### MANAGEMENT REPORT

First quarter of 2022 (compared with the same period a year ago):

- Revenue increased by 4.6 per cent and amounted to EUR 104.2 million (EUR 99.7 million).
- Adjusted EBITDA (excl. non-recurring items) went up by 4.8 per cent to EUR 35.6 million (EUR 34 million).
- EBITDA increased by 2.6 per cent and amounted to EUR 35.7 million (EUR 34.8 million).
- Profit for the period went down by 6.8 per cent to EUR 12.2 million (EUR 13.1 million).
- Free cash flow decreased by 21.6 per cent and amounted to EUR 17.6 million (EUR 22.4 million).

### Management comment:

The year 2022 started with the hope that COVID-19 caused pandemic is retreating and we will return to business as usual. In the beginning of February we modestly celebrated the fifth anniversary of the merge of mobile and fixed communication business under one Telia brand, but the end of February brought unimaginable thing – war in Ukraine.

Reacting to the Russian Federation's military invasion into Ukraine, from 24 February till the end of March we provided free and unlimited calls and SMS to and from Ukraine. Starting from April calls and SMS from Lithuania to Ukraine are provided with 80 per cent discounts (i.e. at cost) and customers of Telia Lietuva within Ukraine during the whole April could call, text and browse the Internet free of charge. We also offered an unlimited number of prepaid mobile communication SIM cards with communication services to Ukrainian war refugees arriving to Lithuania. For Ukrainian businesses considering or preparing to relocate to Lithuania, the Company has prepared a special support package including broadband Internet, voice telephony and mobile connection as well as IT services. Following the sanctions imposed by European Union and the United States of America, and orders of the Radio and Television Commission of Lithuania, we suspended rebroadcasting of Russian TV channels. Moreover, we made 12 international TV news and information channels available to all Telia TV service users free of charge.

As provider of telecommunication and IT services, we have a limited exposure to telecommunication operators and some customers, users of webhosting and cloud services provided by the Company, from the Russian Federation and the Republic of Belarus. The Company is reconsidering continuation of those relationship due to imposed sanctions and possible settlements disruption in order to mitigate accumulation of overdue or bad debts. The Management of the Company has considered the possible impact of sanctions imposed by EU and the U.S.A. to certain legal and natural entities of the Russian Federation and the Republic of Belarus, and has determined that they do not create a material uncertainty that casts significant doubt regarding the Company's ability to continue as a going concern. The possible negative impact of currently imposed sanctions in case they will be valid through the whole year 2022 are estimated to be below 1 per cent of the Company's annual revenue and below 2 per cent of the Company's annual EBITDA.

During the first three months of 2022 we continue preparations for 5G communication era: more than 200 base stations were upgraded with Ericsson equipment supporting 2G, 3G, 4G and 5G connectivity in addition to more than 450 already modernised base stations. In January, we were the first in Lithuania to activate the currently for 4G connection used 2,100 MHz frequencies for 5G network in 20 base stations in Vilnius. The next-generation technology runs in Dynamic Spectrum Sharing mode, which allows the same frequency band to be used in parallel for both 4G and 5G connection. More than EUR 4.2 million out of total EUR 13.3 million investments were allocated to modernisation of the Company's mobile network during the first quarter of 2022. Quarterly investments were by almost the tenth higher than a year ago.

During January- March of 2022, the number of mobile service users increased by 14 thousand, number of broadband Internet users went up by 1 thousand, while number of TV service users eased by 1 thousand mainly due to switch off of Russian TV channels. Over the last twelve months:

- number of mobile service subscriptions grew by 10.6 per cent up to 1,532 thousand,
- number of fiber-optic Internet connections went up by 2.3 per cent up to 306 thousand,
- number of TV service users increased by 0.4 per cent up to 254 thousand.

Double digit growth of revenue from mobile communication and IT services continues, while revenue from TV services slightly went down due to customers' churn. In spite of 80 per cent higher than a year ago expenses for electricity and continuously increasing employee related expenses, we managed to ensure an EBITDA growth. Higher than in 2021 depreciation and amortisation charges as well as higher income tax had a negative impact on the profit for the period.

Telia Lietuva was named the most environmentally friendly among the large companies by the National Responsible Business Awards. We were recognised for our sustainable business decisions and responsible supply chain design.

