BELOW IS A DESCRIPTION OF THE RISK FACTORS THAT ARE MATERIAL FOR THE ASSESSMENT OF THE MARKET RISK ASSOCIATED WITH THE NOTES AND RISK FACTORS THAT MAY AFFECT THE ISSUER'S ABILITY TO FULFIL ITS OBLIGATIONS UNDER THE NOTES. SHOULD ONE OR MORE OF THE RISKS DESCRIBED BELOW MATERIALISE, THIS MAY HAVE A MATERIAL ADVERSE EFFECT ON THE CASH FLOWS, RESULTS OF OPERATIONS, AND FINANCIAL CONDITION OF THE ISSUER AND THE GROUP. MOREOVER, IF ANY OF THESE RISKS MATERIALISE, THE MARKET VALUE OF THE NOTES AND THE LIKELIHOOD THAT THE ISSUER WILL BE IN A POSITION TO FULFIL ITS PAYMENT OBLIGATIONS UNDER THE NOTES MAY DECREASE, IN WHICH CASE THE POTENTIAL INVESTORS COULD LOSE ALL OR PART OF THEIR INVESTMENTS.

BEFORE DECIDING TO PURCHASE THE NOTES, POTENTIAL INVESTORS SHOULD CAREFULLY REVIEW AND CONSIDER THE FOLLOWING RISK FACTORS, IN ADDITION TO ALL OTHER INFORMATION PRESENTED IN THE TERMS OF THE NOTES ISSUE, AND CONSULT WITH THEIR OWN PROFESSIONAL ADVISORS IF NECESSARY. MOREOVER, POTENTIAL INVESTORS SHOULD BEAR IN MIND THAT SEVERAL OF THE DESCRIBED RISK FACTORS CAN OCCUR SIMULTANEOUSLY AND TOGETHER WITH OTHER CIRCUMSTANCES COULD HAVE A POTENTIALLY STRONGER IMPACT ON THE ISSUER OR THE GROUP. THIS IS NOT AN EXCLUSIVE LIST OF RISK FACTORS, AND ADDITIONAL RISKS, OF WHICH THE ISSUER IS NOT PRESENTLY AWARE, COULD ALSO HAVE A MATERIAL ADVERSE EFFECT ON THE ISSUER AND THE GROUP.

1. Risk Factors

1.1. Risk factors relating to the Issuer and its business

The risks indicated in this clause may reduce the Issuer's ability to fulfil its obligations and cause its insolvency in the worst-case scenario. Potential Investors and Investors have to take into account that Notes are unsecured. This clause may not feature all the potential risks, which may affect the Issuer.

The order in which the risks are presented does not reflect the likelihood of their occurrence or the magnitude of their potential impact on the Issuer. In addition, Potential Investors and Investors should be aware that the risks described therein might combine and thus intensify one another. Additional risks and uncertainties, which are currently not known to the Issuer or which the Issuer currently believes are immaterial, could also impair the business, cash flows, results of operations and their financial condition.

1.1.1. Changes in regulatory enactments and policies

The Issuer carries out its activity in Latvia and most of the risks, which affect it, are related to the economic situation, legal and regulatory framework of Latvia, where the Issuer carries out its business.

Currently, the activity of the Issuer and other non-bank credit companies in Latvia is regulated by Consumer Rights Protection Law, Cabinet Regulation No. 691 of 25 October 2016, "Regulations on Consumer Credit" and Cabinet Regulation No. 245 of 29 March 2011, "Regulations Regarding a Special Permit (Licence) of Consumer Credit Services", which, among other things, determine the need for a licence, as well as payments of the annual prolongation state fee. Other examples of regulations applicable to the Issuer are Law on Out-Of-Court Consumer Dispute Resolution Bodies, Personal Data Processing Law; Unfair Commercial Practice Prohibition Law; Law on Extrajudicial Recovery of Debt, and Civil Law.

Any material changes in the existing Applicable Laws or implementation of any new Applicable Laws in the Republic of Latvia or EU might negatively affect the business and solvency of the Issuer.

1.1.2. Regulatory and licensing risk

Consumer Rights Protection Centre (Regulator, <https://www.ptac.gov.lv/lv>) carries out supervisory functions for consumer finance and debt collection companies in the Republic of Latvia. Regulator issues the aforementioned licenses for companies in these sectors.

The Issuer is licensed consumer finance company and has obtained a non-terminated license.

Regulator is entitled to withdraw or suspend licenses in case there are breach of regulations set forth by Applicable Laws of the Republic of Latvia. The Issuer believes that the risk of losing or suspending license is managed by following Regulator’s regulations and recommendations. Nevertheless, the risk that the regulator may interpret or enforce existing requirements in new ways that could restrict the Issuer’s ability to continue its current way of operation or impose significant additional compliance costs on the Issuer cannot be ruled out.

