In 2015, the FCMC performed several inspections at the Bank to verify the compliance with the requirements of the Credit Institution Law and the Law on the Prevention of Money Laundering and Terrorism Financing, following which there was administrative matter initiated on 18 December 2015. On 26 May 2016, the Financial and Capital Market Commission and ABLV Bank entered into the administrative agreement regarding the violations detected under the FCMC inspections, which is aimed at improving the functioning of the Bank's internal control system. Taking into account that ABLV Bank currently complies with all regulatory requirements and continues improvement of its internal control system, a fine of EUR 3.17 million (which corresponds to 2.5% of the Bank's total income for the year) is applied to the Bank and warning is given to the responsible Member of the Bank's Board according to the agreement.

B.13 Events particular to the Issuer which are to a material extent relevant to the evaluation of the Issuer's solvency

During the inspections, the FCMC considered that the Bank had not paid sufficient attention to the client's untypically large, complex or interrelated transactions and also had not performed intense supervision of some clients' transactions under the enhanced due diligence. The FCMC conclusions, made during the inspections, regarding the deficiencies in the Bank's internal control system in the field of the prevention of money laundering and terrorism financing concern previously executed clients' transactions and their documentation, and the Bank currently applies necessary measures to eliminate those deficiencies.

The parties to the administrative agreement have agreed upon further measures that the Bank committed to take in full within the set terms in order to improve the internal control system and to strengthen its efficiency. The Bank has already refused cooperation with some clients which might cause inadequate risk in terms of the current requirements, and strict assessment of the clients is continued. Moreover, the number of compliance officers has been substantially increased and the capacity of respective structural units has been strengthened. ABLV Bank also plans to invest not less than EUR 6.5 million in improving the internal control system.

ABLV Bank is convinced that the sanctions set forth in the administrative agreement will have no material impact on the Bank's financial status and earning capacity. On the contrary, the Bank will consequently improve its internal control system in the AML (anti money laundering) area following the current international best practice, as well as good reputation of the Bank will be promoted.

Recently there were no other events particular to ABLV Bank which are to a material extent relevant to the evaluation of the Issuer's solvency.