For the approval of the General Meeting of Shareholders, the Board proposed to allocate EUR 58.3 million or EUR 0.10 dividends per share for the year 2021, and to pay EUR 33 thousand as tantiems to two independent Board members.

### **KEY FIGURES**

#### **REVENUE**

	January-Ma	arch	Change
Breakdown of revenue by services	2022	2021	(%)
Fixed services	46,961	45,529	3.1
Voice telephony services	9,772	10,134	(3.6)
Internet services	16,861	15,457	9.1
TV services	9,616	9,748	(1.4)
Data communication and network capacity	4,407	4,363	1.0
IT services	4,479	3,944	13.6
Other services	1,826	1,883	(3.0)
Mobile services	35,130	32,152	9.3
Billed services	31,371	27,703	13.2
Other mobile service	3,759	4,449	(15.5)
Equipment	22,121	21,974	0.7
Total	104,212	99,655	4.6

Share of revenue from fixed and mobile communication services amounted to 45.1 and 33.7 per cent, respectively, from the total revenue for the three months of 2022. Share of revenue from equipment sales reached 21.2 per cent. Revenue from services provided to residential customers (B2C) amounted to 63.7 per cent and to business customers (B2B) – 36.3 per cent of the total revenue for January-March of 2022.

During January-March of 2022, the number of post-paid **mobile** communication service subscriptions increased by 9 thousand and number of pre-paid service subscription went up by 5 thousand. Over the last twelve months, the total number of active mobile subscriptions went up by 147 thousand. More customers and continuously increasing usage of mobile data and ARPU resulted in growth of revenue from billed mobile services.

During 2022, the Company plans gradually to switch off 3G mobile network. The frequencies used for 3G mobile communication are assigned to more advanced 4G technology. Every-second call in mobile network of the Company is already made using VoLTE (Voice over LTE) technology.

Eased restrictions on cross-border travelling resulted in recovery of revenue from roaming charges, but regulated networks' interconnection fees push down revenue from mobile network interconnection and caused the decline of revenue from **other mobile services**.

During the first quarter of 2022, the number of fixed telephony lines eased by 7 thousand, while over the last twelve months it went down by 30 thousand. Revenue from voice transit service during January-March of 2022 was almost 5 per cent higher than a year ago and partially compensated decline in revenue from retail **voice telephony** services caused by lower number of fixed telephony customers.

The Company has completed a project for upgrade of cooper network used for the provision of DSL Internet. Over the four years EUR 10.5 million was invested into modernisation of almost 1,600 network nodes throughout the Lithuania. Employment of Super VDSL technology allowed to increase the broadband DSL Internet speeds more than 10 times: from a maximum download speed of up to 20 Mbps to 250 Mbps, given specific conditions. The real speed depends on the length and quality of the copper line connecting the Company's exchange and the back-end equipment. This slowed down the decline in number of DSL Internet users in the areas where fiber-optic access is not available.

During the first three months of 2022, the number of fixed **broadband Internet** access users over fiber-optic network using FTTH/B technologies increased by 1 thousand, while number of broadband Internet service users over the copper DSL connections remained flat. Over the last twelve months, the number of Internet connections over the fiber-optic network, that ensures Internet speeds of up to 1 Gbps, increased by 7 thousand, while the number of copper DSL connections eased by 3 thousand. Over the year, the total net increase in number of broadband Internet users was 4 thousand.

Due to turn off of Russian TV channels from the end of February, the number of smart **television** (IPTV) service users during the first quarter of 2022 went down by 1 thousand, while over the last twelve months it increased by 1 thousand.

Revenue from **IT services** continues to show a double digit growth due to ongoing demand for various IT services ranging from virtual private network (VPN) and computerised workplace management to cloud computing and tailor-made IT solutions.

In response to ever growing demand for IT services, the Company had purchased a 2-hectare land plot near Vilnius for erection of a new data center. The Company plans to invest EUR 10 million into construction of the largest data centre in the country.

