III. EXPLANATORY NOTES

1 Basic information

Snaigė AB (hereinafter the Company) is a public company registered in the Republic of Lithuania. The address of its registered office is as follows:

Pramonės Str. 6,
Alytus,
Lithuania.

The Company is active manufacturer of refrigerators and freezers. The refrigerator manufacturing plant was established on April 1, 1963. After the privatization of the Company on the 1st of December, 1992, the joint-stock company "Snaige" was established and in December 1993 all state-owned shares were bought out. The Company's shares are listed on Vilnius Stock Exchange Secondary List.

Main shareholders of AB „Snaigė“ as on June 30, 2012 and December 31, 2010 were:

	September 30, 2012		December 31, 2011	
	Number of shares owned	Number of votes, %	Number of shares owned	Number of votes, %
VAIDANA UAB	36,069,193*	91.10%	23,716,668	59.86%
Finnish clients Skandinaviska Enskilda Banken	4,000	0.01%	2,266,389	5.72%
Swedbank AS (Estonia) clients	105,433	0.27%	3,321,701	8.38%
Other shareholders	3,416,769	8.62%	10,317,637	26.04%
Total	39,622,395	100%	39,622,395	100%

All the shares of the Company are ordinary shares with the par value of LTL 1 each and were fully paid as of 30 September 2012 and 31 December 2011. As of 30 September 2012 and 2011 the Company did not hold its own shares.

On 12 December 2011 VAIDANA UAB acquired 17,602,215 ordinary registered shares of the Company with the par value of LTL 1 each, which represents 44.42% of the total shares of the Company and voting rights in the general meeting.

On 21 December 2011 VAIDANA UAB additionally acquired 6,114,453 ordinary registered shares of the Company (15.43% of total shares of the Company).

The non-competitive offer for the remaining 15,905,727 ordinary shares of the Company with the par value of LTL 1 each (amounting to 40.14% of the total share capital) was announced on 21 March 2012 and is valid till 28 May 2012.

*8,837,431 units of this quantity were submitted Siaulių bankas, AB as financial deposit and transferred by Siaulių bankas, AB the ownership right (except the non – property rights, voting rights of shareholders) to the financial deposit under security arrangement during the period from 17 August, 2012 till 29 October, 2012.

VAIDANA UAB is ultimately owned by Tetal Global Ltd.

The Group consisted of AB "Snaige" and the followings subsidiaries as of 30 September 2012 (hereinafter – Group) (the structure of the Group remains unchanged comparing to 2011):

Company	Country	Percentage of the shares held by the Group	Profit (loss) for the reporting year	Shareholders' equity
OOO Techprominvest	Russia (Kaliningrad)	100%	(17,237,055)	22,077,645
TOB Snaige Ukraina	Ukraine	99%	(686)	69,871
OOO Moroz Trade	Russia	100%	-	(14,120,299)
OOO Liga Servis	Russia	100%	(124,373)	(1,538,753)
UAB Almecha	Lithuania	100%	281,408	730,322

The Company's board shall consist of six members but on 30 September 2012 the Board of the Company was only 5 members 1 representative of Vaidana UAB and 4 representatives of Polair OAO. As of 31 December 2011 the Board of the Company comprised 2 employees of the Company and 4 representatives of Vaidana UAB.

In 2002 „Snaige“ AB bought „Techprominvest“ (Kaliningrad, Russia) in 2002.

On 12 August 2009 due to global economic crisis and particularly unfavourable effect of it on the Group activities, the management of the Group made a decision to terminate the activities of Snaigė AB refrigerator factory OOO Techprominvest. Goodwill that arose during the acquisition of minority of the subsidiary in 2006 and 2007 amounting to LTL 12,313 thousand (at the moment of acquisition RUB 123,168 thousand) was written off as of 31 August 2009.

The Board of directors of the Company in its meeting on 30 September 2011 decided to sell 100% share capital of OOO Techprominvest held by Company through a public tender. It was also decided to convert the receivables in the amount of LTL 38,509 thousand from OOO Techprominvest into its share capital by increasing it up to 88,852,896 LTL.

The share capital was increased in October 2011.

At present moment OOO Techprominvest rent out real estate and searching for a potential buyer for it.

TOB Snaige Ukraina (Kiev, Ukraine) was established in 2002. Since the acquisition in 2002, the Company holds 99% shares of this subsidiary. The subsidiary provides sales and marketing services to the Company in the Ukrainian market.