Furthermore, the government and the Regulator may seek to impose new laws, regulatory restrictions or licensing requirements that affect the products or services the Issuer offers, the terms on which the Issuer offers them, and the disclosure, compliance and reporting obligations the Issuer must fulfil in connection with the Issuer’s business.

1.1.3. Macroeconomic risk

In 2024, most of the Issuer’s revenue was generated in the Republic of Latvia. The Issuer through its 100% subsidiary DelfinGroup LT UAB launched online consumer lending operations in Lithuania in the beginning of 2025. Currently the Issuer is largely dependent on the revenue streams generated in Latvia, however, the business activity in Lithuania is expected to grow in the near future, therefore the Issuer is affected by the macroeconomic situation in both countries.

The Latvian and Lithuanian markets, however, are not immune to regional and global macroeconomic fluctuations – they are closely linked with the economies of the EU and the Euro monetary union. A slowdown in the EU may negatively affect the economies of the Latvian and Lithuanian markets market, causing an adverse effect on the Issuer’s business operations.

Selected macroeconomic indicators for Latvia:

	Latvia			
Year	2022	2023	2024	2025F
Real GDP (% yoy)	1.8	2.9	-0.4	0.5
CPI (% yoy)	17.2	9.1	2.2	3.0
Unemployment (%)	6.5	6.5	6.9	6.8

Source: Eurostat and European Commission

In 2024, real GDP fell by 0.4% (zero-point-four per cent). This was mostly due to the adverse geopolitical context and increasing uncertainty weighing on consumption and especially investment. Supported by strong wage growth, private consumption recovered from its contraction in 2023 but remained weak at 0.5% (zero-point-five per cent).

As the economy slightly contracted in 2024, the unemployment rate increased to 6.9% (six-point-nine per cent). With a slow recovery expected in 2025, the unemployment rate is forecast to edge down to 6.8% (six-point-eight per cent) in 2025.

In 2024 the CPI rapidly decreased due to the drop in energy prices, however it surged in the last months of the year due to high inflation in services and food (both processed and unprocessed) severely affecting consumers.

In 2025, the economy is expected to recover slowly from the 2024 contraction. However, increasing uncertainty amid a challenging geopolitical context is set to encourage precautionary savings.

Selected macroeconomic indicators for Lithuania:

	Lithuania			
Year	2022	2023	2024	2025F
Real GDP (% yoy)	2.5	0.3	2.8	2.8
CPI (% yoy)	18.9	8.7	0.9	2.6

Unemployment (%)	6.0	6.9	7.1	6.8
------------------	-----	-----	-----	-----

Source: Eurostat and European Commission

In 2024, real GDP grew by 2.8% (two-point-eight per cent). This was mostly due to consumption and investment developments supported by real wage growth. Going forward the Lithuanian economy is expected to continue growing, however, global trade tensions and uncertainty, in addition to the adverse geopolitical context can significantly affect export, consumption, investments and prices.

As economic activity continues to grow, the unemployment rate is expected to gradually decrease to 6.8% (six-point-eight per cent) in 2025, in 2024 it was 7.1% (seven-point-one per cent).

In 2024 the CPI rapidly decreased due to a drop in energy prices. However, due to a jump in food prices and increased excise duties on petrol, alcohol and cigarettes in the first months 2025 it is expected to reach 2.6% (two-point-six per cent) by the end of the year.

Overall, the uncertainty still remains elevated in both Latvia and Lithuania. Future economic growth rates could turn out to be lower and/or inflation could become higher, resulting in lower demand for the Issuer's products and/or higher cost base, and thus lower business and financial performance of the Issuer.

1.1.4. Competition risk

Issuer's principal competitors include other consumer lending providers and banks. As of the Issue Date there are 39 licensed consumer finance companies which operated in the territory of Latvia, offering different credit services; 5 of them offered loans against pledge of movable property (pawn loan). Among the licensed consumer finance companies, majority of lenders operate in a virtual environment, or only in a small geographic area.² The Issuer provides its services throughout the territory of Latvia - a total of 38 cities and rural areas, operating over 88 branches, as well as in the virtual environment. Taking into account the number of businesses that provide similar services, the Issuer's existing branch network, the quality of services and barriers to entry in the market, the Issuer risks of competition is not considered to be significant.

The Issuer's management has extensive experience in managing business, which is useful in adjusting to market changes and managing the company in changing conditions of external environment. Increased competition or more aggressive marketing and pricing practices on the part of the Issuer's competitors could result in lower revenues, margins and turnover rates in the Issuer's operations, which may have a material adverse effect on the Issuer's business, financial condition, results of operations, prospects and cash flows.