In the beginning of 2022, the Company and Lithuanian Railways (LTG) have signed two agreements according to which Telia Lietuva will design and implement data transmission solutions in the LTG network. Both agreements might be worth up to EUR 7 million. It will be one of the largest projects on LTG network modernisation in Lithuania in the last decade. It will cover all levels – starting from replacement of network nodes, implementation of security and network management systems and finishing with cable installation and transfer of the existing services to the upgraded network.

Revenue from **other services** consists of the non-telecommunication services such as Directory Inquiry service 118 provided to external customers till 1 March 2021, lease of premises, discount refunds and other. In March 2021, the Company terminated provision of commercial information such as companies' contacts, transport timetables, business, leisure and other information by the Directory Inquiry service 118. Only obligatory information about publicly announced subscribers' phone numbers is provided by the phone number 118.

Gain or loss from sale of property, plant and equipment, as well as gain or loss on currency exchange is recorded at net value as **other gain (loss)**. In the beginning of 2021, the Company sold an office building in Kaunas and recorded EUR 1,167 thousand gain from sale of property. During the first quarter of 2022, the gain from sale of property amounted to EUR 247 thousand.

### MARKET INFORMATION

According to the Report of the Communications Regulatory Authority (CRA), the Lithuanian electronic communications market in terms of revenue for the year 2021 amounted to EUR 762.1 million, an increase by 4.1 per cent over the total market revenue of EUR 731.8 million for January-December of 2020, mainly due to growth in mobile and fixed Internet access segments.

Telia Lietuva remains the largest telecommunications' service provider in Lithuania with the market share (in term of revenue) of 38.4 per cent for the fourth quarter of 2021 with the leaders' position on fixed broadband Internet, pay TV and fixed voice telephony markets, while on mobile voice and mobile Internet markets the Company occupies the third place.

	The market shares in terms of customers (%)			nares in terms of nue (%)
	Q4 2021	Change (p.p.) (y-o-y)	Q4 2021	Change (p.p.) (y-o-y)
Fixed voice telephony services	79.2	(2.0)	84.1	(1.3)
Mobile voice telephony services	28.6	(0.1)	27.8	0.6
Fixed Internet access	52.7	0.5	60.8	0.9
Mobile Internet access	28.2	(0.4)	26.6	(0.1)
Pay-TV services	38.7	1.6	47.9	1.2
Data communication services	n/a	n/a	53.6	(2.6)

According to the Report of the CRA, on 31 December 2021, broadband Internet penetration per 100 residents of Lithuania was 56 per cent (53.2 per cent a year ago) and pay-TV penetration per 100 households was 46.9 per cent (50.2 per cent a year ago). The penetration of active mobile voice communication users per 100 residents was 133.3 per cent (130.6 per cent a year ago) and penetration of fixed voice telephony lines per 100 households – 19.1 per cent (22.4 per cent a year ago).

### **EXPENSES**

Cost of goods and services increased due to higher network, and other goods and services costs in 2022, while costs of networks' interconnection and roaming charges as well as costs of goods went slightly down. Higher employees' salaries and accruals for vacations continuously push employee related expenses up. Almost 80 per cent higher than a year ago energy expenses electricity tariffs and higher premises maintenance expenses resulted in growth of other expenses.

	January-March		Change	
	2022	2021	(%)	
Cost of goods and services	(40,326)	(38,991)	3.4	
Operating expenses:	(28,379)	(27,048)	4.9	
Employee related	(14,597)	(14,127)	3.3	
Other	(13,782)	(12,921)	6.7	
Non-recurring expenses	(142)	(347)		
Operating expenses (excl. non-recurring expenses)	(28,237)	(26,701)	5.8	
Employee related	(14,499)	(13,793)	5.1	
Other	(13,737)	(12,908)	6.4	

During the first three months of 2022 **non-recurring** redundancy pay-outs amounted to EUR 98 thousand (EUR 334 thousand a year ago) and other non-recurring expenses amounted to EUR 45 thousand (EUR 13 thousand in 2021).

Number of employees	31-03-2022	31-12-2021	Change	31-03-2022	31-03-2021	Change
Headcounts	2,101	2,095	6	2,101	2,136	(35)
Full-time employees	1,954	1,939	15	1,954	1,984	(30)

While counting full-time employees, the number of part-time employees is recalculated into the number of full-time employees, and this number does not include employees on maternity/paternity leave.