On 13 May 2004, OOO Moroz Trade (Moscow, Russia) was established. The Company acquired 100% of shares of OOO Moroz Trade in October 2004. The subsidiary provides sales and marketing services in the Russian market. In 2011 and 2010 OOO Moroz Trade did not operate.

OOO Liga Servis (Moscow, Russia) was established on the 7th of February, 2006. The subsidiary provides sales and marketing services in the Russian market.

UAB Almecha (Alytus, Lithuania) was established on 9 November 2006. The main activities of the company are production of refrigerating components and equipment.

As of 30 September 2012 the number of employees of the Group was 776 (as of 30 September 2011 – 765).

2 Accounting principles

The principal accounting policies adopted in preparing the Group's financial statements as of 30 September, 2012 are as follows:

2.1. Basis of preparation

These financial statements have been prepared in accordance with International Financial Reporting Standards (IFRS), as adopted by the European Union (hereinafter the EU).

These financial statements are prepared on the historical cost basis.

2.2. Going concern

The Group's current assets exceeded current liabilities by LTL 17,994 thousand of 30 September 2012 (whereas in the year 2011, December 31st, the current liabilities exceeded current assets by LTL 6,642 thousand).

- liquidity ratios: general coverage ratio (total current assets / total current liabilities) was 1.58 (0.82 in 31 December 2011),
- quick ratio (total current assets – inventories) / total current liabilities – 1.0 (0.46 in 2011).
- In 2012 the Group has earned LTL 1,392 thousand pre-tax profit (in 2011 incurred loss of LTL 4,274 thousand),
- commitment ratios: the ratio of debt/asset was 0.64 (whereas in the year 2011, December 31st 0.6).
- interest coverage ratio 1.92 (0.20 in 30 September 2011).

Despite this, these financial statements for the nine months of 2012 are prepared under the assumption that the Group will continue as a going concern at least 12 months from the balance sheet date. The going concern is based on the following assumptions:

- in 2012 the Group expects 22% increase in sales comparing to 2011 (comparing nine months of the year with the same period of 2011 sales increased by 20.8 percent) and additionally to optimize fixed costs;
- in order to finance the working capital the Group is planning to perform successful sales of finished goods and the continuation of cooperation only with trustful partners. Trade payables are planned to be decreased using free operational cash flow trade payables are planned to be decreased using free operational cash flows;
- at the date of release of these financial statements all convertible bonds have the maturity term ending in 2013 and all current borrowings were refinanced in 2012 at more favourable interest rates, as well as additional loan agreements have been signed, as disclosed in Note 20.

All obligations of the Company before the convertible bonds holders have been fulfilled.

The direction of the Company agrees that all those assumptions above could be influenced of significant uncertainties, which could raise doubts about Company's ability to continue operating, because of the disability to realize its property and to implement its commitments by carrying out its normal activities. However despite all this the Company's direction expects that the Company will have enough resources to continue operating in the near future. Therefore, the Group has continued to adopt the going concern basis of accounting in preparing these financial statements.

2.3. Currency of financial statement

The Group's financial statements are presented in local currency of the Republic of Lithuania, Litas (LTL), which is the Company's functional and the Group's and Company's presentation currency. Each entity in the Group determines its own functional currency and items included in the financial statements of each entity are measured using that functional currency. Transactions in foreign currencies are initially recorded at the foreign currency exchange rate ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are retranslated at the functional currency rate of exchange ruling at the statement of financial position date. All differences are taken to profit or loss.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as of the date of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined.

Any goodwill arising on the acquisition of a foreign operation and any fair value adjustments to the carrying amounts of assets and liabilities arising on the acquisition are treated as assets and liabilities of the foreign entity and translated at the balance sheet date rate.

The functional currency of the foreign entities OOO Techprominvest, OOO Moroz Trade and OOO Liga Servis is Russian rouble (RUB) and of Snaigė Ukraina TOB - Ukrainian hryvnia (UAH). As of the reporting date, the assets and liabilities of these subsidiaries are translated into the presentation currency of Snaigė AB (LTL) at the rate of exchange on the balance sheet date and their statement of comprehensive incomes are translated at the average monthly exchange rates for the reporting period. The exchange differences arising on the translation are taken to other comprehensive income. On disposal of a foreign entity, the deferred cumulative amount recognized in the shareholder/s equity caption relating to that particular foreign operation is transferred to the statement of comprehensive income.