1.1.5. Credit risk

The Issuer is exposed to the risk of loss through defaults on the loans granted. The default is contingent on the inability or unwillingness of the customer to make payments. This includes scenarios where the customer makes payments late, only partially, or not at all. Issuer's lending decisions are based partly on information provided to the Issuer by loan applicants and/or delivered by third parties (credit bureaus, agencies, appraisers and other partners). Prospective customers may fraudulently provide the Issuer with inaccurate information or third parties might provide the Issuer with incomplete information which, if not alerted, may harm Issuer's credit scoring and respective risk decisions.

Any failure to correctly assess the credit risk of potential customers or to correctly assess the value of the collateral may have a material adverse effect on the Issuer's business, financial condition, results of operations, prospects and cash flows and may even invoke regulatory sanctions (including imposition of fines and penalties, suspension of operations, or revocation of the Issuer's licenses, decrease of the amounts of interest that loan applicants are required to pay to the Issuer).

² <https://registri.ptac.gov.lv/registri/pateretaju-kreditesanas-pakalpojumu-sniedzaji>

The Issuer operates according to its established credit risk policies and principles. If these policies and principles prove insufficient, which may be caused by an internal failure of the Issuer's risk management procedures or an external change of conditions beyond the Issuer's control and the quality of the Issuer's total loan portfolio deteriorates or the Issuer's collateral valuation principles become inadequate, the Issuer may be required to increase its impairments for the loan portfolio, which may have a material adverse effect on the Issuer's business, financial condition, results of operations, prospects and cash flows.

1.1.6. Privacy and data protection breach risk

The Issuer's business is subject to a variety of laws and regulations that involve user privacy issues, data protection, advertising, marketing, disclosures, distribution, electronic contracts and other communications, consumer protection and online payment services. The introduction of new products or the expansion of the Issuer's activities in certain jurisdictions may subject the Issuer to additional laws and regulations. In addition, the application and interpretation of these laws and regulations are often uncertain, particularly in the new and rapidly evolving fintech industry in which the Issuer operates, and may be interpreted and applied inconsistently and may also be inconsistent with the Issuer's current or past policies and practices. Existing and proposed laws and regulations can be costly to comply with and can delay or impede the development of new products, result in negative publicity, increase the Issuer's operating costs, require significant management time and attention, and subject the Issuer to inquiries or investigations, claims or other remedies, including demands which may require the Issuer to modify or cease existing business practices and/or pay fines, penalties or other damages. This may have a material adverse effect on the Issuer's business, financial condition, results of operations, prospects and cash flows.

1.1.7. AML and Sanctions compliance risk

As the Issuer carries out its activity in Latvia, the Issuer is a subject to the Law on the Prevention of Money Laundering and Terrorism and Proliferation Financing (*Noziedzīgi iegūtu līdzekļu legalizācijas un terorisma un proliferācijas finansēšanas novēršanas likums, pieņemts 17.07.2008*) and Law On International Sanctions and National Sanctions of the Republic of Latvia (*Starptautisko un Latvijas Republikas nacionālo sankciju likums, pieņemts 04.02.2016*) and complies with the international and local Applicable Laws which regulate prevention of legalization of proceeds derived from criminal activity and financing of terrorism and proliferation. The Issuer's 100% owned subsidiary DelfinGroup LT UAB carries out its activity in Lithuania, and it is a subject of the Law on the Prevention of Money Laundering and Terrorist Financing in the Republic of Lithuania (*Lietuvos Respublikos pinigų plovimo ir teroristų finansavimo prevencijos įstatymas*), the Law on International Sanctions in Republic of Lithuania (*Lietuvos Respublikos tarptautinių sankcijų įstatymas*) and complies with the international and local Applicable Laws which regulate prevention of legalization of proceeds derived from criminal activity and financing of terrorism and proliferation.

The Issuer and its subsidiaries take all the measures necessary to reduce the probability of conducting business with customers involved in or allegedly involved in money laundering and terrorism and proliferation financing by adhering to all the legal requirements. Nevertheless, there is a risk that the measures adopted by the Issuer and its subsidiaries may be insufficient for prevention of money laundering and terrorism and proliferation financing, as a result of which the Issuer may incur losses, be subjected to legal Sanctions, or its reputation may deteriorate. This may have an adverse effect on the financial position and reputation of the Issuer.

1.1.8. Counterparty risk

The Issuer may advance loans to customers and collect repayments from customers through local bank accounts and/or payment providers. The Issuer's continuing relationships with the banks and payment providers with which the Issuer maintains accounts and with which the Issuer may in the future establish accounts are critical to the Issuer's business.

