed by the management:

Intangible assets:

Licenses 5 years

Fixed assets:

Buildings and constructions

10, 20, 25, 40 and 59 years

Productive animals

2 years

Equipment and machinery

5, 6 and 7 years

Computer hardware and communication equipment

Inventory and tools

3 and 5 years

Other fixed assets

2 and 3 years

Balances of fixed assets have been counted in the annual count of fixed assets.

The Company capitalizes its fixed assets valued over 70 euro with useful life exceeding one year. Depreciation for improvements and other low costs items with the value less than 70 euro is recognized by 100 % after commissioning.

If sufficient evidence is acquired that the future economic benefit associated with subsequent repair or reconstruction costs will flow to the Company, which exceeds the return set previously, costs are capitalized as additional costs to the fixed asset.

Net gains or losses from disposal of fixed assets is calculated as the difference between the carrying amount of the fixed asset and proceeds from sale, and recognized in the income statements during the period when disposal are incurred.

If it is possible to conclude due to any kind of occurrence or circumstances that residual value of fixed or intangible assets could not reach its recoverable value, appropriate value of fixed or intangible asset is to be decreased until recoverable value. Recoverable value is calculated as the highest of fair value less costs to sell or value in use.

Productive animals meet the value criteria of fixed assets and are included in fixed assets.

Investment properties

Investment property is property (land plots, building or part of building) held by the owner or by lessee under a finance lease to earn rentals or for capital appreciation rather than use in the production or supply of goods or services or for administrative purposes or sale in the ordinary course of business. For the land with uncertain future use (if the Company has not determined that it will use the land as owner occupied or short term sale in the ordinary course of business, it is assumed that land is held for capital appreciation), it is classified as investment property.

Investment property of the company– land in possession of the stock company, which market value is expected to grow. Investment properties have been filed according to their purchase value. No later than at the end of the year of account

the investments properties are being revalued according to their real market value considering any other activities related to particular property. The revaluation is performed by a certified evaluator. Any changes in the market value of the investments properties are being shown in the profit and loss account.

Evaluation using a comparable transaction method was carried out by a certified evaluator:

2023 - LTD 'Eiroeksperts'

2022 - LTD 'Eiroeksperts'

Stock

Stock is recognized in the lowest cost or net sales value. All stock is assessed by using the average weighted method.

Net sales value is the sales price of stock fixed during normal Company's operations, less the stock completion and selling costs. In cases when the stock net selling value is lower than their cost price, provisions are made for these stocks for decrease of their value down to the net sales value.

All direct costs, which are related to production of breeding animals - bull semen, during the year are booked in the profit or loss account and are adjusted at the end of the year when evaluating stocks according to the lowest sales value or cost price and including them in stocks as "Ready-made goods and goods for sale".

Trade receivables and other receivables

In the balance sheet receivables are recognized in the recoverable value, provisions for doubtful receivables having been deducted. Provisions for doubtful debts are made in cases when there is objective evidence to the fact that the Company will not be able to receive the debts in full value according to the initially fixed repayment dates. Provisions for doubtful debts are the difference between the amortized purchase value of receivables and the recoverable value. The recoverable value of receivables is the current value of planned cash flow.

Cash

For the purposes of the cash flow statement, cash and cash equivalents comprise cash, the balances of the current bank account and other current liquid financial assets with maturities up to 90 days.

Provisions

Provisions are liabilities related to current or previous years events and at the preparation of financial statements it is probable that an outflow of resources will be required to settle the obligation and its amount can be reliably estimated. Provisions are measured at the present value of the expenditures expected to be required to settle the obligation.

Subsidies

Amounts, which are received as a state support for agricultural, i.e., for covering of expenses for maintaining high-quality breed bulls, are included in the income of that reporting period when they are received and all material conditions for the grant are fulfilled.

Taxes

Corporate income tax for the financial year

Corporate income tax is payable on the distribution of profits and the conditional distribution of profits. Distributed and notionally distributed profits are taxed at the rate of 20 percent of the gross amount, or 20/80 of net costs. Corporate income tax on the payment of dividends is recognized in the profit and loss account as an expense in the period in which the dividends are declared and, in the case of other retained earnings, as incurred.

Use of assumptions

When preparing the financial statements, the Company's management has to make calculations and assumptions, which impact recognition of assets and liabilities included in the financial statements as at the day of preparing the financial statements, as well as the income and expenses recognized in the specific reporting period. Management has made profit or loss assessment and considers that the financial statements reflect the true financial condition based on all currently available information.

(3) Net sales

Sales include income gained during the year from the Company's basic activities – sales of products and provision of services without value added tax and less discounts.

Report on Management Liability

The Management of JSC 'Siguldas ciltslietu un mākslīgās apsēklošanas stacija' (hereinafter - the Company) is responsible for the preparation of the financial statements of the Company. The financial statements are prepared in accordance with the source documents and present fairly the financial position of the Company as of 30 June 2024 and the results of their operations and cash flows for the year then ended.

The Management Board confirms that the financial statements and notes to the financial statements contained on pp. 3-23 have been prepared on the basis of source documents and the decisions adopted and the assessments made were conservative and prudent. The accounting policy compared to the preceding year has not changed. The Management Board confirms that the financial statements have been prepared on a going-concern basis

Management is responsible for ensuring an appropriate accounting system, preserving the Company's assets, as well as detecting and preventing fraud and other violations committed at the Company. The Management is also responsible for fulfilling the legislative requirements of the Republic of Latvia, as well as the requirements of the European Union regulations that are applicable to the Company.

Interim report for the first six months of the year 2024 has not been audited by a sworn auditor.