### **EARNINGS**

In spite of higher cost of goods and services, and increase in operating expenses (especially electricity) EBITDA for the first quarter of 2022, compared with the same period a year ago, had increased. Higher capital investments and accelerated depreciation of Huawei equipment used in the mobile network and to be substituted with Ericsson equipment resulted in higher depreciation and amortisation charges in 2022, and that had a negative effect on Operating profit.

	January-March		Change	
	2022	2021	(%)	
EBITDA	35,687	34,776	2.6	
Margin (%)	34.2	34.9		
Depreciation, amortisation and impairment charges	(20,750)	(19,614)	5.8

Assets for sale	2,703	982	175.3
Shareholders' equity	342,233	344,577	(0.7)

The Board of the Company proposed to the Annual General Meeting of Shareholders to be held on 28 April 2022 to allocate from the Company's distributable profit of EUR 144.2 million an amount of EUR 58.3 million for the payment of **dividends** for the year 2021, i.e. EUR 0.10 dividend per share, and carry forward to the next financial year an amount of EUR 85.9 million as retained earnings (undistributed profit).

Dividends paid to legal entities (residents and non-residents) will be subject to withholding Corporate income tax of 15 per cent and dividends paid to natural persons (residents and non-residents) will be subject to withholding Personal income tax of 15 per cent.

During the second half of 2021, in order to avoid negative interest rate charged for the Company's residuals at the banks and following the Board's approval the Company started to grant loans to the largest shareholder of the Company, Telia Company AB, for up to three months at a zero interest rate. The lent funds are available to the Company on demand within 2 business days. As of 31 March 2022, the total amount of lending to the Parent company amounted to EUR 65 million.

In November 2021, the Company repaid a half (EUR 30 million) of a syndicated banks' loan of EUR 60 million granted in May 2017. The outstanding amount of EUR 30 million will be repaid in May 2024.

_	31-03-2022	31-03-2021
Loans from banks	30,000	60,000
Liabilities under reverse factoring agreements	126,952	63,406
Liabilities under financial lease agreements	364	1,194
Borrowings	157,316	124,600
Cash and cash equivalents	79,793	77,715
Net debt	77,523	46,885
Net debt to equity (Gearing) ratio (%)	22.7	13.6

The Company participates in reverse factoring or Supplier Invoice Financing (SIF) program where suppliers' invoices are paid by the banks within 7 days for an agreed fee which is covered by supplier. The Company does not pay any credit fees and does not provide any additional collateral or guarantee to the banks. The Company pays to the banks full invoice amount in up to one-year period (actual term depends on few variables agreed between all three parties). As of 31 March 2022, there were 31 suppliers which participated in SIF program.

	January-March		Change

Other	29	565	(94.9)	
Total capital investments	13,280	12,123	9.5	
Capital investments to revenue ratio (%)	22.4	13.7		

In 2021, the Company has started a major upgrade of its **radio access network** (RAN) with Ericsson equipment thus phasing out Huawei equipment earlier used in Telia Lietuva mobile network. Over the next three years, the Company plans to upgrade around 2,000 sites in Lithuania. This will further improve the quality of 4G networks and ensure a fast upgrade to 5G, which will eventually be available throughout the country. As of 31 March 2022, more than 650 base stations that support 2G, 3G, 4G and 5G connection were already upgraded with Ericsson equipment.

Since December 2018, the Company has been testing non-commercial 5G frequencies granted by the Lithuanian Communications Regulatory Authority (CRA) in Lithuania. Starting from November 2020, private and business customers were able to try 5G connectivity free of charge in Vilnius, Kaunas, Raseiniai and Klaipėda. In January 2022, the Company was the first one in Lithuania to activate the currently available 2100 MHz frequencies for 5G network in 20 base stations in Vilnius. The next-generation technology runs in Dynamic Spectrum Sharing mode, which allows the same frequency band to be used in parallel for both 4G and 5G connection.

According to the latest CRA measurement data, the average Internet download speed in the Company's mobile network in the eastern part of the country reached 131.4 Mbps. At the end of 2021, the average Internet download speed in the Company's mobile network was the highest in the whole country and amounted to 104.5 Mbps (85.1 Mbps at the end of 2020). The Company's 4G network is available in all open areas across the entire country.