There is a risk that the access to services the Issuer uses to verify the identity and creditworthiness of a potential customer, appraise pledged items and to provide marketing services may be restricted or prohibited, or the costs for these services may be significantly increased, which may affect Issuer's activity for an indefinite period of time.

Any inability to maintain existing business relationships with banks, local consumer credit agencies, IT service providers, collateral appraisers, debt-collection agencies and other third-party providers or the failure by these third-party providers to maintain the quality of their services or otherwise provide their services to the Issuer may have a material adverse effect on the Issuer's business, financial condition, results of operations, prospects and cash flows.

1.1.9. Liquidity risk

The Issuer is exposed to liquidity risks arising out of the mismatches between the maturities of the Issuer's assets and liabilities, which may prevent the Issuer from meeting its obligations in a timely manner. Although such mismatch is well managed by the fact that significant proportion of the Issuer's assets has short-term maturity while part of its liabilities are long-term, the Issuer's growth depends, to a significant extent, on its ability to obtain adequate funding from various sources. It is possible that these sources of financing may not be available in the future in the amounts the Issuer requires, or they may be prohibitively expensive and/or contain overly onerous terms. European and international credit markets have experienced, and may continue to experience, high volatility and severe liquidity disruptions, such as those that took place following the international financial and economic crisis in 2008-09. These and other related events have had a significant impact on the global financial system and capital markets and may make it increasingly expensive for the Issuer to diversify its funding sources, raise additional funds and refinance the Issuer's debt if necessary.

The Issuer may not be able to raise sufficient funds on terms that are favourable to it, if at all. If the Issuer fails to raise sufficient funds, its ability to fund operations, take advantage of strategic opportunities or otherwise respond to competitive pressures could be significantly limited, which may have a material adverse effect on the Issuer's business, financial condition, results of operations, prospects and cash flows.

1.1.10. Key employee risk

In the future, Issuer's duties will be affected by its ability to attract, preserve, and motivate highly qualified and experienced personnel. The market for qualified individuals in Latvia and Lithuania is highly competitive and labour costs for the hiring and training of new employees are increasing. Accordingly, the Issuer may not be able to attract and/or retain qualified executive officers or other specialists, which may have a material adverse effect on the Issuer's business, financial condition, and results of operations, prospects and cash flows.

1.1.11. Litigation risk

The Issuer may be adversely affected by contractual claims, complaints and litigation, resulting from relationships with counterparties, customers, competitors or regulatory authorities, as well as by any adverse publicity that the Issuer may attract. Any such litigation, complaints, contractual claims, or adverse publicity may have a material adverse effect on the Issuer's business, financial condition, results of operations, prospects and cash flows. Defence of any lawsuit, even if successful, could require substantial time and attention of the Issuer's management and could require the expenditure of significant amounts for legal fees and other related costs. The Issuer is also subject to a risk of regulatory proceedings, and the Issuer could suffer losses from the interpretation of applicable laws, rules and regulations in regulatory proceedings, including regulatory proceedings in which the Issuer is not a party. Any of these events could have a material adverse effect on the Issuer's business, financial condition, results of operations, prospects and cash flows.

1.1.12. Interest rate risk

The Issuer earns a substantial majority of its revenues from interest payments on the loans the Issuer issues to its customers (consumers). Financial institutions, peer-to-peer platforms, bond issues and other funding sources provide the Issuer with the capital to fund these loans and charge the Issuer interest on funds that the Issuer draws down. In the event that the spread between the rate at which the Issuer lends to its customers and the rate at which it borrows from its lenders decreases, the Issuer's financial results and operating performance will suffer. The interest rates the Issuer charges to its customers and pay to the Issuer's lenders could each be affected by a

variety of factors, including access to capital based on the Issuer's business performance, the volume of loans the Issuer issues to its customers, competition and regulatory requirements. Interest rate changes may adversely affect the Issuer's business forecasts and expectations and are highly sensitive to many macroeconomic factors beyond the Issuer's control, such as inflation, the level of economic growth, the state of the credit markets, changes in market interest rates, global economic disruptions, unemployment and the fiscal and monetary policies of the Republic of Latvia and/or European Union. Any material reduction in the Issuer's interest rate spread could have a material adverse effect on the Issuer's business, financial condition, results of operations, prospects and cash flows.

1.1.13. Risk of natural disasters, geopolitical instability and other business disruption

The Issuer's services and operations are vulnerable to damage or interruption from tornadoes, earthquakes, fires, floods, power losses, telecommunication failures, terrorist attacks, acts of war, human errors and similar events. A significant natural disaster, such as a tornado, earthquake, fire or flood, could have a material adverse impact on the Issuer's ability to conduct business.