Lithuanian litas is pegged to euro at the rate of 3.4528 litas for 1 euro, and the exchange rates in relation to other currencies are set daily by the Bank of Lithuania.

The applicable exchange rates of the functional currencies as follows:

	30-09-2012	31-12-2011
RUB	0.085873	0.083334
UAH	0.32891	0.33243
USD	2.6790	2.6694

2.4. Principles of consolidation

The consolidated financial statements of the Group include Snaigė AB and its subsidiaries. The financial statements of the subsidiaries are prepared for the same reporting year, using consistent accounting policies.

Subsidiaries are consolidated from the date from which effective control is transferred to the Company and cease to be consolidated from the date on which control is transferred out of the Group. All intercompany transactions, balances and unrealised gains and losses on transactions among the Group companies have been eliminated. The equity and net income attributable to non-controlling interests are shown separately in the statement of financial position and the statement of comprehensive income.

From 1 January 2010 losses of a subsidiary are attributed to the non-controlling interest even if that results in a deficit balance. Losses prior to 1 January 2010 were not reallocated between non-controlling interests and the parent shareholders.

Acquisitions and disposals of non-controlling interest by the Group are accounted as equity transaction: the difference between the carrying value of the net assets acquired from/disposed to the non-controlling interests in the Group's financial statements and the acquisition price/proceeds from disposal is accounted directly in equity.

2.5. Intangible assets, except for goodwill

Intangible assets are measured initially at cost. Intangible assets are recognised if it is probable that future economic benefits that are attributable to the asset will flow to the enterprise and the cost of asset can be measured reliably. After initial recognition, intangible assets are measured at cost less accumulated amortisation and any accumulated impairment losses. Intangible assets are amortised on a straight-line basis over their estimated useful lives (1-8 years).

Research and development

Research costs are expensed as incurred. Development expenditure on an individual projects is recognized as an intangible asset when the Group can demonstrate the technical feasibility of completing the intangible asset so that it will be available for use or sale, its intention to complete and its ability to use

or sell the asset, how the asset will generate future economic benefits, the availability of resources to complete the asset and the ability to measure reliably the expenditure during development.

Following initial recognition of the development expenditure as an asset, the cost model is applied requiring the asset to be carried at cost less any accumulated amortization and accumulated impairment losses. Amortization of the asset begins when development is complete and the asset is available for use. It is amortized over the period of expected future benefit. Amortization periods from 1 to 8 years are applied by the Group.

Licenses

Amounts paid for licenses are capitalized and amortized over their validity period.

Software

The costs of acquisition of new software are capitalized and treated as an intangible asset if these costs are not an integral part of the related hardware. Software is amortized over a period not exceeding 3 years.

Costs incurred in order to restore or maintain the future economic benefits that the Group expects from the originally assessed standard of performance of existing software systems are recognised as an expense when the restoration or maintenance work is carried out.

2.6. Tangible non-current assets

Property, plant and equipment, including investment property, are assets that are controlled by the Group, which are expected to generate economic benefits in the future periods with the useful life exceeding one year, and which acquisition (manufacturing) costs could be reliably measured. Property, plant and equipment and investment property is stated at cost, excluding the costs of day-to-day servicing, less accumulated depreciation and accumulated impairment losses. Such cost includes the cost of replacing part of such assets when that cost is incurred if the asset recognition criteria are met. Replaced parts are written off.

The carrying values of property, plant and equipment property are reviewed for impairment when events or changes in circumstances indicate that the carrying value may not be recoverable. An impairment loss is recognized in the statement of comprehensive income, whenever estimated.

An item of property, plant and equipment property is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on de-recognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the statement of comprehensive income in the year the asset is derecognised.

Depreciation is computed on a straight-line basis over the following estimated useful lives:

Buildings and structures (excluding commercial buildings)	15 – 63 years
Machinery and equipment	5 – 15 years
Vehicles	4 – 6 years
Other assets	3 – 8 years

Construction in progress is stated at cost less accumulated impairment. This includes the cost of construction, plant and equipment and other directly attributable costs. Construction in progress is not depreciated until the relevant assets are completed and put into operation.

2.7. Non-current assets held for sale

Non-current assets classified as held for sale are measured at the lower of carrying amount and fair value less costs to sell. Non-current assets are classified as held for sale if their carrying amounts will be recovered through a sale transaction rather than through continuing use. This condition is regarded as met

only when the sale is highly probable and the asset is available for immediate sale in its present condition. Property, plant and equipment once classified as held for sale are not depreciated.