By the end of March 2022, the Company had 955 thousand households passed (939 thousand a year ago), or almost 70 per cent of the country's households, by the fiber-optic network.

	January	January-March	
	2022	2021	(%)
Net cash from operating activities	34,226	32,049	6.8
Operating free cash flow	17,577	22,420	(21.6)

Operating free cash flow is operating cash flow excluding capital investments. During the first quarter of 2022 settlement for record high capital investment made during the fourth quarter of 2021 was made.

### SHARE CAPITAL AND SHAREHOLDERS

The **authorised capital** of the Company amounts to 168,957,810.02 euro and consists of 582,613,138 ordinary registered shares with a nominal value of 0.29 euro each. The number of the Company's shares that provide voting rights during the General Meeting is 582,613,138.

582,613,138 ordinary registered shares of Telia Lietuva, AB (ISIN code LT0000123911) are listed on the Main List of Nasdaq Vilnius stock exchange (code: TEL1L). Nasdaq Vilnius stock exchange is a home market for the Company's shares.

From January 2011, the Company's shares are included into the trading lists of Berlin Stock Exchange (Berlin Open Market (Freiverkehr), Frankfurt Stock Exchange (Open Market (Freiverkehr), Munich Stock Exchange and Stuttgart Stock Exchange. Telia Lietuva share's symbol on German stock exchanges is ZWS.

Information on trading in Telia Lietuva shares on Nasdaq Vilnius stock exchange in January-March of 2022:

### 3 Investments in subsidiaries and associates

The associate included in the financial statements is indicated below:

	_	Ownership interest in %		_
	Country of	31 March	31 December	
Name	incorporation	2022	2021	Profile
VšĮ Numerio Perkėlimas	Lithuania	50%	50%	A non-profit organization established by Lithuanian telecommunications operators administers central database to ensure telephone number portability.

### 4 Share capital

The authorised share capital comprises of 582,613,138 ordinary shares of EUR 0.29 nominal value each. All shares are fully paid up.

### 5 Provisions

Provisions movement during January - March 2022:

	Provision for restructuring	Assets retirement obligation	Total
Opening net book amount at 31 December 2021	-	12,398	12,398
Additions	-	-	-
Used provisions		-	<u>-</u>
Closing net book amount at 31 March 2022		12,398	12,398

The restructuring provision comprises of compensation to employees due to the restructuring plan (if any) approved by the Company. No restructuring provisions made in 2022.

### 5 Provisions (continued)

The Company leases land for the construction of mobile stations. Upon expiry of the lease term the mobile stations should be disassembled, and land restored so that it could be returned to the land owner in a condition it was before the lease. Similarly, the Company has telecommunication equipment installed in the premises or on the buildings leased from third parties. This equipment will have to be disassembled when the lease agreement expires. To cover these estimated future costs, assets retirement obligation has been recognised. The Company expects that assets retirement obligation will be realised later than after one year. Therefore, the whole amount of assets retirement obligation has been classified as non-current provision for other liabilities and charges.

#### 6 Income tax

The tax expenses for the period comprise current and deferred tax.

Profit for 2022 is taxable at a rate of 15 per cent in accordance with Lithuanian regulatory legislation on taxation (2021: 15 per cent).

According to the Law on Corporate Profit Tax which provides tax relief for investments in new technologies, the Company's calculated profit tax relief in 2022 amounted to EUR 0.8 million (in 2021: EUR 0.5 million).

### 7 Earnings per share

Basic earnings per share are calculated by dividing the net profit (loss) for the period by the weighted average number of ordinary shares in issue during the period. The Company has no dilutive potential ordinary shares and therefore diluted earnings per share are the same as basic earnings per share. The weighted average number of shares for the both reporting periods amounted to 582,613 thousand.

	January-March	
	2022	2021
Net profit	12,179	13,070
Weighted average number of ordinary shares in issue (thousands)	582,613	582,613
Earnings per share (euro)	0.021	0.022

### 8 Dividends per share

A dividend that relates to the period to 31 December 2021 to be approved by the Annual General Meeting of Shareholders on 28 April 2022. The total proposed amount of allocated dividend, that should be paid off in May 2022, is EUR 58,261 thousand or EUR 0.10 per ordinary share.