The Issuer is headquartered in Latvia, a member state of the European union that is geographically situated near regions of heightened geopolitical tension, particularly Russia and Belarus. The ongoing conflict involving Russia and Ukraine has increased concerns about regional security and economic resilience in the Baltics.

Although the Issuer has implemented business continuity plans, acts of terrorism, war, civil unrest, violence or human error could cause disruptions to the Issuer's business or the economy as a whole. Any of these events could cause consumer confidence to decrease, which could decrease the number of loans the Issuer issues to customers. Any of these occurrences may have a material adverse effect on the Issuer's business, financial condition, results of operations, prospects and cash flows.

1.1.14. Taxation risk

Changes to local tax regime or challenges to the current tax structures of the Issuer's business could have material adverse effect on the Issuer's business, financial condition, or results of operations. Additionally, certain tax positions taken by the Issuer require the judgement of management and, thus, could turn to be inefficient or challenged by tax authorities due to possible erroneous interpretation of tax legislation.

1.1.15. Early redemption risk

According to the Terms of Notes Issue, the Notes may be redeemed prematurely at the initiative of the Issuer. If the early redemption right is exercised by the Issuer, the rate of return from the investment into the Notes may be lower than initially expected, as the Potential Investor might not be able to reinvest the redemption proceeds in a comparable security at an effective interest rate as high as the interest rate on such Notes being redeemed.

1.1.16. Risk of Material Changes in Shareholding Structure due to Share Buyback Offer by INDEXO

INDEXO, a financial services group active in Latvia through its pension management companies and INDEXO Bank, has announced its intention to make a voluntary share buyback offer to the shareholders of the Issuer³. The Issuer's largest shareholders have expressed support for the proposed share swap and the overall transaction⁴.

Although the Issuer does not plan to change its overall strategy, successful completion of the transaction could result in material changes to the Issuer's shareholder structure, including, but not limited to the entry of IPAS INDEXO (a joint-stock company, shares of which are listed on the regulated market) as a principal shareholder of the Issuer. Changes in the shareholder base may lead to adjustments in the Issuer's business plans or priorities.

³ [INDEXO plans to launch a voluntary share buyback offer to DelfinGroup shareholders](#)

⁴ [INDEXO plans to launch a voluntary share buyback offer to DelfinGroup shareholders](#)

It should also be noted that, depending on the level of shareholding acquired in the voluntary offer, IPAS INDEXO may become legally obliged to launch a mandatory (statutory) share buyback offer in accordance with the Applicable Laws. Such a mandatory offer could further increase IPAS INDEXO's ownership stake and significantly alter the Issuer's shareholder structure.

1.2. Risks factors related to Notes

1.2.1. Notes repayment risk

At Maturity date, the entire principal amount of the Notes, together with accrued and unpaid interest, will become due and payable. The Issuer may not have the ability to repay or refinance these obligations. If the Maturity date occurs at a time when other arrangements prohibit the Issuer from repaying the Notes, the Issuer could try to obtain waivers of such prohibitions from the lenders and holders under those arrangements, or the Issuer could attempt to refinance the borrowings that contain the restrictions. If the Issuer fails to obtain the waivers or refinance these borrowings, the Issuer would be unable to repay the Notes.

1.2.2. Subordination risk

The Notes will not be secured. The Notes rank *pari passu* with other unsecured obligations of the Issuer. In case of the insolvency of the Issuer, the Investors will be entitled to recover their investment on the same terms as other creditors in the respective claims' group according to the relevant Applicable Laws, after the satisfaction of all claims of all secured creditors of the Issuer. There are no contracts or other transaction documents that would subordinate the claims of the Investors to other unsecured liabilities of the Issuer.

According to reported audited financial statements as of 31 December 2024, the Issuer and its Subsidiary (ViziaFinance SIA) have outstanding secured liabilities to Mintos Finance in the amount of EUR 24,300,558 (EUR 28,018,740 on 30 June 2025).

According to reported audited financial statements as of 31 December 2024, the Issuer and its Subsidiary (ViziaFinance SIA) have outstanding secured liabilities to Mintos Finance in the amount of EUR 24,300,558 (EUR 28,018,740 on 30 June 2025).

Moreover, according to reported audited financial statements as of 31 December 2024, the Issuer has outstanding secured liabilities to Signet Bank AS in the total amount of EUR 2,345,000 (EUR 2,345,000 on 30 June 2025).

Furthermore, according to reported audited financial statements as of 31 December 2024, the Issuer has outstanding secured liabilities to MULTITUDE BANK P.L.C. in the amount of EUR 11,000,000 (EUR 23,500,000 on 30 June 2025). To explain, Issuer has a debt (2 revolving credit lines) to MULTITUDE BANK P.L.C. in the maximum total available credit line amount of EUR 11,000,000 and EUR 12,500,000. At the moment of signing the Terms of the Issue, Issuer's total utilised credit line (revolving credit) is EUR 23,500,000.