If the Group has classified an asset as held for sale, but the above mentioned criteria are no longer met, the Group ceases to classify the asset as held for sale and measure a non-current asset that ceases to be classified as held for sale at the lower of: its carrying amount before the asset was classified as held for sale, adjusted for any depreciation, amortisation or revaluations that would have been recognised had the asset not been classified as held for sale, and its recoverable amount at the date of the subsequent decision not to sell. The adjustment to the carrying amount of a non-current asset that ceases to be classified as held for sale and recorded in profit or loss in the period in which the criteria are no longer met.

2.8. Inventories

Inventories are valued at the lower of cost or net realisable value, after impairment evaluation for obsolete and slow moving items. Net realisable value is the selling price in the ordinary course of business, less the costs of completion, marketing and distribution. Cost is determined by the first-in, first-out (FIFO) method. The cost of finished goods and work in progress includes the applicable allocation of fixed and variable overhead costs based on a normal operating capacity. Unrealisable inventory is fully written-off.

2.9. Receivables and loans granted

Receivables are initially recorded at the true value at the same moment as they were given. Later receivables and loans are accounted in justice to their depreciation.

2.10. Cash and cash equivalents

Cash includes cash on hand and cash with banks. Cash equivalents are short-term, highly liquid investments that are readily convertible to known amounts of cash with original maturities of three months or less and that are subject to an insignificant risk of change in value.

For the purposes of the cash flow statement, cash and cash equivalents comprise cash on hand, deposits at current accounts, and other short-term highly liquid investments.

2.11. Borrowings

Borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalised, otherwise – expensed as incurred. No borrowing costs were capitalised as of 30 September 2012 and 31 December 2011.

Borrowings are initially recognised at fair value of proceeds received, net of expenses incurred. They are subsequently carried at amortised cost, the difference between net proceeds and redemption value being recognised in the net profit or loss over the period of the borrowings (except for the capitalised portion as discussed above).

Borrowings are classified as non-current if the completion of a refinancing agreement before the balance sheet date provides evidence that the substance of the liability at the balance sheet date was non-current.

2.12. Derivative financial instruments

Derivative financial instruments are initially recognised at fair value on the date the derivative contract is entered into. Subsequent to initial recognition and measurement, outstanding derivatives are carried in the statement of financial position at the fair value. Fair value is determined using the discounted cash flow method applying the effective interest rate. The estimated fair values of these contracts are reported on a gross basis as financial assets for contracts having a positive fair value; and financial liabilities for

contracts with a negative fair value. Contracts executed with the same counterparty under legally enforceable master netting agreements are presented on a net basis. The Group had no derivative contracts outstanding as of 30 September 2012 and 31 December 2011.

Gain or loss from changes in the fair value of outstanding derivative contracts is recognised in the comprehensive income statement as they arise.

2.13. Factoring

Factoring transaction is a funding transaction wherein the company transfers to factor claim rights for determined fee. The companies alienate rights to receivables due at a future date according to invoices. At the date of the making this statement the Group had not such transactions.

2.14. Financial lease and operating lease

Finance lease – the Group as lessee

The Group recognises finance leases as assets and liabilities in the balance sheet at amounts equal at the inception of the lease to the fair value of the leased property or, if lower, to the present value of the minimum lease payments. The rate of discount used when calculating the present value of minimum payments of finance lease is the nominal interest rate of finance lease payment, when it is possible to determine it, in other cases, Group's composite interest rate on borrowings is applied. Directly attributable initial costs are included into the asset value. Lease payments are apportioned between the finance charges and reduction of the lease liability so as to achieve a constant rate of interest on the remaining balance of the liability.

Direct expenses incurred by the lessee during the lease period are included in the value of the leased asset.

The depreciation is accounted for finance lease assets and it also gives rise to financial expenses in the statement of comprehensive income for each accounting period. The depreciation policy for leased assets is consistent with that for depreciable assets that are owned. The leased assets cannot be depreciated over the period longer than the lease term, unless the Group according to the lease contract, gets transferred their ownership after the lease term is over.

If the result of sales and lease back transactions is finance lease, any profit from sales exceeding the book value is not recognised as income immediately. It is deferred and amortised over the finance lease term.