According to the reported audit financial statements as of 31 December 2024, the Issuer has outstanding secured liabilities to Citadele banka AS in the amount of EUR 4,076,180 (EUR 4,286,191 on 30 June 2025). To explain, Issuer has an overdraft facility with the maximum total available overdraft amount of EUR 4,900,000.

All in all, the Group has pledged its assets (*manta*) and claim rights (*prasjuma tiesibas*) for the maximum amount of secured claims of EUR 88,653,000.

Outstanding financing of DelfinGroup is secured with the following collaterals:

Pledge act No. and asset type	Pledgor	Debtor	Rank	Pledgee	Maximum amount of secured claims (EUR)
100212325 (claims)	ViziaFinance SIA	ViziaFinance SIA	1	Mintos Marketplace AS, Mintos Finance No.20 SIA	22,000,000

100212324 (claims)	DelfinGroup AS	DelfinGroup AS	1	Mintos Marketplace AS, Mintos Finance No.20 SIA	25,000,000
100201754 (assets)	DelfinGroup AS	DelfinGroup AS	1	Signet Bank AS	1,400,000
100203258 (assets)	DelfinGroup AS	DelfinGroup AS	1	Signet Bank AS	1,883,000
100203971 (claims)	DelfinGroup AS	DelfinGroup AS	1	MULTITUDE BANK P.L.C.	15,000,000
100210206 (claims)	DelfinGroup AS	DelfinGroup AS	1	MULTITUDE BANK P.L.C.	17,000,000
100210207 (claims)	ViziaFinance SIA				
100207891 (claims)	DelfinGroup AS	DelfinGroup AS	1	Citadele banka AS	6,370,000

In the above table a commercial pledge over all assets (*manta*) means an aggregation of property (*lietu kopība*) at the moment of pledging as well as its future components. A commercial pledge over all right to claim (*prasījuma tiesības*) means an aggregation of property (*lietu kopība*) at the moment of pledging as well as its future components.

Notes will be unsecured and effectively subordinated to any secured Financial Indebtedness of the Issuer, to the extent of the value of the Permitted Security securing such secured Financial Indebtedness.

1.2.3. Liquidity risk

This is a private placement; however, the Issuer intends to request admission to trading of the Notes on Nasdaq First North, but it cannot provide further assurances that trading will be permitted. Thus, there is a risk that no liquid secondary market for the Notes will exist.

Neither the Issuer nor any other person guarantees the minimum liquidity of the Notes. Thus, the Potential Investors and Investors should take into account that they may not be able to sell or face difficulties in selling their Notes in secondary market at their fair market value or at all.

1.2.4. Price risk

The development of market prices of the Notes depends on various factors, such as changes of interest rates, central bank policies, overall economic development, or demand for the Notes.

Neither the Issuer, nor any other person undertakes to maintain a certain price level of the Notes. The Investors are, thus, exposed to the risk of an unfavourable price development of their Notes if they sell the Notes prior to the Maturity Date. If an Investor decides to hold the Notes until the Maturity Date, the Notes will be redeemed at their Nominal value.

1.2.5. Foreign exchange risk

The Notes will be denominated and payable in EUR. If Potential Investors and Investors measure their investment returns by reference to a currency other than EUR, an investment in the Notes will entail foreign exchange-related risks due to, among other factors, possible significant changes in the value of the EUR relative to the currency by reference to which Potential Investors and Investors measure the return on their investments because of economic, political and other factors over which the Issuer has no control. Depreciation of the EUR against the currency by reference to which Potential Investors and Investors measure the return on their investments could cause a decrease in the effective yield of the relevant Notes below their stated coupon rates and could result in a loss to Investors when the return on such Notes is translated into the currency by reference to which the Investors measure the return on their investments.

1.2.6. Repurchase or redemption risk

The Issuer may seek to repurchase or redeem the Notes, especially when prevailing interest rates are lower than the rate borne by such Notes. If prevailing rates are lower at the time of redemption, the Investor may not be able to reinvest the redemption proceeds in a comparable security at an

effective interest rate as high as the interest rate on such Notes being redeemed. The Issuer's redemption right also may adversely impact Investor's ability to sell such Notes. The Issuer may from repurchase the Notes in the secondary market, privately negotiated transactions, tender offers or otherwise. Any such repurchases or redemptions and the timing and amount thereof would depend on prevailing market conditions, liquidity requirements, contractual restrictions and other factors. Such transactions could impact the market for such Notes and negatively affect the Notes' liquidity.