Operating lease – the Group as lessee

Leases where the lessor retains all the risk and benefits of ownership of the asset are classified as operating leases. Operating lease payments are recognised as an expense in the statement of comprehensive income on a straight-line basis over the lease term.

The gains from discounts provided by the lessor are recognised as a decrease in lease expenses over the period of the lease using the straight-line method.

If the result of sales and lease back transactions is operating lease and it is obvious that the transaction has been carried out at fair value, any profit or loss is recognised immediately. If the sales price is lower than the fair value, any loss is recognised immediately, except for the cases when the loss is compensated by lower than market prices for lease payments in the future. The loss is then deferred and it is amortised in proportion to the lease payments over a period, during which the assets are expected to be operated. If the sales price exceeds the fair value, a deferral is made for the amount by which the fair value is exceeded and it is amortised over a period, during which the assets are expected to be operated.

2.15. Grants and subsidies

Grants and subsidies (hereinafter Grants) received in the form of non-current assets or intended for the purchase, construction or other acquisition of non-current assets are considered as asset-related grants (mainly received from the EU and other structural funds). Assets received free of charge are also allocated to this group of grants. The amount of the grants related to assets is recognised in the financial statements as used in parts according to the depreciation of the assets associated with this grant. In the statement of comprehensive income, a relevant expense account is reduced by the amount of grant amortisation.

Grants received as a compensation for the expenses or unearned income of the current or previous reporting period, also, all the grants, which are not grants related to assets, are considered as grants related to income (mainly received from the EU and other structural funds). The income-related grants are recognised as used in parts to the extent of the expenses incurred during the reporting period or unearned income to be compensated by that grant.

2.16. Provisions

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. The provisions are reviewed at each balance sheet date and adjusted in order to present the most reasonable current estimate.

2.17. Non-current employee benefits

According to the collective agreement, each employee leaving the Company at the retirement age is entitled to a one-time payment. Employment benefits are recognised in the statement of financial position and reflect the present value of future payments at the date of the statement of financial position. The above mentioned employment benefit obligation is calculated based on actuarial assumptions, using the projected unit credit method. Present value of the non-current obligation to employees is determined by discounting estimated future cash flows using the discount rate which reflects the interest rate of the Government bonds of the same currency and similar maturity as the employment benefits. Actuarial gains and losses are recognised in the statement of comprehensive income as incurred.

2.18. Revenue recognition

Revenue is recognised when it is probable that the economic benefits associated with the transaction will flow to the Group and the amount of the revenue can be measured reliably. Sales are recognised net of VAT and discounts.

Revenue from sales of goods is recognised when delivery has taken place and transfer of risks and rewards has been completed.

Revenue from services is recognized on accrual basis when services are rendered.

In these consolidated financial statements intercompany sales are eliminated.

2.19. Impairment of assets

Financial assets

Financial assets are reviewed for impairment at each balance sheet date.

For financial assets carried at amortised cost, whenever it is probable that the Group will not collect all amounts due according to the contractual terms of loans or receivables, impairment is recognised in the statement of comprehensive income. The reversal of impairment losses previously recognised is recorded when the decrease in impairment loss can be justified by an event occurring after the write-down. Such reversal is recorded in the statement of comprehensive income. However, the increased carrying amount is only recognised to the extent it does not exceed the amortised cost that would have been had the impairment not been recognised.

Other assets

Other assets are reviewed for impairment whenever events or changes in circumstances indicate that carrying amount of an asset may not be recoverable. Whenever the carrying amount of an asset exceeds its recoverable amount, an impairment loss is recognised in the statement of comprehensive income. Reversal of impairment losses recognised in prior years is recorded when there is an indication that the impairment losses recognised for the asset no longer exist or have decreased. The reversal is accounted for in the same caption of the statement of comprehensive income as the impairment loss.

2.20. Subsequent events

Subsequent events that provide additional information about the Group's position at the balance sheet date (adjusting events) are reflected in the financial statements. Subsequent events that are not adjusting events are disclosed in the notes when material.

2.21. Offsetting and comparative figures

When preparing the financial statements, assets and liabilities, as well as revenue and expenses are not set off, except the cases when a certain International Financial Reporting Standard specifically requires such set-off.

3 Segment information

The Group's sole business segment identified for the management purposes is the production of refrigerators and specialised equipment, therefore this note does not include any disclosures on operating segments as they are the same as information provided by the Group in these financial statements.

Information for the reporting period 30 September 2012 and 30 September 2011 with respect to geographical location of the Group's sales and assets (in LTL thousand) is presented below:

Group	Total segment sales revenue		Inter-segment sales		Sales revenue		Total assets by its location *	
	2012	2011	2012	2011	2012	2011	2012	2011
Russia	8,845	1,391	-	(10)	8,845	1,381	22,629	23,550
Ukraine	55,309	40,314	-	-	55,309	40,314	66	76
Western Europe	22,819	31,842	-	-	22,819	31,842	-	-

10 Non-current intangible assets

	Balance sheet value	
	30 09 2012	31 12 2011
Development costs	4,318,300	4,910,162
Software, license	62,885	57,055
Other intangible assets	687,603	-
Total:	5,068,788	4,967,217

Non-current intangible assets depreciation expenses are included under operating expenses in the profit (loss) account.

Over the 9 months of 2012, the Group has accumulated LTL 583 thousand (9 months of 2011 - LTL 566 thousand) of non-current intangible assets depreciation.

11 Non-current tangible assets

	Balance sheet value	
	30 09 2012	31 12 2011
Land and buildings	9,255,943	9,508,019
Machinery and equipment	16,281,873	19,033,637
Vehicles and other	1,428,021	1,667,070
Construction in progress and advance payments	309,938	492,635
Total:	27,275,775	30,701,361
Investment asset	19,116,948	19,263,247
Assets held for sale	2,222,081	2,144,363
Total:	48,614,804	52,108,971

The depreciation charge of the Group's property, plant and equipment on 30 September, 2012 amounts to LTL 5,281 thousand (LTL 5,481 thousand for 2011). The amount of LTL 4,195 thousand for 2012 (LTL 4,380 thousand for 2011) was included into production costs. The remaining amount of LTL 1,086

thousand including depreciation of investment property (LTL 1,101 thousand for 2011) was included into administration expenses in the Group's statement of comprehensive income.

At 30 September 2012 buildings of the Group with the net book value of LTL 7,127 thousand (as of 31 December 2011 – LTL 7,359 thousand) and machinery and equipment with the net book value of LTL 8,248 thousand (as of 31 December 2011 – LTL 5,870 thousand) were pledged to banks as a collateral for the loans (Note 20).

In order to assure the proper fulfilment of Group's liabilities to suppliers according to legal proceedings, the rights to machinery and equipment with the net book value of LTL 768 thousand as of 30 September 2012 (as of 31 December 2011 – LTL 1,047 thousand) were limited by law.

Although the peace treaty was signed, but at the report release date pending abolition of collaterals.

12 Inventories

	<u>30 09 2012</u>	<u>31 12 2011</u>
Raw materials, spare parts and production in progress	13,538,456	8,198,991
Finished goods	4,444,258	5,627,944
Other	414,281	-
Total inventories, gross	<u>18,396,995</u>	<u>13,826,93</u>
Less: net realizable value allowance	<u>(595,094)</u>	<u>(595,094)</u>
Total inventories, net	<u>17,801,901</u>	<u>13,231,84</u>

Raw materials and spare parts consist of compressors, components, plastics, wires, metals and other materials used in the production.

As described in Note 20, in order to secure the repayment of bank loans, the Group pledged inventories with the value of not less than LTL 10,500 thousand as of 30 June 2012 (as of 31 December 2011 – LTL 10,500 thousand).

13 Trade receivables

Trade receivables were composed as follows:

	<u>30 09 2012</u>	<u>31 12 2011</u>
Trade receivables from the Group companies	38,138,358	26,306,167
Less: allowance for doubtful trade receivables	<u>(14,497,627)</u>	<u>(13,115,430)</u>
	<u>23,640,731</u>	<u>13,190,737</u>

Trade receivables are non-interest bearing and are generally on 30 – 90 days terms.

As of 30 September 2012 trade receivables with the carrying value of LTL 14,498 thousand (as of 31 December 2011 – LTL 13,115 thousand) were impaired and fully provided for. Change in valuation allowance for doubtful trade receivables was included within administration expenses.

In Note 13 the Group's trade receivables amounting only LTL 6,555 thousand as of 30 September 2012 (LTL 4,157 thousand as of 31 December 2011) were insured by credit insurance Atradius Sweden Kreditförsäkring Lithuania branch.