1.2.7. **Delisting risk**

After registration of the Notes the Issuer plans to request admission to trading of the Notes on First North within 12 (twelve) months from the Issue Date. There is a risk that Nasdaq Riga will not accept the Notes to be admitted to trading on First North or order that the Notes are delisted from First North before maturity after admission to trading has taken place due to changes in legal acts, including Nasdaq Riga regulations, or FSA recommendations.

1.2.8. **Tax risk**

Tax rates and tax payment procedure applicable at the moment of purchase of the Notes to the tax residents, non-residents of the Republic of Latvia, and residents of other countries may change. The Issuer will not compensate the Investors for any increases in taxes. Therefore, the Investors may receive smaller payments related to the Notes.

1.2.9. **Risk that some Investors might have more preferential terms than others**

While the Issuer will try to maintain the proportional reduction principle to the extent possible in final allocation of the Notes, in case the total number of Notes subscribed for is higher than the number of Notes available, the Issuer has a right to refuse all or part of the subscribed Notes to any Potential Investor due to perceived risks that might not be directly measurable and subjective, thus, the proportionality principle might not be observed.

Additionally, the Issuer has the right to sell the Notes at a price lower than their Nominal Value to selected Investors and/or enter into agreements that may add additional rights to selected Investors if the Issuer perceives them as especially important for this Notes issue due to the size of their investment or added experience. This may result in a situation where some Investors might gain preferential terms for investment into the Notes than the rest of the Investors.

1.2.10. **Resolutions of the Investors risk**

The majority resolution of the Investors is binding on all Investors. Thus, an Investor is subject to the risk of being outvoted by a majority resolution of the other Investors. As such, certain rights of such Investor against the Issuer may be amended or reduced, or even cancelled, without its consent.

6. Terms of the Offering

6.1. Subscription to the Notes

6.1.1. Placement period

The placement period for the Notes is divided in two stages:

- I. Initial offering ("New Subscription") of the Notes shall commence on 8 September 2025 at 10 AM Riga time and end on the Maturity Date, or when all Notes are sold, whichever is earlier.
- II. The Exchange Offer acceptance period shall commence on 8 September 2025 at 10 am Riga time and end on 22 September 2025 at 4 PM Riga time. During this period the existing notes with the ISIN LV0000802718 and maturity on 25 February 2026 ("Existing Notes") can be exchanged for the Notes with a settlement date on Exchange Offer Settlement Date, which is 25 September 2025.

6.1.2. Exchange Offer

By filing a respective corporate event notification to the Nasdaq CSD, within the respective stage of the placement period, the Issuer will offer to all investors holding the Existing Notes ("Existing Notes Investors") to exchange the Existing Notes with the Notes.

The exchange ratio is one-to-one and any number of the Existing Notes can be used for the exchange to the extent the Notes are unsold.

Existing Notes Investors can exchange their Existing Notes for the Notes by submitting within the respective stage of the placement period an offer for exchange to their Custodian in writing using the offer form provided by the Custodian banks stating the number of Existing Notes to be exchanged. The Custodian shall in turn inform the Nasdaq CSD on the total number of Existing Notes to be exchanged with the Notes and Existing Notes Investors who requested the exchange.

Each Existing Notes Investor willing to participate in the offer shall authorise and instruct the Custodian to immediately block the total number of the Existing Notes to be exchanged with the Notes on the Existing Notes Investor's securities account until the settlement for the transaction is completed or until the Existing Notes are released.

The number of the Existing Notes on the Existing Notes Investor's securities account to be blocked shall be equal to the total number of the Existing Notes to be exchanged with the Notes. An Existing Notes Investor may submit a subscription order only when there is a sufficient number of the Existing Notes on the securities account. If the number of the Existing Notes, which are blocked is insufficient, the order shall be deemed valid only in respect to the amount of a sufficient number of the Existing Notes that are on the Existing Notes Investor's securities account.

The Exchange Offer is not addressed and cannot be accepted by any Russian or Belarusian national, any natural person residing in Russia or Belarus, or any legal person, entity, or body established in Russia or Belarus. This restriction does not apply to nationals of a Member State or to natural persons holding a temporary or permanent residence permit in a Member State of the European Union.

Every Existing Notes Investor that accepts the Exchange Offer is entitled to a fee of 1.00% (one percent) as compensation for participation in the Exchange Offer. The fee is payable within 10 (ten) Business Days after the Exchange Offer Settlement Date and the record date for the fee is the Exchange Offer Settlement Date. For tax purposes the fee is treated as interest payment.

Only those Existing Notes Investors who hold the Existing Notes in Nominal of at least EUR 100,000 (one hundred thousand euro) are eligible to participate in the Exchange Offer arrangement.

6.1.3. **New subscription**

Subscription orders to the Notes can be submitted to the Arranger every Business Day during normal working hours until the end of the Subscription period. More detailed information on the submission of the subscription orders is available by phone +371 67 081 069.