Movements in the assessed impairment of trade receivables were as follows:

	30 09 2012	31 12 2011
Balance at the beginning of the period	(13,115,429)	(13,585,026)
Charge for the year	(1,123,638)	(87,431)
Write-offs of trade receivables	28,442	224,893
Effect of the change in foreign currency exchange	(332,014)	279,495
Amounts paid	45,012	52,639
Balance in the end of the period	(14,497,627)	(13,115,430)

Receivables are written off when it becomes evident that they will not be recovered.

The ageing analysis of trade receivables as of 30 September 2012 and 31 December 2011 is as follows:

	Trade receivables neither past due nor impaired	Trade receivables past due but not impaired					Total
		Less than 30 days	30 – 60 days	60 – 90 days	90 – 120 days	More than 120 days	
2012	18,491,842	4,648,222	255,465	17,732	61,260	166,210	23,640,731
2011	9,748,804	2,218,263	526,531	233,792	286,157	177,190	13,190,737

At 30 of September Group signed factoring without recourse agreement, which hasn't been used. As of 31 December 2011 the Group had no factoring with recourse agreements, therefore no limitations on disposable assets were present.

14 Other current assets

	30 09 2012	31 12 2011
Prepayments and deferred expenses	493,373	1,704,548
VAT receivable	709,479	535,286
Compensations receivable from suppliers	897	60,072
Restricted cash	15,000	15,000
Granted loans	3,659,968	
Other receivables	1,584,089	1,811,345
Less: valuation allowance for doubtful other receivables	(1,474,717)	(1,431,114)
	4,988,089	2,695,137

Change in valuation allowance for doubtful other receivables was included within administration expenses.

Movements in the individually assessed impairment of other receivables were as follows:

	30 09 2012	31 12 2011
Balance at the beginning of the period	(1,431,114)	(1,469,690)
Charge for the year	-	-
Effect of the change in foreign currency exchange rate	(43,603)	37,800
Amounts paid	-	776
Balance in the end of the period	(1,474,717)	(1,431,114)

15 Cash and cash equivalents

	30 09 2012	31 12 2011
Cash at bank	2,325,278	952,623
Cash on hand	13,344	7,863

As of 30 June 2012 the accounts of the Group in foreign currency and Litas up to LTL 15,085 thousand (up to LTL 12,085 thousand in 2011) are pledged as a collateral for bank loans (Note 20).

16 Share capital

According to the Law on Companies of the Republic of Lithuania the Company's total equity cannot be less than 1/2 of its share capital specified in the Company's by-laws. As on the 30 of September 2012 and of 31 December 2011, the Company was in compliance with this requirement.

17 ReservesLegal reserve

A legal reserve is a compulsory reserve under Lithuanian legislation. Annual transfers of not less than 5% of net profit are compulsory until the reserve reaches 10% of the share capital. At 31 of December 2012 the statutory reserve was not fully formed.

As of 30 September 2012 the legal reserve amounted to LTL 2,884 thousand.

Non-restricted reserves

Other reserves are formed based on the decision of the General Shareholders' Meeting for special purposes. All distributable reserves before distributing the profit are transferred to retained earnings and redistributed annually under a decision of the shareholders.

As of 30 September 2012 other distributable reserves consisted of a reserve for investments amounting to LTL 2,212 thousand (as of 31 December 2011 - LTL 1,158 thousand) and reserve for social and cultural needs amounting to LTL 30 thousand (as of 31 December 2011 – LTL 30 thousand).

Foreign currency translation reserve

The foreign currency translation reserve is used for translation differences arising upon consolidation of the financial statements of foreign subsidiaries.

Exchange differences are classified as equity in the consolidated financial statements until the disposal of the investment. Upon disposal of the corresponding investment, the cumulative revaluation of translation reserves is recognised as income or expenses in the same period when the gain or loss on disposal is recognised.

The subsidies were received for the renewal of production machinery and repairs of buildings in connection with the elimination of CFC 11 element from the production of polyurethane insulation and filling foam, and for elimination of green house gases in the manufacturing of domestic refrigerators and freezers. Subsidies are amortised over the same period as the machinery and other assets for which subsidies were designated when compensatory costs are incurred. The amortisation of subsidies is included in production cost against depreciation of machinery and reconstruction of buildings for which the subsidies were designated.

19 Provisions for guarantee related liabilities

The Group provides a warranty of up to 2 years for the production sold since 1 January 2009 (up to 3 years before 1 January 2009). The provision for warranty repairs was accounted for based on the expected cost of repairs and statistical warranty repair rates and divided respectively into non-current and current provisions.

25 Risk and capital managementCredit risk

The maximum exposures of the credit as of 30 September 2012 and as of 31 December 2011 comprise the carrying values of receivables, cash and cash equivalents.

Concentration of trading counterparties of the Group is average. As of 30 September 2012 amounts receivable from the main 10 customers of the Group accounted for approximately 55.11 % (58.64 % as of 31 December 2011) of the total Group's trade receivables.

The credit policy implemented by the Group and credit risk is constantly controlled. Credit risk assessment is applied to all clients willing to get a payment deferral.

At 2012 30th of September the Group's trade receivables, after elimination of reserves, was 23,641 thousand LTL, 6,555 thousand LTL was insured by credit insurance in "Atradius Sweden Kreditförsäkring" Lithuania Branch (at 2011 31st of December trade receivables was 13,191 thousand LTL insured 4,157 thousand LTL).

In accordance with the policy of receivables recognition as doubtful, the payments variations from agreement terms are monitored and preventive actions are taken in order to avoid overdue receivables in accordance with the standard of the Group entitled "Trade Credits Risk Management Procedure".

According to the policy of the Group, receivables are considered to be doubtful if they meet the following criteria:

- the client is late with settlement for 60 and more days, receivable amount is not covered by insurance and it does not come from subsidiaries;
- factorised clients late with settlement for 30 and more days;
- client is unable to fulfil the obligations assumed;

- reluctant to communicate with the seller;
- turnover of management is observed;
- reorganisation process is observed;
- information about tax penalties, judicial operation and restrictions of the use of assets is observed;
- bankruptcy case;
- inconsistency and variation in payments;
- other criteria.

The Group's management believes that its maximum exposure is equal to the trade receivables netted with allowance losses recognized as at the balance sheet date.

Interest rate risk

The part of the Group's borrowings is with variable rates, related to VILIBOR and EURIBOR, which creates an interest rate risk. The Group did not use any financial instruments to manage interest rate risk.

Liquidity risk

The Group's policy is to maintain sufficient cash and cash equivalents by using cash flows statements with liquidity forecasting for future periods. The statement comprises predictable cash flows of monetary operations and effective planning of cash investment if it is necessary.

The purpose of the Group's liquidity risk management policy is to maintain the ratio between continuous financing and flexibility in using overdrafts, bank loans, bonds, financial and operating lease agreements.

The Group seeks to maintain sufficient financing to meet the financial liabilities on time.

Group's management reached an agreement with the banks on some of the financial burden of the timing delay and also secured additional cash inflows needed to finance the Group's operations.

Foreign exchange risk

The Company significantly reduced income earned in US dollars, in this way receivable incomes became very close to the commitments in USD. Liabilities in US dollars as of 30 September 2012 were only 50 thousand US dollars (as of 31 December 2011 were only 166 thousand US dollars). Consequently, foreign exchange risk decreased because most of income is earned in Euros, Litas is pegged to euro at the rate of 3.4528 litas for 1 euro.

Capital management

The Group manages share capital, share premium, legal reserves, reserves, foreign currency translation reserve and retained earnings as capital. The primary objective of the Group's capital management is to ensure that the Group complies with the externally imposed capital requirements and to maintain appropriate capital ratios in order to ensure its business and to maximise the shareholders' benefit.

The Group manages its capital structure and makes adjustments to it in the light of changes in the economic conditions. To maintain or adjust the capital structure, the Group may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares. As described in Note 1, 8,886,680 ordinary shares with the nominal value of LTL 1 each were issued in 2011.

A company is obliged to keep its equity up to 50% of its share capital, as imposed by the Law on Companies of Republic of Lithuania. As of 30 September 2012 and as of 31 December 2011 the Company complied with this requirement. There were no other significant externally imposed capital requirements on the Group.

26 Commitments and contingencies

The General Meeting of shareholders of Snaige AB was held on 30 April 2012. At the meeting following resolutions were made:

- Approved the Company's financial statements for the year 2011.
- Approved the distribution of profit (loss) (LTL 45.4 thousand – to reserves foreseen by law, LTL 30 thousand - for social and cultural needs and LTL 2 021 thousand – to reserve for investments).

Elected „Ernst & Young Baltic“ UAB for 2012 auditing purposes of annual financial statements