Subscription orders can also be submitted to other Custodians, which in turn shall submit orders to the Arranger until the end of the Subscription period. The form of such subscription orders is regulated by contracts between Noteholders and Custodians and by the Applicable Laws.

The minimal initial subscription size (the “Minimum Investment Amount”) is EUR 100,000 (one hundred thousand Euro). Subscription size should be equal to a multiple of the Settlement Unit Multiple.

Total Nominal value of the Notes to be purchased and provided in each Subscription order shall be for at least Minimum Investment Amount. Potential Investors have the right to submit several orders during the offering.

All Subscription orders to the Notes shall be considered as binding and irrevocable commitment to acquire the allotted Notes.

By submitting the subscription order the Potential Investor confirms that it (i) has read and understands the Terms of the Issue, (ii) agrees and commits to adhere to the Terms of the Issue.

The First Settlement Date of Notes is 25 September 2025.

Article 5f of Regulation (EU) No. 833/2014 (as amended by Council Regulation (EU) No. 2022/328) and Article 1f of Regulation (EC) No. 765/ 2006 (as amended by Council Regulation (EU) No 2022/398) prohibit the sale of euro denominated transferable securities issued after 12 April 2022 or units of undertakings for collective investment (UCIs) providing exposure to such transferable securities, to any Russian or Belarusian national, any natural person residing in Russia or Belarus or to any legal person, entity or body established in Russia or Belarus. This prohibition does not apply to nationals of a Member State or to natural persons holding a temporary or permanent residence permit in a Member State of the European Union.

All the expenses related to the acquisition and custody of the Notes shall be borne by a Potential Investor in compliance with the pricelist of a credit institution or investment service provider, through which the Potential Investor purchases and keeps Notes. The Issuer is not obliged to compensate any such expenses incurred by the Potential Investor.

6.1.4. **Notes price**

The Notes purchase price can be equal to 100% (one hundred per cent) of the Nominal value or purchase price could be lower or higher than the Nominal value, meaning that the Notes can be sold with discount or premium, plus accrued interest, at sole discretion of the Issuer.

All subscription orders that were aggregated during the subscription period with the First Settlement Date will be delivered without accrued interest.

All subscription orders that have been submitted after the First Settlement Date shall be executed with accrued interest, unless the settlement date for subscription orders is the 5 (five) Business Days before each Coupon payment date – from the Coupon record date and until the Coupon payment date, in which case the subscription orders shall be executed without accrued interest.

6.1.5. **Reduction of the Notes issue size**

At any time the Issuer may decide to discontinue offering of the Notes. The total issue size is equal to the actual issue size of the Notes before such decision.

6.1.6. Allocation of the Notes to Investors

The Notes are allocated to Potential Investors in the amount not larger than the amount specified in the subscription order and not less than the minimum size as described in the Clause 6.1.3. “New subscription”.

The Arranger or the Issuer at its sole discretion has a right to refuse to allocate all or part of the subscribed Notes to any Potential Investors due to AML and Sanctions regulations compliance risk.

In case the total number of the Notes subscribed for during the subscription period is larger than the number of Notes available, the Issuer at its sole discretion has a right to refuse to allocate all or part of the subscribed Notes to any Potential Investor. The decision on the final allocation of Notes to Potential Investors is made by the Issuer.

Settlement of the Notes will be executed through the Nasdaq CSD as DVP (delivery versus payment) transactions according to the applicable Nasdaq CSD rules and Operating Manual. The Custodians execute payments for the Notes based on the results of the subscription provided by the Arranger. The Notes will be transferred to Investors’ financial instrument accounts on the settlement date.

On 17 July 2023 it has been registered in the Latvian Commercial Register that the beneficial owner of the Issuer is a shareholder in a joint-stock company, shares of which are listed on the regulated market and control over the legal entity exercises only from the shareholder's status.

A change of control may occur if the voluntary share buy-back offer of IPAS INDEXO to the shareholders of the Issuer will be legally offered and executed as it is currently intended since the Issuer's largest shareholders have expressed support for the proposed share swap and the overall transaction⁵. Successful completion of the transaction could result in material changes to the Issuer's shareholder structure, including, but not limited to the entry of IPAS INDEXO (a joint-stock company, shares of which are listed on the regulated market) as a principal shareholder of the Issuer.

It should also be noted that, depending on the level of shareholding acquired in the voluntary offer, IPAS INDEXO may become legally obliged to launch a mandatory (statutory) share buy-back offer in accordance with the Applicable Laws. Such a mandatory offer could further increase IPAS INDEXO's ownership stake and significantly alter the Issuer's shareholder structure.
